(a) in 1950, the Wyong water catchment valleys on the NSW Central Coast were proclaimed a Water Catchment District, with the Wyong Shire Council as the consent authority;

(b) the implementation of Part 3A legislation by the NSW State Government has over-ridden the authority of local government to refuse consent for the Wallarah II (Wyong Areas Joint Coal Venture) coal mine proposal to proceed;

(c) if the Wallarah II coal mine was to proceed, it would have a significant and adverse impact on the environment, in particular, on the Wyong Water Catchment Valleys, which supply over 50 per cent of the potable water to the 310 000 residents of the Central Coast region of NSW; and

(d) local government authorities within the Central Coast region have, for a period of at least five years, jointed with the community in an ongoing fight to stop the Wallarah II coal mine and thereby protect the region’s most valuable and major water resource; and

(1) notes:

(a) that the Commonwealth is responsible for regulating the export of live animals, and for negotiating the arrangements and conditions that apply to the export of both live animals and chilled or frozen meat;

(b) that the current Commonwealth support for the live export industry and the current tariff barriers that apply in some countries to chilled or frozen meat exports means that there is not a level playing field between the two forms of export;

(1) condemns the Rudd-Gillard Government for:
   (a) reducing funding for Tourism Australia at a time when the high Australian dollar is putting pressure on local tourism operators; and
   (b) increasing business costs for local tourism operators through:
      (i) higher tourism taxes;
      (ii) the bungled award modernisation; and
      (iii) additional superannuation guarantee payments which will be entirely funded by employers; and

(2) calls on the Rudd-Gillard Government to match the Coalition’s commitment to increase tourism funding by $100 million to:
   (a) focus on high-yielding business events tourists;
   (b) build stronger research foundations;
   (c) encourage tourism infrastructure and product development; and
   (d) boost domestic tourism marketing. (Notice given 26 October 2010. Notice will be removed from the Notice Paper unless called on on any of the next 8 sitting Mondays after 15 November 2010.)

Orders of the day—continued

1 FOOD LABELLING: Resumption of debate (from 18 October 2010—Mr Adams, in continuation) on the motion of Ms Rishworth—That this House:

(1) notes significant community concern regarding the clarity, simplicity and accuracy of food labelling, including labelling identifying the:
   (a) origin of the food;
   (b) nutritional value of the food; and
(c) food production methods used, including the use of food technologies;

(2) recognises that:
(a) adequate food labelling laws should aim foremost to protect the health and safety of consumers and eliminate deceitful or misleading labelling information;
(b) having clear, simple and accurate labelling on food empowers consumers and enables them to make informed food choices; and
(c) for food labelling laws to be effective, they need to be rigorously and consistently enforced;

(3) supports the Australian and New Zealand Food Regulation Ministerial Council’s establishment of an independent review into food labelling; and

(4) encourages the Government and State and Territory governments to examine the results of this review, and work together to ensure that our food labelling laws deliver the outcomes our community desires. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 7 sitting Mondays after 15 November 2010.)

2 GENE PATENTS: Resumption of debate (from 18 October 2010) on the motion of Ms Parke—That this House:

(1) notes that:
(a) on 6 September 2010 the ABC’s Four Corners program screened a story entitled ‘Body Corporate’, highlighting growing community and scientific concern regarding gene patents;
(b) in particular, Four Corners discussed the case of five year old Liam who needed to have a genetic test to see if he had gene mutations to the SCN1A human gene linked to a specific form of epilepsy called Dravet Syndrome;
(c) Bionomics, a South Australian company which had received a specific grant of around $1 000 000 from AusIndustry to develop a SCN1A gene test:
(i) took out an Australian patent over the SCN1A human gene; and
(ii) subsequently exclusively licensed the patent to Genetic Technologies, a Melbourne company that charges $2000 for the SCN1A gene test in Australia;
(d) Liam was being treated at the Westmead Hospital—a publicly funded institution that is part of NSW Health—which could not afford to pay Genetic Technologies $2000 for each SCN1A gene test;
(e) Liam’s doctors sent a sample of his DNA to be tested in Scotland where the charge was just one third of the price charged by Genetic Technologies; and
(f) the option to send the DNA sample overseas for testing not only took more time, leaving the young boy and his family waiting in distress, but highlights how Australian taxpayers providing research funds to (i) Australian universities to identify the SCN1A genetic mutations; and (ii) an Australian company to develop a genetic test, have been deprived of the benefits of that very research;

