9 **Notices**

Senator Roberts: To move on the next day of sitting—

(1) That the Senate notes that:

(a) on 5 February 2020, the Minister for Defence tabled a response to an order for the production of documents relating to PFAS contamination at RAAF Base Williamtown and RAAF Base Richmond, agreed to on 4 December 2019;

(b) the response to the order did not include information in relation to RAAF Base Richmond and included incomplete information in relation to RAAF Base Williamtown; and

(c) despite the response stating that no livestock have been tested, reports have been made that cattle have been tested within the contamination zones of RAAF Base Williamtown and RAAF Base Richmond.

(2) That there be laid on the table by the Minister for Defence, by 10 am on 26 February 2020, the following documents:

(a) details of all blood testing on defence personnel and livestock which were taken from within the contamination zone of RAAF Base Richmond (including private land) within the last 24 months, including:

(ii) a copy of the test result for each test taken with all personal information redacted; and
(b) details of all blood testing on livestock which were taken from within the contamination zone of RAAF Base Williamtown and Williamtown Airport (including private land) within the last 24 months, including:

(i) the level of per- and poly-fluoroalkyl substances (PFAS), and

(ii) a copy of the test result for each test taken. (general business notice of motion no. 433)

Senator Roberts: To move on the next day of sitting—

(1) That the Senate notes that the Royal Commission into Financial Services made recommendations regarding voluntary codes of practice, including:

(a) recommendation 1.15 – that the Australian Securities and Investment Commission’s (ASIC) power to approve codes of conduct extends to codes relating to all Australian Prudential Regulation Authority (APRA) regulated institutions and Australian credit licence holders; that industry codes of conduct approved by ASIC may include ‘enforceable code provisions’, which are provisions in respect of which a contravention will constitute a breach of the law;

(b) recommendation 1.16 – 2019 Banking Code, the Australian Banking Association and ASIC should take all necessary steps to have the provisions that govern the terms of the contract made or to be made between the bank and the customer or guarantor designated as ‘enforceable code provisions’; and

(c) recommendation 4.9 – as referred to in recommendation 1.15, the law should be amended to provide for enforceable provisions of industry codes and for the establishment and imposition of mandatory industry codes.

(2) The Senate further notes that ASIC stated in their publication “ASIC update on implementation of Royal Commission recommendations” as follows:

(a) ASIC will commence work immediately with the banking industry on appropriate amendments to the Banking Code in relation to each of these recommendations; and

(b) ASIC will work with industry in anticipation of the Parliament legislating reforms in relation to codes and ASIC’s powers to provide for ‘enforceable code provisions’.

(3) The response by the Minister for Finance (Senator Cormann) to a previous order for the production of documents (no. 332), agreed to by the Senate on 4 December 2019, included no suitable documents.

(4) That there be laid on the table by the Minister representing the Treasurer by 5.00 pm on 24 February 2020 the following documents that relate to enforceable provisions of the Banking Code of Practice:

(a) all emails between the Treasury and any other party; and

(b) all draft or final documents, including but not limited to, internal memos, briefing documents, drafting guidelines and correspondence. (general business notice of motion no. 434)
Senator McCarthy: To move on the next day of sitting—That the Senate—
(a) notes that:
(i) the Aged Care Assessment Teams (ACAT) are teams of professionals that are based in hospitals across the country and are responsible for assessing which older Australians should receive government-funded care,
(ii) the Morrison Government has announced it wants to privatise the ACAT workforce from April 2021, when a tender will be put out for organisations to deliver this vital assessment,
(iii) the New South Wales (NSW) Liberal Minister for Health and Medical Research, Mr Brad Hazzard, has said that the Morrison Government’s decision to privatise these services lacks “logic” and that “NSW has major concerns”,
(iv) no consultation was undertaken by the Morrison Government to inform its NSW Liberal colleagues of the decision to privatise aged care assessment services, and
(v) there has also been criticism about the Morrison Government wanting to privatise assessment services by highly regarded experts across the aged care sector;
(b) supports the retention of ACATs as a publicly, independently provided service;
(c) opposes the privatisation of the ACAT workforce; and
(d) condemns the Morrison Government for its continued piecemeal approach to aged care policy. (general business notice of motion no. 435)

The Minister for Families and Social Services (Senator Ruston): To move on the next day of sitting—That—
(a) if the notice of motion proposing the disallowance of the Helicopter Aerial Application Endorsements Exemption 2019 standing in the name of the Chair of the Standing Committee on the Scrutiny of Delegated Legislation (Senator Fierravanti-Wells) for two sitting days after today (13 February 2020) has not been resolved by 12.45 pm on 13 February 2020, the notice of motion shall be called on and considered at 3.30 pm that day; and
(b) if consideration of the motion is not concluded by 4 pm, the question on the unresolved motion shall then be put.

