1 MR RIPOLL: To move—That this House:

(1) notes that:
   (a) the Food and Agriculture Organisation of the United Nations—World Food Day (WFD)—is 16 October;
   (b) the food and economic crises have seen a substantial increase in global poverty with the number of undernourished people having now reached 1 billion for the first time;
   (c) an estimated 100 million people have fallen into poverty in the last two years; and
   (d) longer term population and income projections indicate global food production needs to increase more than 40 per cent by 2030 and 70 per cent by 2050 to feed an extra 80 million people every year;

(2) acknowledges:
   (a) the objectives of WFD; and
   (b) that the outcomes from the upcoming Copenhagen Climate Change Meeting will have significant implications for global food security; and

(3) supports:
   (a) policies, projects and programs that deliver long term solutions for food security as a means of reducing poverty and achieving sustainable development; and
   (b) the Australian Government’s continued commitment to comprehensive global action in addressing the underlying causes of global food insecurity. (Notice given 17 September 2009. Notice will be removed from the Notice Paper unless called on on 21 June 2010.)

2 MS A. E. BURKE: To move—That this House:

(1) notes that:
   (a) the eastern region of the Democratic Republic of Congo (DRC) continues to suffer from high levels of poverty, insecurity, and a culture of impunity, in which illegal armed groups and military forces continue to commit widespread human rights abuses;
   (b) according to a study by the International Rescue Committee released in January 2008, conflict and related humanitarian crisis in the DRC have resulted in the deaths of an estimated 5,400,000 people since 1998 and continue to cause as many as 45,000 deaths each year;
   (c) the mismanagement and illicit trade of extractive resources from the DRC support conflict between militias and armed domestic factions in neighbouring countries; and

(2) calls on the Government to promote peace and security in the eastern DRC by supporting efforts of the Government of the DRC and the international community to monitor and stop commercial activities involving natural resources that contribute to illegal armed groups and human rights violations. (Notice given 27 October 2009. Notice will be removed from the Notice Paper unless called on on the next sitting Monday after 21 June 2010.)

3 MR HAYES: To move—That this House:

(1) notes that 25 November marks White Ribbon Day, the symbol of the United Nations International Day for the Elimination of Violence against Women;

(2) recognises that White Ribbon Day aims to prevent violence against women by increasing public awareness and education by challenging the attitudes and behaviours that allow violence to continue;

(3) asks all Australian men to challenge these behaviours, so that we can begin to drive real change in our community;
(4) notes with concern that one in three women will experience physical violence, and one in five will experience sexual violence over their lifetime;

(5) understands that domestic violence and family violence are primary causes of homelessness;

(6) acknowledges the cost of violence against women and their children to the Australian economy was estimated to be $13.6 billion in 2008-09, and if we take no action to shine a light on this violence, that cost will hit an estimated $15.6 billion by 2021-22; and

(7) asks all members to show that they are challenging violence against women by wearing a white ribbon or wristband on White Ribbon Day. (Notice given 28 October 2009. Notice will be removed from the Notice Paper unless called on on any of the next 3 sitting Mondays after 21 June 2010.)

4 MS RISHWORTH: To move—That this House:

(1) notes that the Henry Tax Review:
   (a) concluded that the existing occupational superannuation scheme is only capable of providing ‘adequate’ income for most retirees in Australia;
   (b) made the in-principle recommendation that the fairness of the existing tax assistance to superannuation needs to be improved and that the generous salary-sacrifice concessions need to be limited; and
   (c) projected that under the existing system people on higher incomes will continue to be much more likely to make large contributions and take advantage of the taxation concession;

(2) recognises that in anticipation of the final December 2009 report, a national debate on superannuation reform is needed; and

(3) acknowledges that this debate should focus on:
   (a) increasing the superannuation contribution rate above the current level of nine per cent;
   (b) delivering better outcomes for Australian retirees through a superannuation scheme which aspires to deliver more than ‘adequate’ outcomes, especially for low and middle income retirees;
   (c) the need for equity in Australia’s superannuation scheme; and
   (d) addressing the fact that the existing 15 per cent tax on superannuation contributions is a concession which disproportionately advantages high-income earners. (Notice given 19 November 2009. Notice will be removed from the Notice Paper unless called on on any of the next 3 sitting Mondays after 21 June 2010.)