(2) notes that:
(a) in July 2008, Genetic Technologies, as the exclusive licensee of Myriad Genetics, a United States company granted Australian patents over the BRCA 1 and 2 gene mutations linked to breast and ovarian cancers, demanded via a lawyer’s letter sent to all Australian hospitals and clinical laboratories (including the Peter MacCallum Cancer Centre) that they stop all testing for breast cancer, claiming such testing infringed Myriad Genetics’ Australian BRCA patents;
(b) in 2009 in the United States, eleven plaintiffs, including Lisbeth Ceriani, a 43 year old single mother diagnosed with breast cancer, and professional medical and clinical associations such as the American Society for Clinical Pathology, launched a legal challenge to seven of Myriad Genetics’ United States BRCA patents, where: and
(i) Ms Ceriani found that she was unable to get a second opinion on a positive genetic test for ovarian cancer because in the United States there is only one test, owned by only one company, Myriad Genetics, which charges over US$3000 per test;
(ii) in March 2010 a United States Federal Court agreed with the plaintiff and declared all seven United States patents invalid on the ground that under United States patent law, patents can only be granted over inventions, not for the discovery of natural phenomena; and
(iii) the Court so held because, first, despite being removed from the human body and thus ‘isolated’, the BRCA genes were ‘not markedly different from native DNA as it exists in nature’ and second, the analysis of these two human genes by way of a genetic test was ‘merely data-gathering to obtain clinical data’;

(3) notes that:
(a) at the official commemoration of the decoding of the human genome in March 2000, United States President Bill Clinton and British Prime Minister Tony Blair said that ‘raw fundamental data on the human genome, including the human DNA sequence and its variations, should be made freely available to scientists everywhere’, yet by 2005, according to a survey published in *Science*, more than 20 per cent (probably now much higher) of the human genome was the subject of United States intellectual property;
(b) President Clinton and Prime Minister Blair also said that ‘unencumbered access to this information will promote discoveries that will reduce the burden of disease, improve health around the world, and enhance the quality of life of all humankind.;’
(c) unencumbered access to genetic information cannot be achieved when patents over human genes are being used to suppress competition, innovation, research and testing;
(d) Professor Ian Frazer, the inventor of the cervical cancer vaccine, has joined other cancer researchers in calling for a revision of Australian patent law, stating that researchers need to be able to proceed with their work without having to consult the companies whose patents the work might infringe: ‘restricting the research use of a gene sequence could delay the development and testing of truly inventive and practical uses of the gene and its protein product for diagnosis and therapy.’; and
(e) other groups opposed to the granting of gene patents include the *Cancer Council Australia*, the *Breast Cancer Foundation of Australia*, the *Royal Australian College of Pathologists*, the *Human Genetics Society of Australia* and the *Australian Medical Association*;

(4) calls for amendment of the *Patents Act 1990* to ensure that patents cannot be granted over any biological materials which are identical or substantially identical to what exists in nature. (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 7 sitting Mondays after 15 November 2010.*)

3 **PINK RIBBON DAY:** Resumption of debate (*from 25 October 2010—Mrs Moylan, in continuation*) on the motion of Ms Hall—That this House:

(1) notes that:
(a) Pink Ribbon Day is 25 October;
(b) breast cancer is the most common cancer in Australian women, accounting for 28 per cent of cancer diagnoses in 2006;
(c) this year alone, 12 000 women will be diagnosed with breast cancer, which is expected to increase by 22 per cent by 2015;
(d) one in nine women will be diagnosed with breast cancer by age 85;
(e) breast cancer is the most common cancer in Aboriginal and Torres Strait Islander women;
(f) the risk of developing breast cancer increases with age, with the average age of diagnosis recorded as 60 in 2006;
(g) mammograms are vital to early detection, with 75 per cent of deaths occurring in women who have never been screened; and
(h) there has been a 27 per cent decrease in mortality rates due to breast cancer since 1994; and