Senators Sheldon and Walsh: To move on the next day of sitting—That the Senate—
(a) notes that:
(i) Dinner by Heston, the high-end restaurant fronted by Mr Heston Blumenthal, has been caught stealing up to $4.5 million from its own employees,
(ii) these employees worked up to 25 unpaid hours each week, leaving many underpaid to the sum of $35,000 a year,
(iii) Dinner by Heston’s landlord, Crown Casino, aided in this endeavour by entering into byzantine corporate arrangements including interest-free loans, millions paid to the restaurant’s owners in licensing fees, and an annual rent for the restaurant of only $1,
(iv) this $4.5 million underpayment scandal joins Mr George Calombaris’ $7.8 million dollar underpayment scandal and Mr Neil Perry’s $10 million dollar underpayment scandal as yet another example of an alarming business model amongst elements of corporate Australia, and

(v) there is a wage theft crisis in Australia that must be addressed;

(b) supports real action on the underlying causes of these issues through the Economics References Committee inquiry, Unlawful underpayment of employees’ remuneration, agreed on 13 November 2019; and

(c) commends the United Workers Union for their advocacy and hard work on behalf of these affected restaurant workers. (general business notice of motion no. 436)

Senator Hanson-Young: To move on the next day of sitting—That the following bill be introduced: A Bill for an Act to amend the Environment Protection and Biodiversity Conservation Act 1999, and for related purposes. Senators McCarthy and Dodson: To move on Thursday, 13 February 2020—That the Senate—

(a) notes that:

(i) 12 years ago, on 13 February 2008, former Prime Minister Kevin Rudd, delivered the National Apology to the Stolen Generations in the Australian Parliament,

(ii) the National Apology to the Stolen Generations came about as a recommendation from The National Inquiry into the Separation of Aboriginal and Torres Strait Islander Children from their Families, entitled Bringing Them Home, tabled on 26 May 1997,

(iii) the inquiry highlighted the suffering of Indigenous families under the Commonwealth, State and Territory Aboriginal protection and welfare laws and policies, and

(iv) there is still significant work that needs to be done to address the impacts of dispossession, discrimination and trauma;

(b) acknowledges that an important step in healing our nation is the acknowledgement of truth; and

(c) as part of this healing calls on the Federal Government to commit to a process of truth telling about Australia’s history. (general business notice of motion no. 438)

Senator Siewert: To move on the next day of sitting—That the Senate—

(a) notes that the report from the National Children’s Commissioner, Children’s Rights Report 2019, highlighted some critical issues in the protection of children’s rights:

(i) First Nations children experience significant inequalities in health, education, justice and child protection outcomes,

(ii) there has been an increase in child deaths by suicide and hospitalisations for intentional self-harm,

(iii) approximately 17% of children under the age of 15 live in poverty,

(iv) there has been a 27% increase in reported substantiations of child abuse and neglect, and
(v) the age of criminal responsibility is ten, which is low compared to other countries; and

(b) calls on the Commonwealth, state and territory governments to implement the important recommendations made in the report, including:

(i) Australian Governments should urgently prioritise prevention and early intervention programs to reduce the number of children entering child protection systems and removing barriers to sustained reunification of children with their families by strengthening services and supports leading up to and post-reunification,

(ii) the Australian Government should make the Transition to Independent Living Allowance for children available for all care leavers leaving home up to the age of 25,

(iii) the Australian Government should develop a national poverty reduction plan that explicitly focuses on children, and

(iv) Australian Governments should raise the minimum age of criminal responsibility to at least 14 years and abolish mandatory minimum sentencing laws that apply to children. (general business notice of motion no. 439)

Senator Bilyk: To move on the next day of sitting—That the Senate—

(a) notes that yesterday, 11 February 2020, was Safer Internet Day (SID), an annual, worldwide event to promote a safer and better internet, where everyone is empowered to use technology responsibly, respectfully, critically and creatively;

(b) recognises that, while there are enormous benefits to the internet, going online also comes with risks including (but not limited to) cyberbullying, cyberstalking, trolling, malware, scams, and the theft of financial and personal information;

(c) expresses its support for the SID campaign’s aim to reach out to children and young people, parents and carers, teachers, educators and social workers, industry, decision makers and politicians to encourage everyone to play their part in creating a safer and better internet; and

(d) encourages:

(i) all members and senators in the Australian Parliament to promote the messages of SID to their constituents along with helpful advice about how to protect themselves and those in their care from harm online; and

Senator Roberts: To move on the next day of sitting—

(1) That the Senate notes that, on 10 February 2020, Senator Cormann stated that climate change is human induced.