9 MR KERR: To move—That this House adopt standing order 271 in the following terms:

271 Address for removal of federal justice
An address to the Governor-General pursuant to section 72 of the Constitution shall be dealt with in the
following manner:
   (a) A Member may give notice of a motion for an address praying for the removal from office of a named
justice of the High Court or of another court created by the Parliament on the ground of proved
misbehaviour or incapacity. The motion must make specific allegations in precise terms.
   (b) A Member shall not give such a notice of motion before giving to the Speaker a letter advising:
      (i) that the Member has previously informed the justice in writing of the substance of the
allegation(s) proposed to be made in any address for removal and inviting the justice to
communicate to the Member any matter material to the allegation(s) and any reasons why, in
the opinion of the justice, the allegation(s) is/are ill informed or do not amount to a cause for
removal; and
(ii) that the justice has had either at least 10 days to respond and has failed to do so, or has responded, but notwithstanding, the Member remains of the view that it is proper to proceed with a motion for the removal of the justice.

(c) A Member giving such a notice of motion shall at the same time lay before the House a statement of reasons in support of the motion together with any documentary materials relevant to that statement.

(d) On the notice being given, the Speaker must immediately advise the justice who is the subject of the allegations of the terms of the notice of motion and provide the justice with a copy of all relevant documents tabled in relation thereto and invite him or her to make a written response.

(e) The Speaker shall give consideration to the terms of the notice of motion, the statement in support together with any relevant documents, and any response from the justice made in response to the provisions of paragraph (d), and, if the Speaker forms the opinion that:

(i) the allegations against the justice are clearly laid out;

(ii) the facts alleged are such that, if they were to be proven, they could lawfully form a basis for the removal of the justice on the ground of misbehaviour or incapacity; and

(iii) either the facts alleged have been established, or there are reasonable grounds for believing the conduct alleged may have occurred and that examination of this possibility would be justified;

the Speaker must grant precedence to the moving of the motion.

(f) At the first sitting day occurring 14 days after the justice has been advised of the motion, whether the justice has responded or not, the Speaker must advise the House of whether precedence is to be granted to the moving of the motion.

(g) If the Speaker declines to grant precedence to the moving of the motion the Member who gave the notice may, without notice, thereupon move that the House disagree with the Speaker's opinion, but unless that motion is carried the notice of motion for the address shall not be moved and it shall be removed from the Notice Paper.

(h) If the House votes to disagree with the Speaker's opinion, the notice of motion shall be dealt with as if the Speaker had granted it precedence.

(i) Following the moving of the motion for the address:

(i) the debate on the motion must be immediately adjourned;

(ii) the Speaker must immediately refer the allegations in the motion, together with all materials tabled with it and any response by the justice, to the Parliamentary (Judicial Behaviour or Incapacity) Commission; and

(iii) until the House receives a report from the Commission on the matter referred no further debate on the motion shall be permitted.

(j) When the Speaker receives the report of the Commission on the matter referred, he or she must, as soon as practical, present the report to the House. A copy of the report shall be provided to each Member, and arrangements made for the inspection by any Member, at his or her request, of any original document or exhibit referred to in the report.

(k) If the report of the Commission concludes that facts do not exist amounting to proved misbehaviour or incapacity such as would warrant the removal of the justice, there shall be no further debate on the motion for the address and it shall be removed from the Notice Paper.

(l) If the report of the Commission concludes that facts exist amounting to proved misbehaviour or incapacity such as would warrant the removal of the justice, debate on the motion shall resume immediately and the debate shall be given priority over all other non-urgent parliamentary business until disposed of.

(m) Before the question on the motion for the address is put to the House for decision, the justice whose conduct is the subject of the report, or counsel on his or her behalf, shall be permitted to address the House from the Bar of the House, if he or she so requests.

(n) A Member who, deliberately or recklessly, puts forward baseless allegations against a justice under this standing order is guilty of contempt of the House.

(o) In addition to action under any other procedures available to punish contempts, a Member who, in the opinion of the House has deliberately or recklessly put forward baseless allegations against a justice under this standing order shall be suspended from the service of the House, on motion being moved without notice, for a period of 14 days, or such greater period as may be specified in the motion. (Notice given 9 February 2010. Notice will be removed from the Notice Paper unless called on on any of the next 4 sitting Mondays after 21 June 2010.)

(1) acknowledges the tragic impact that bushfires have on communities throughout Australia, particularly regional areas and the urban interface;
(2) notes the importance of prescribed burning as a means of reducing fire intensity throughout Australia; and
(3) highlights the need for the Federal Government to work in partnership with State and Territory Governments; natural resource management agencies; and fire authorities to develop national standards to reduce the impact of bushfires on our community. **(Notice given 23 February 2010. Notice will be removed from the Notice Paper unless called on on any of the next 5 sitting Mondays after 21 June 2010.)**