(2) That there be laid on the table by the Leader of the Government in the Senate, by 10 am on 24 February 2020:
   (a) a list of titles of reports and publications which the Government relies upon for this belief; and
   (b) for each publication specify the page numbers on which are presented the evidence that carbon dioxide from human activity affects climate and needs to be cut. (general business notice of motion no. 441)

The Leader of Pauline Hanson’s One Nation (Senator Hanson): To move on the next day of sitting—

(a) notes that the current hourly rate of full-time pay for an adult aged care worker ranges from $20.73 (level 1) to $25.18 (level 7), which does little to recognise the dedication, compassion and caring they provide to our older, often vulnerable, Australians;

(b) acknowledges that this low rate of remuneration in an industry which demands a high level of care as well as health management skills leads to the high turnover of staffing in aged care facilities; and

(c) calls on the Federal Government to immediately act to increase pay rates in the aged care sector to better reflect the important work undertaken. (general business notice of motion no. 442)

Senator O’Neill: To move on the next day of sitting—That the time for the presentation of the report of the Parliamentary Joint Committee on Corporations and Financial Services on the regulation of auditing in Australia be extended to 1 September 2020. (general business notice of motion no. 443)

The Leader of the Australian Greens in the Senate (Senator Waters): To move on the next day of sitting—That there be laid on the table by the Minister representing the Minister for Energy and Emissions Reduction (Senator Birmingham) by 3:30 pm on 24 February 2020, all Departmental advice relating to establishing a coal-fired generation plant in Collinsville, Queensland, including but not limited to:

(a) the suitability or otherwise of a new coal-fired power station in Queensland;

(b) current congestion issues in this part of the grid network; and

(c) any economic, greenhouse or environmental impacts of establishing the coal-fired power station. (general business notice of motion no. 444)
Senators Wong, Waters, Lambie, Patrick and Hanson: To move on the next day of sitting—That—

(1) The Senate notes that:

(a) on 5 February 2020, the Senate ordered the Minister representing the Prime Minister, Senator Cormann, to table the final report provided by the Secretary of the Department of the Prime Minister and Cabinet, Mr Phillip Gaetjens, to the Prime Minister in relation to the application of the Honourable Senator McKenzie’s, award of funding under the Community Sport Infrastructure Program; Statement of Ministerial Standards to the former Minister for Sport, the

(b) on 6 February 2020, the Minister representing the Prime Minister tabled a letter making a public interest immunity claim grounded in the preservation of the confidentiality of cabinet deliberations,

(c) the document is a final report prepared outside of the Cabinet Room and has no capacity to reveal deliberations inside the Cabinet Room; and

(d) the Senate does not accept the public interest immunity claim made by the Minister representing the Prime Minister.

(2) Until the final report provided by the Secretary of the Department of the Prime Minister and Cabinet, Mr Phillip Gaetjens, to the Prime Minister in relation to the application of the Statement of Ministerial Standards to the former Minister for Sport, the Honourable Senator McKenzie’s, award of funding under the Community Sport Infrastructure Program, is tabled, or 6 March 2020, whichever is the earlier, Senator Cormann be prevented from:

(a) being asked or answering questions which may be put to ministers under standing order 72(1) where such questions are directed to the Minister representing the Prime Minister;

(b) representing the Prime Minister before a legislative and general purpose standing committee, including during consideration of estimates; and

Senator McAllister: To move on the next day of sitting—That the Senate—

(a) acknowledges:

(i) the devastating effect of drought on water supplies in Australian local communities, and

(ii) that the recent bushfire crisis has compounded water insecurity in affected areas;

(b) notes that:

(i) the Eurobodalla Shire Council’s 2016 proposal for a second water storage facility in the southern part of the shire would add 3,000 mega litres of water storage to the region,

(ii) the project has support from local and state governments, with the New South Wales (NSW) State Government committing $26.3 million in October 2019,
(iii) the Eurobodalla Shire Council has called for a $51 million commitment from the Government to build the dam, noting they will fund the rest of the $105 million project, and

(iv) all supporting parties should ensure the project is environmentally sound;

(c) recognises that:

(i) Australians and regional communities are rightly sceptical about the Government’s track record on water infrastructure and drought policy,

(ii) in 2013, former Prime Minister Abbott said he would build 100 dams across Australia—three terms later and in its seventh year of power, the Government has failed to fulfil its promise,

(iii) Prime Minister Morrison was caught out for being loose with the truth in October 2019 when he claimed his government was contributing more investment in NSW dam infrastructure than they actually were,

(iv) more than two years after the announcement of the $2 billion National Water Infrastructure Facility, not a single dollar had been spent, and

(v) that the Eurobodalla community has been waiting for a response from the Government since October 2019 in relation to their water storage proposal; and

(d) calls on the Federal Government to urgently respond to the Eurobodalla Shire Council’s request for funds for the Southern Water Supply Storage project.

(general business notice of motion no. 446)

Senator Whish-Wilson: To move on the next day of sitting—That the Senate—

(a) notes that:

(i) urgent action is required to mitigate climate change,

(ii) the Intergovernmental Panel on Climate Change special report on Climate Change and Land, stated that, in the short term, leaving existing forests standing is the most effective way to manage forests to mitigate climate change, and

(iii) the plans by the Tasmanian Government to allow logging in the Tarkine in north-west Tasmania will result in an increase in carbon emissions; and

(b) calls on the Tasmanian Government to abandon its plans to allow logging in the Tarkine. (general business notice of motion no. 447)

10 Special purpose flights—Order for production of documents

The Leader of the Opposition in the Senate (Senator Wong), pursuant to notice of motion not objected to as a formal motion, moved general business notice of motion no. 432—

(1) That the Senate notes that:

(a) under the guidelines for the use of special purpose aircraft, the Minister for Defence is responsible for tabling the schedule of special purpose flights “...in June (for the six months ending the previous 31 December) and December (for the six months ending the previous 30 June)”;

(b) regrettably, under the Abbott-Turnbull-Morrison Government, the schedule has routinely been tabled late, in one case over eight months late;
(c) the most recent schedule published at https://www.defence.gov.au/Publications/Parliament/ is for the six months ending 30 June 2017;

(d) consistent with the guidelines, previous governments tabled schedules on the last sitting day of June and December each year; and

(e) the most recently tabled schedule for the six months ending 31 December 2018 was not tabled until 28 August 2019.

(2) That there be laid on the table by the Minister for Defence, by no later than 9.30 am on 13 February 2020, the schedule of special purpose flights for the period 1 January to 30 June 2019.

Senator McCarthy, at the request of Senator McAllister and pursuant to notice of motion not objected to as a formal motion, moved general business notice of motion no. 422—That the Senate endorses Senator Cormann’s statement to the Senate on 10 February 2020, that climate change is human induced, and welcomes his confirmation that the Morrison Government accepts this fact.

Question put and passed.

12 Environmental flows

Senator Hanson-Young, pursuant to notice of motion not objected to as a formal motion, moved general business notice of motion no. 403—That the Senate—

(a) notes that:

(i) environmental flows are critical to the health of the Murray-Darling Basin, which is home to more than 2 million people and more than 40 Aboriginal nations, and supports over 120 waterbird species and 46 native fish species,

(ii) the continued attack on environmental flows to the Murray-Darling Basin will threaten the overall sustainability of the river, which is needed to support people, plants and animals,

(iii) the river is a national asset, it does not belong to any one single State, and

(iv) the threats by some Basin states to pull out of the Murray-Darling Basin Plan is putting the future of the entire river system in jeopardy; and

(b) calls on the Federal Government to confirm its commitment to protect environmental flows as required under the Murray-Darling Basin Plan.

Statement by leave: The Leader of the Nationals in the Senate (Senator McKenzie), by leave, made a statement relating to the motion.

Question put and passed.
13 **International Holocaust Remembrance Day**

Senator Dean Smith, also on behalf of Senators Griff, Ciccone, Chandler, Hughes, Kitching, O'Neill and Wong, pursuant to notice of motion not objected to as a formal motion, moved general business notice of motion no. 413—That the Senate—

(a) notes that 27 January 2020 marked International Holocaust Remembrance Day, a day where we remember the atrocities committed by the Nazi regime and its collaborators, and reaffirm our promise to ‘never forget’ the 6 million Jews and 11 million others who were exterminated during the Holocaust;