12 MR SULLIVAN: To move—That this House:
(1) recognises the importance of the Australian Defence Force Reserves (ADFR) to Australia’s overall defence capability;
(2) acknowledges that ADFR service requires significant sacrifices to be made on the part of Reservists, their families and their civilian employers;
(3) values the contributions made by ADFR personnel during deployments with Army, Air Force and Navy colleagues; and
(4) expresses appreciation to the Army Reserve personnel deployed in the Solomon Islands under Operation ANODE as part of Australia’s contribution to the Pacific Island Forum’s Regional Assistance Mission to the Solomon Islands. **(Notice given 15 March 2010. Notice will be removed from the Notice Paper unless called on on any of the next 6 sitting Mondays after 21 June 2010.)**

13 MS PARKE: To move—That this House:
(1) recognises that 24 March is World Tuberculosis Day and notes that 9.4 million people developed tuberculosis in 2008 and that nearly 2 million people die each year from this preventable and curable disease;
(2) notes that 50 per cent of new tuberculosis cases occur in the South East Asia and Western Pacific regions, and that these regions also contain half of the 22 high-burden countries for tuberculosis;
(3) acknowledges the important work of the Global Fund to Fight AIDS, Tuberculosis and Malaria which since its inception in 2002 has disbursed over $10 billion to combat these three diseases, including providing 63 per cent of all global aid resources for the fight against tuberculosis;
(4) commends the Global Fund which, through 2009, provided treatment to 6 million people who had active tuberculosis and which has been critical to the decline of prevalence and incidence of tuberculosis in many countries;
(5) notes that with continued and increased support for the Global Fund, the world will stay on track to meet the international target of halving tuberculosis prevalence by 2015; and
(6) recommends that the Australian Government consider committing further significant funds to the Global Fund at its replenishment meeting to be held later this year, for its ongoing and vital work to fight tuberculosis as well as AIDS and malaria. **(Notice given 15 March 2010. Notice will be removed from the Notice Paper unless called on on any of the next 6 sitting Mondays after 21 June 2010.)**
14 MRS HULL: To move—That this House:

(1) notes that:
   (a) before the 2007 election the Labor Government promised to the Australian people that if elected, it would provide fast broadband to 98 per cent of households;
   (b) ten per cent of the population has now been left out of the Labor Government’s current National Broadband Network (NBN) proposal, which equates to almost two million Australians, who largely live in the regions;
   (c) towns with less than 1000 residents will not have access to the same services as those from larger towns and cities;
   (d) if regional areas are consigned substandard access to new and emerging telecommunications options they will suffer serious economic and social impacts; and
   (e) small communities must be able to access internet services which allow for business and services to prosper; and

(2) calls on the Government to immediately outline details of any planning for the provision of affordable and effective services for the 10 per cent of the population who are beyond the NBN footprint. (Notice given 11 March 2010. Notice will be removed from the Notice Paper unless called on any of the next 6 sitting Mondays after 21 June 2010.)

15 MS SAFFIN: To move—That this House:

(1) notes that:
   (a) the Burmese regime last week announced the election law package for the election they have decreed will occur this year based on their 2008 constitution—a constitution that the Australian Government has already called a ‘sham’;
   (b) the election laws:
      (i) introduce a number of restrictions which will limit the participation of opposition parties, including the National League for Democracy (NLD);
      (ii) prevent the NLD, headed by Aung San Suu Kyi and winners of the country’s last election, from registering if Ms Suu Kyi remains a party member, due to, inter alia, her ‘criminal convictions and sentences’;
      (iii) formally void the election results of 1990, which saw the NLD win over 80 per cent of the vote; and
      (iv) do not provide any guarantee of freedom to campaign, or access, the media;
   (c) United Nations Secretary General Ban Ki-moon has stated that without the unconditional release of all 2100 political prisoners in Burma, the 2010 election cannot be credible;
   (d) last year the NLD released the Shwegondaing Declaration, which set out four benchmarks for the election process to be considered credible or legitimate: the immediate unconditional release of all political prisoners, including Ms Suu Kyi; an inclusive review of the 2008 constitution; the elections to be carried out in a free, fair open and inclusive manner under international supervision; and some form of recognition of the 1990 election result; and
   (e) in a report to the Human Rights Council, the United Nations Special Rapporteur on the situation of human rights in Myanmar (Burma), Tomas Ojea Quintana, has called for a United Nations Committee of Inquiry to investigate allegations of crimes against humanity and war crimes committed by the military regime in Burma;

(2) expresses grave concerned that the forthcoming election in Burma, based on the ‘sham’ 2008 constitution and the announced election laws, cannot be free or fair; and

(3) condemns the Burmese regime unreservedly for its continued suppression of the democratic aspirations of the Burmese people. (Notice given 16 March 2010. Notice will be removed from the Notice Paper unless called on any of the next 6 sitting Mondays after 21 June 2010.)

16 MS SAFFIN: To move—That this House:

(1) notes:
   (a) that the Commonwealth is the primary regulator of animal welfare;
   (b) the national and international concerns about the welfare of animals transported under the live animal export trade, both during transportation and their treatment at their destination raised in campaigns by organisations and individuals including the World Society for the Protection of
Animals, Princess Ali of Jordan, the RSPCA, the Barristers Animal Welfare Panel, and Sydney Lord Mayor Clover Moore;

(c) that Australia is one of the few countries to consistently treat animals humanely during slaughter and its meat has gained wide acceptance in the Middle East as meeting halal standards;

(2) acknowledges the opposition of the Australasian Meat Industry Employees Union and the local meat processors, including Casino Northern Cooperative Meat Company, to the live export trade on the grounds that it has a detrimental effect on the local meat processing industry, affecting jobs and the Australian economy; and

(3) supports moves towards the expansion of the frozen and chilled meat export industry using Australian halal stunned meat exports. (Notice given 16 March 2010. Notice will be removed from the Notice Paper unless called on on any of the next 6 sitting Mondays after 21 June 2010.)

17 MR HAWKE: To move—That this House:

(1) recognises the lack of adequate transport infrastructure in North West Sydney;

(2) condemns the NSW Government for its under-funding of transport infrastructure in North West Sydney during the last 15 years;

(3) acknowledges that the current lack of transport infrastructure:
   (a) inhibits the economic prosperity of North West Sydney;
   (b) imposes significant financial burdens on the residents of North West Sydney through excessive toll charges; and
   (c) results in a high level of motor vehicle usage and has a detrimental environment impact for North West Sydney;

(4) notes that the Federal Government provided only $91 million for planning of a West Sydney Metro railway as part of its funding through Infrastructure Australia and no funding for North West rail link; and

(5) calls on the Federal Government to provide funding for the immediate commencement of a North West rail link. (Notice given 16 March 2010. Notice will be removed from the Notice Paper unless called on on any of the next 6 sitting Mondays after 21 June 2010.)

18 MR ABBOTT: To move—That this House:

(1) notes the recent announcement by the Prime Minister in relation to public hospitals;

(2) recognises that:
   (a) the Australian Healthcare Agreements finalised under the Howard Government delivered a $10.3 billion funding increase in Commonwealth funding to public hospitals; and
   (b) successive Labor state governments have not delivered the reforms necessary to cut the waste, bureaucracy and lack of funding that is crippling so many public hospitals across Australia, but in particular, in NSW and Queensland; and

(3) expresses concern that the:
   (a) Government’s plan for public hospitals does not provide sufficient detail or the immediate funding and outcomes needed to help patients now; and
   (b) Prime Minister’s announcement looks more like a new election pitch rather than a policy to honour his last election promise to fix public hospitals, or take them over. (Notice given 11 May 2010. Notice will be removed from the Notice Paper unless called on on any of the next 6 sitting Mondays after 21 June 2010.)

19 MR ABBOTT: To move—That this House:

(1) notes the Prime Minister’s claim to have saved Australia from a recession by forcing Australians to borrow and spend money;

(2) realises that as a result of this reckless and wasteful spending the budget is expected to be in deficit this year to the level of 4.7 per cent of national income, which will be the biggest deficit for more than 50 years;

(3) notes that despite such excessive borrowing and spending (the third highest in the OECD), Australia’s unemployment rate rose by more than 18 other OECD countries, many of which engaged in little or no ‘stimulus’ at all;

(4) realises that Reserve Bank board member, Professor Warwick McKibbin, believes the Government’s spending and borrowing would ‘detract form GDP’ in 2010;
recognises that the president emeritus of the National Bureau of Economic Research, Professor Martin Feldstein, said in 2002 that ‘there is now widespread agreement in the economics profession that deliberate ‘countercyclical’ discretionary policy has not contributed to economic stability and may have actually been destabilizing’;

understands that the United States of America’s ‘stimulus’ spending has been far less successful than its proponents anticipated;

notes that the Howard Government faced potential economic downturns in 1997 and 2000 and did not engage in this type of borrowing and spending;

appreciates that the Howard Government had a much better understanding of economics, knowing that a fall in interest rates, the oil price, and the value of Australian’s currency together give a boost to Australia’s economy that obviates the need to engage in rampant borrowing;

acknowledges that the Howard Government inherited $96 billion of Labor debt in 1996, ran budget surpluses every year but one between then and 2007, and paid down Labor’s debt; and

remembers that economic growth surged and unemployment fell from 8.4 per cent to 4.3 per cent during the term of the former Government. (Notice given 11 May 2010. Notice will be removed from the Notice Paper unless called on on any of the next 6 sitting Mondays after 21 June 2010.)