(b) acknowledges the importance of International Holocaust Remembrance Day in honouring the memory of all Holocaust victims, and the ongoing efforts of the International Holocaust Remembrance Alliance to advance and promote Holocaust education to ensure the history and stories of its victims are passed on to successive generations;

(c) notes that Australia officially became the 33rd member of the International Holocaust Remembrance Alliance at the Mondorf-les-Bains Plenary meeting on 4 June 2019;

(d) notes this year’s annual observance also marked the 75th anniversary of the liberation of Auschwitz, the largest and most notorious concentration camp operated by the Nazi regime, located approximately 60 km west of Krakow, Poland;

(e) further acknowledges that more than 1.1 million people were killed at the Auschwitz complex alone, including nearly 1 million Jews, and that on the day of liberation only 7,000 people were saved; and

(f) further notes that during the 1940s, tens of thousands of European Jews emigrated to Australia, and that Australia has the largest per-capita Holocaust survivor population outside Israel.

14 **Palliative Care Tasmania**

Senator Bilyk, pursuant to notice of motion not objected to as a formal motion, moved general business notice of motion no. 416—That the Senate—

(a) notes that:

   (i) Palliative Care Tasmania’s (PCT) three-year $1.5 million funding agreement expires on 30 June 2020, and

   (ii) most state and territory palliative care peak bodies receive recurrent government funding;

(b) recognises that:

   (i) PCT provides valuable services to the palliative care sector and the broader community, including advocacy, policy advice, and community education and professional development delivered to over 4,000 Tasmanians a year,

   (ii) these services:

      (A) help educate Tasmanians on the importance of advance care planning, writing advance care directives and discussing future care wishes with family and close friends,
(B) lead to millions of dollars of savings in residential aged care and acute health care—conservatively, cost savings of $30 million a year are made through their work in residential aged care and cost savings of $25 million a year are made based on 10% of participants in their education programs understanding advance care planning and completing an advance care directive, and

(C) provide Tasmanians with life-limiting illness greater choice, control, comfort and dignity in their care, and help to ensure that thousands of Tasmanians can have a good death; and

(iii) should PCT not receive further funding, their services would either have to be provided directly by the Tasmanian Government at much greater cost or would be lost to the palliative care sector; and

(c) calls on the Tasmanian and Australian Governments to work together to come up with a plan to fund PCT which provides PCT with adequate funding and certainty to continue its core activities beyond 30 June 2020.

(ii) observation that “We cannot allow ideology and politics to get in the way of our clear path to secure our economic prosperity, let alone the health of our planet for generations of Australians”, and

(iii) statement that “… taking action to reduce our emissions today is not about a cost that we are morally obliged to pay, it’s about taking an economic opportunity that we would be negligent to miss”;

(c) concurs with Minister Kean that “renewables today are the cheapest form of new generation”; and

(d) calls on Prime Minister Morrison to listen to Minister Kean and experts across all fields and take strong action to address climate change.

   (ii) ARENA has driven the acceleration and uptake of home-grown emissions reductions technologies with $1.4 billion funding 478 projects, leveraging $2.83 of private investment for each dollar committed to generate a total $5.5 billion in projects, and
   (iii) the evidence provided by ARENA during Senate estimates hearings indicate that they expect to run out of money by the middle of this year; ARENA has 60 expressions of interest and 94 full applications still before them; and

(b) calls on the Minister for Energy and Emissions Reduction, Mr Taylor, who has issued 32 media releases promoting the work of ARENA, to ensure that the Agency will receive more legislated funding in the 2020-21 budget and continue their important work in the fields of hydrogen, bioenergy and clean technologies that are central to our future prosperity and driving new employment in Australia’s regions.

   (i) reports that, in December 2017, the National Aerial Firefighting Centre (NAFC) submitted a business case to the Government requesting a permanent increase in funding of $11 million to its annual budget,
   (ii) evidence from the Department of Home Affairs that, as at 6 December 2019, the Government was still considering the business case, and
   (iii) that when asked about the business case on 4 January 2020, the Commissioner of the New South Wales Rural Fire Service, Mr Shane Fitzsimmons, said that “We haven’t seen a positive response to that business case”; and

   (ii) up to 20 children each week present to emergency departments after swallowing button batteries, and
   (iii) two and a half years after the introduction of a voluntary industry code in Australia, a high level of unsafe button battery products remain available in the Australian market, and a meaningful decrease in the rate of button battery exposures or injuries is not yet apparent; and

(b) calls on the Federal Government to implement a mandatory code to protect children from being exposed to button batteries in Australia and to prevent the sale of dangerous products.