(2) recognises the physical, emotional, and financial burden that this chronic disease places upon the family unit;

(3) calls for the establishment of:
   (a) a national database for JIA, so that early diagnosis and professional support can be given to these families through the Australian Paediatric Rheumatology Group; and
   
   (b) the implementation of specialised clinics with Visiting Medical Officers at major regional hospitals throughout Australia. (Notice given 11 May 2010. Notice will be removed from the Notice Paper unless called on on any of the next 6 sitting Mondays after 21 June 2010.)

(1) recognises the important and critical role that Australian nurses have played in active service as part of Australia’s wartime effort;

(2) recognises that Australian nurses have cared for the sick, wounded and dying during wartime for over a century starting with the Boer War of 1889;

(3) acknowledges the courage and compassion that these nurses displayed with some making the ultimate sacrifice; and

(4) congratulates the Port Noarlunga/Christies Beach RSL for its efforts in commemorating Australian wartime nurses by establishing the first RSL based memorial dedicated to nurses killed during wartime. (Notice given 13 May 2010. Notice will be removed from the Notice Paper unless called on on any of the next 7 sitting Mondays after 21 June 2010.)

MS NEAL: To move—That this House reaffirms our pledge, first made in the year 2000, that we will spare no effort to free our fellow men, women and children from the abject and dehumanising conditions of extreme poverty, to which more than a billion are currently subjected. (Notice given 13 May 2010. Notice will be removed from the Notice Paper unless called on on any of the next 7 sitting Mondays after 21 June 2010.)
24 MRS MAY: To move—That this House:
(1) recognises the:
   (a) demographic challenges that Australia faces—the ageing of our population; and
   (b) impact of Australia’s declining workforce—by 2050, the number of working age people
       supporting people aged 65 and over is projected to decline from 6 people to 2.7 people;
(2) acknowledges:
   (a) that mature workers have a great deal to contribute as they age and are as productive as younger
       workers;
   (b) the benefits of recruiting and training mature age workers include not only the economic
       benefits, but also high quality performance and considerable experience; and
   (c) that while many Australians are looking forward to their retirement, many mature age workers
       are keen to remain in the workforce for longer;
(3) calls on the Australian Government to spearhead a campaign to change perceptions of mature age
    workers and ensure their valuable skills and experience are utilised in the workforce for as long as
    possible; and
(4) encourage, on a bipartisan level, employers to recruit and re-train mature workers. (Notice given
    24 May 2010. Notice will be removed from the Notice Paper unless called on on any of the next
    7 sitting Mondays after 21 June 2010.)

25 MS COLLINS: To move—That this House:
(1) strongly objects to the recent decision by Woolworths Limited to stop debit card holders choosing the
    credit option at its supermarkets, retail stores and petrol stations;
(2) notes that the changes to Woolworths’ payment policy:
   (a) removes choice from those people paying for goods and services; and
   (b) may disadvantage people who may be charged an EFTPOS transaction fee for using the savings
       and cheque options on their debit card; and
(4) calls on the:
   (a) Australian Competition and Consumer Protection Commission to investigate the impact this
       payment policy will have on consumers who use their debit cards; and
   (b) Reserve Bank of Australia to review the decision by Woolworths to see if further changes are
       required to policy to stop large market-share organisations from limiting customer choice.
       (Notice given 24 May 2010. Notice will be removed from the Notice Paper unless called on on
       any of the next 7 sitting Mondays after 21 June 2010.)

26 MR MURPHY: To move—That this House:
(1) notes that the Bernie Banton Foundation estimates that by 2020, some 40,000 Australians will have
    contracted asbestos related cancer;
(2) recognises the role governments, the trade union movement and individuals, such as Bernie Banton,
    have played in raising awareness about the dangers of asbestos and in banning the sale and use of
    asbestos and asbestos products in Australia;
(3) expresses concern that:
   (a) countries, such as Canada, continue to export asbestos to India and many other countries in
       South Asia; and
   (b) international efforts to list chrysotile asbestos under the Rotterdam Treaty, which requires
       importing countries to be warned of the risks associated with hazardous substances and
       products, have been blocked by countries, such as Canada; and
(4) leads international efforts to ban the sale, mining and use of all forms of asbestos, such as chrysotile
    asbestos, throughout the world. (Notice given 24 May 2010. Notice will be removed from the
    Notice Paper unless called on on any of the next 7 sitting Mondays after 21 June 2010.)

28 MR CHAMPION: To move—That this House:

(1) acknowledges the difficulties faced by Australian farmers in ensuring adequate warranty protection for farm equipment;

(2) notes that:

(a) recent evidence included in the December 2009 report of the Economic and Finance Committee of the South Australian House of Assembly indicated that much farm machinery and equipment is too expensive to be covered by implied warranty if explicit warranty fails; and

(b) there appears to be little scope for redress where problems are protracted or where equipment failure leads to serious production losses; and

(3) supports:

(a) further investigation of any measures for improvements for farmers’ protection in this area, whether through dispute mediation provisions or extension of warranty protection; and

(b) the establishment of a Code of Practice for farm machinery, establishing service standards and support for purchasers, dealers and manufacturers and articulating a requirement for all parties to act in good faith. (d) repressed religious minorities; and

(e) persecuted individuals because of their religious beliefs; and

(2) calls upon the Iranian Government to guarantee that all people in Iran are accorded their human rights and basic freedoms, including the right to free speech, to practise their religion, to be free from persecution, and to be accorded justice according to the rule of law. (Notice given 27 May 2010. Notice will be removed from the Notice Paper unless called on on any of the next 8 sitting Mondays after 21 June 2010.)

(1) notes that:

(a) Australia needs to reverse its current trend of increasing carbon emissions if it is to contribute to efforts to reduce the risks of climate change;

(1) recognises there has been a substantial decline in the proportion of people living on less than US$1 dollar a day and a substantial increase in the proportion of people with access to clean water;

(2) acknowledges that despite some progress, a number of MDGs are off-track and that a business-as-usual approach will mean the MDGs will not be met globally by 2015;

(3) notes its concern that in a world of plenty there are still unacceptably high child and maternal mortality rates in the developing world;

(4) recognises that progress toward the MDGs is being hampered by the global financial crisis, the global food crisis and the global effects of climate change;

(5) welcomes Australia’s progress on developing a global partnership for development while recognising that our progress falls short of the aspirations we expressed when joining with the nations of the world to set the MDGs; and

(5) notes that as the only truly global organisation, the United Nations plays a critical role in addressing the global challenges that no country can resolve on its own and that Australia is determined to play its part within the United Nations to help address serious global challenges, including conflict prevention, international development, climate change, terrorism and the threat posed by weapons of mass destruction;
(6) notes also Australia’s commitment to, and support for, reform of the United Nations’ system in order to ensure that the organisation reflects today’s world and is able to function efficiently and effectively; and
(7) reaffirms the faith of the Australian people in the purposes and principles of the UNC. (Order of the day will be removed from the Notice Paper unless re-accorded priority on the next sitting Monday after 21 June 2010.)

(a) the pledge, first made by Australia in the year 2000, to spare no effort to free our fellow men, women and children from the abject and dehumanising conditions of extreme poverty, to which more than a billion are currently subjected;
(b) that with only five years until the international goals to address extreme poverty are due, there is now an urgent need to recommit ourselves to this task; and
(c) that our actions of the past 20 years have already succeeded in halving rates of extreme poverty, and within a generation we can and will make poverty history; and

(2) acknowledges that wetlands and healthy rivers are a priority under the Government’s Caring for Our Country program and the 10 year Water for the Future plan; and

17 PROPOSAL FOR HERITAGE LISTING—THE KIMBERLEY: Resumption of debate (from 8 February 2010) on the motion of Mr Haase—That this House:

(1) recognises that:
   (a) the proposal to heritage list 17 million hectares of the Kimberley will deter mining companies from investing in the region, further disadvantage all local communities and seriously damage the future of mining in Australia;
   (b) those involved in mineral exploration and mining projects, particularly in Western Australia, are subject to an already burdensome approvals process;
   (c) adding more red tape by applying National Heritage status to such a vast area would be the breaking point for many companies who would consider moving their investments to other locations;
   (d) an ill-defined approach suggests a lack of research and understanding of heritage listings; and
   (e) the indiscriminate listing fails to recognise the contributions that others such as miners and pastoralists make to the economic viability and heritage of regional areas;

(2) ensures that the Government commits to meaningful consultation across a broad section of the community; and

(3) condemns:
   (a) the blanket listing of this vast area of the Kimberley; and

destruction of homes, buildings and infrastructure; and widespread hunger, thirst, homelessness and lack of security;

(b) deep sympathy for the United Nations as this disaster has caused the greatest loss of life of United Nations staff members in the organisation’s history; and

(c) strong appreciation for the critical work of the United Nations in Haiti, which it continues to perform under extremely difficult circumstances;

(2) strongly supports the actions of the Government in providing funding in the amount of $10 million for immediate emergency relief in Haiti, and $5 million for reconstruction, as well as technical assistance in the relief and reconstruction effort;

(3) urges the Government to consider the provision of further funding and assistance towards the reconstruction effort over the months and years ahead;

(b) the South Australian National Archives Office provides South Australians with access to valuable and relevant Australian Government records, including but not limited to important information on migrant arrivals and residencies, government decisions and actions, High Court judgements and prominent people such as Governors-General and Prime Ministers;

(2) recognises that records, especially of the Australian Government, should be available in each State and Territory to ensure all Australians have reasonable access to these important documents; and

(Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 4 sitting Mondays after 21 June 2010.)

20 RU OK? DAY: Resumption of debate (from 23 November 2009) on the motion of Mr Georganas—That this House:

(1) notes the tragic loss of life to suicide which has taken an average of approximately 14 persons per 100,000 in Australia through most of the twentieth century—three quarters being male—and a disproportionately large number being in rural and regional areas;

(2) notes the establishment of RU OK?, an important national initiative to raise awareness about suicide rates, the impact of suicide on our society, and how we can all help to prevent suicide by connecting with each other;

(3) recognises and supports the inaugural RU OK? Day on 29 November 2009 that will bring Australians together to prevent suicide and raise the profile of organisations providing support for those affected by, or at risk of, suicide;

(4) acknowledges that sector research shows that people at risk are helped by talking about their problems—that a single conversation could change a life; and

(5) works to inspire and encourage all Australians to connect with friends and loved ones to prevent small problems from becoming big ones, by reaching out to anyone doing it tough and asking them “Are you OK?”. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 3 sitting Mondays after 21 June 2010.)

(4) acknowledges that the establishment of the AFPPD Committee is a significant step in bringing together male parliamentarians from across Asia as role models and outspoken activists for the prevention and elimination of violence against women and girls;

(5) notes that one in three Australian women will experience physical or sexual violence in her lifetime; and

(6) acknowledges that gender based violence costs the Australian economy over $15.1 billion each year, including health, work absenteeism, police and court related costs. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 3 sitting Mondays after 21 June 2010.)

22 ASSISTING THE VICTIMS OF INTERNATIONAL TERRORISM BILL 2009 (Mr Abbott): Second reading (from 23 November 2009—Mr Baldwin, in continuation). (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 3 sitting Mondays after 21 June 2010.)

23 MATERNAL, NEW BORN AND CHILD HEALTH: Resumption of debate (from 23 November 2009) on the motion of Ms Rea—That this House:

(1) applauds the Government’s increase of total health funding in the foreign aid budget and an increase in spending to maternal, newborn and child health, which is much needed when in our region, including South Asia, 200,000 mothers and 3.2 million children are dying every year from preventable causes;

(2) notes that:

(a) Australia still requires an increase in total health funding in the foreign aid budget to progress toward the Millennium Development Goals (MDGs) 4 and 5 by 2015;

(b) Millennium Development Goal 4 to reduce child mortality by two-thirds and MDG 5 to reduce maternal mortality by three-quarters have made the slowest progress of all MDGs and are off-track to being achieved by 2015;

(c) Millennium Development Goal 5 has made virtually no progress globally and has reversed in most of sub-Saharan Africa in the last 20 years—it is the only MDG not making progress of any significance;

(d) the health MDGs are achievable but require increased effort and greater cooperation from all developing and developed countries; and

(e) evidence indicates that successful proven, cost effective strategies exist that can reduce child deaths by at least 60 per cent and maternal deaths by 75 per cent, which would save the lives of 240,000 children and 26,000 mothers in our immediate region each year;

(3) acknowledges the importance of the Australian Government increasing its support for health systems in the Asia Pacific region and in Africa (through coordinated mechanisms including the International Health Partnership) to ensure that adequate, coordinated, long term and predictable donor resources are available to support effective basic and reproductive health plans and systems in each developing country in our region; and

(4) recognises that:

(a) greater focus must be placed on training health professionals and midwives to ensure significant reductions in newborn, child and maternal mortality;

(b) system strengthening must also be ensured to provide incentives for staff to be retained in countries and areas of need; and

(c) an increase in Australian support for maternal and child health related spending is required to support the provision of basic health services and strengthened health systems; and that this will demonstrate Australia’s leadership and commitment to ending the preventable deaths of children and mothers globally. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 3 sitting Mondays after 21 June 2010.)

24 INTERNATIONAL DAY FOR THE ELIMINATION OF VIOLENCE AGAINST WOMEN: Resumption of debate (from 23 November 2009) on the motion of Mrs Mirabella—That this House:

(1) recognises that Wednesday 25 November 2009 is the International Day for the Elimination of Violence against Women, the symbol of which has become the White Ribbon;
(2) applauds the work done by the White Ribbon Foundation of Australia to raise awareness amongst all Australians of the fact that many women and their children live with violence, or the threat of violence every day of their lives;

(3) notes that approximately 350,000 women will experience some form of physical violence and 125,000 women will experience sexual violence each year;

(4) encourages all Australians to speak out against all forms of violence and when necessary take action against violence that may be occurring within their community;

(5) notes that violence against women costs the Australian people $13.6 billion annually;

(6) notes that the Rudd Government has squandered $16.2 billion on the Deputy Prime Minister’s Building the Education Revolution program while committing less than one third of a per cent of that amount ($55.2 million) to address this insidious problem; and

(7) condemns the Government for failing to commit any new money in response to the Time for Action Report while rebadging initiatives which were funded under the previous Coalition Government’s Women’s Safety Agenda. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 3 sitting Mondays after 21 June 2010.)

(1) recognises that the Australian live export industry:
   (a) employs 13,000 Australians nationally across 30 separate business types;
   (b) contributes AUD$1.8 billion each year to Australia’s Gross Domestic Product;
   (c) pays AUD$987 million a year in wages and salaries; and
   (d) contributes AUD$830 million to regional economies and underpins the economic and social wellbeing of large slices of rural and remote Australia, particularly in Western Australia;

(2) notes that:
   (a) Australia is regarded as the world leader in livestock export regulation and management;
   (b) if Australia stopped live export, the trade would go to less scrupulous countries than ours and put severe supply pressure on already struggling third world countries;
   (c) it would cost the Australian economy AUD$1 billion to phase out live trade;
   (d) the cessation of live export would have a severe impact on domestic markets, particularly in the regions;
   (e) many pastoralists in the electoral division of Kalgoorlie do not have the option to crop as an alternative industry as suggested by the Royal Society for the Prevention of Cruelty to Animals (RSPCA) commissioned ACIL Tasman report; and
   (f) the RSPCA and People for the Ethical Treatment of Animals (PETA) should focus on real and relevant animal cruelty issues; and

(3) considers that the Australian Government should commit to a campaign countering RSPCA and PETA misinformation. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 3 sitting Mondays after 21 June 2010.)

(6) expresses concern that many former Kiaps may not meet the eligibility criteria for the National Medal, as eligible Kiap service ceased on 30 November 1973;

(7) recognises that the Trust Territory of New Guinea, under the terms of the Papua New Guinea Act 1949 and the Trusteeship Agreement for the Territory of New Guinea, held sovereignty unto itself and as such, was at law an international country (and foreign to Australia);

(8) recognises that the Governor-General’s assent of the Papua New Guinea Act 1949 and the signing of the “Trusteeship Agreement” for New Guinea by the Australian Government, prescribed service activity whereby the service was carried out by members of the Australian Police Force and the service was undertaken as part of an international operation; and

(9) calls on the Australian Government to change the eligibility criteria applying to the Police Overseas Service Medal so as not to prevent the award of the medal to those:

(a) Australian public servants who were employed through the Australian Government and served in the Australian administered United Nations Trust Territory of New Guinea between 1949 and 1974; and

(b) individuals serving in Papua New Guinea as sworn and armed Commissioned Officers of the Royal Papua and New Guinea Constabulary (at the time an Australian External Territorial Police Force). (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 2 sitting Mondays after 21 June 2010.)

(b) investment in cycling is regarded as a cost effective way to increase mobility and physical activity levels, make recreation accessible and boost regional tourism; and

(2) recognises that:
   (a) in 2006, the South Australian Labor Government acknowledged that the centre was in need of replacement as it breached modern building codes and occupational health and safety requirements; and
   (b) the South Australian Government is yet to keep its election promise; and

(3) calls on the Federal Youth Minister to intervene in this urgent matter and ensure that a new centre is built as promised by the South Australian Labor Government. (Order of the day will be removed from the Notice Paper unless re-accorded priority on the next sitting Monday after 21 June 2010.)

(2) Can he confirm the accuracy of Mr Clive Hamilton’s statement in his speech The Political Economy of Climate Change (The Milthorpe Lecture, Macquarie University, Sydney, 8 June 2006): ‘The Government knew that land clearing had declined sharply since the accepted base year of 1990, so even before the ink was dry, Australia’s emissions had fallen by 5 to 10 percent.’

(3) Is it a fact that after the Kyoto climate change conference the (then) Government paid the Queensland and NSW governments in excess of $100 million to introduce more restrictive native vegetation laws which limited property rights on approximately 100 million hectares of privately owned farming land; if so, is it a fact that to date no monetary compensation has been made to these land owners; if so, what responsibility does the Government take for the diminished income of affected landholders.