(2) acknowledges the:
(a) work of the National Breast Cancer Foundation;
(b) effectiveness of Pink Ribbon Day in raising awareness;
(c) work of the Jane McGrath Foundation;
(d) contribution of volunteers, staff and researchers; and
(e) importance of early detection. (*Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 8 sitting Mondays after 15 November 2010.*)
UNITED NATIONS DAY: Resumption of debate (from 25 October 2010—Mr Forrest, in continuation) on the motion of Ms Parke—That this House:

   b. contributing to many United Nations peacekeeping operations;
   c. firmly committing to increasing Australia’s development assistance; and
   d. by continuing to push for real progress towards the Millennium Development Goals;
4. notes further the Australian Government’s commitment to the multilateral system as one of the three fundamental pillars of Australia’s foreign policy, namely that Australia is determined to work through the United Nations to enhance security and economic well being worldwide, and to uphold the purposes and principles of the United Nations Charter;
5. notes that as the only genuinely global Organisation, the United Nations plays a critical role in addressing the global challenges that no single country can resolve on its own, and that Australia is determined to play its part within the United Nations to help address serious global challenges, including conflict prevention and resolution, international development, climate change, terrorism and the threat posed by weapons of mass destruction;
6. expresses its condolences for the loss of 100 United Nations staff lives in January 2010 as a result of the earthquake in Haiti, and expresses its appreciation for the ongoing work in difficult conditions of United Nations staff around the world; and
7. reaffirms the faith of the Australian people in the purposes, principles, and actions of the United Nations acting under guidance of the United Nations Charter. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 8 sitting Mondays after 15 November 2010.)

(2) recognises the significance and importance of the Labor Government’s $14 billion reform of the pension system after over 11 years of Coalition inaction;

(3) understands that when there is a Commonwealth pension rise, some of it is likely to be absorbed into pensioners’ rising living costs, often as a result of States and Territories lifting housing rents and power costs;

(4) notes the danger that pensioners are at risk of becoming impoverished if State and Territory governments do not allow the benefits of pension increases to flow through to pensioners; and

(5) demands that all State and Territory Governments commit to permanently quarantining last September’s pension rise, in the calculation of pensioners’ public housing rent levels and other State and Territory government controlled costs. 4 NATIONAL CARERS WEEK: Resumption of debate (from 25 October 2010) on the motion of Ms Owens—That this House:

(1) recognises:
   (a) that the week of 17 to 23 October was National Carers Week;
   (b) that there are more than 2.6 million carers in Australia;
   (c) the caring role is one of immense social and economic value, with carers being the foundation of our health, aged, palliative and community care systems;
   (d) as health care increasingly moves away from ‘institutional’ settings into the home and community, family carers shoulder greater responsibility for managing complex conditions and providing the emotional and physical support for the person for whom they are caring;
   (e) without carers, no future health or community care system will be able to respond to changing demographics and health needs, clinical practices and societal influences, in the long term;
   (f) the Government’s practical measures to improve the lives of carers through significant reforms across the disability, health, mental health and aged care service systems, including:
      (i) delivering a $60 a fortnight increase to the base pension plus an increase of $5 a fortnight in the new Pension Supplement for carers receiving the maximum single rate of Carer Payment (a total increase of around $100 per fortnight, after indexation increases from 20 March);

      (iii) overhauling the complex and restrictive eligibility requirements for Carer Payment (Child);
      (iv) significantly boosting funding to the State and Territory governments for specialist disability services including supported accommodation, in-home care and respite; and
      (v) commissioning the Productivity Commission to examine the feasibility, costs and benefits of a National Long Term Disability Care and Support Scheme; and

(Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 8 sitting Mondays after 15 November 2010.)

5 MENTAL HEALTH: Resumption of debate (from 25 October 2010) on the motion of Mr Dutton—That this House:

(1) notes that:
   (a) mental illness afflicts more Australians than almost all other health disorders, only ranking behind cancer and heart disease in prevalence;
   (b) forty-five per cent of the nation’s population will experience a mental health disorder at some point in life;
   (c) younger Australians—those between 16 and 24—bear the brunt of mental illness, with prevalence of problems declining with age;
   (d) with early and targeted treatment, many people can overcome mental illness or lower the incidence of progression or relapse;
   (e) expansion of the headspace and Early Psychosis Prevention Intervention Centres (EPPIC) models could help an estimated 200 000 young Australians, and in doing so, free-up existing services for others with mental illnesses whilst alleviating pressures on public hospitals and emergency departments; and
   (f) the Government has moved to cut services in mental healthcare;

(2) requires the Government to:
   (a) expand the number of headspace centres to a minimum of 90 nationally;
   (b) establish a national network of 20 EPPIC centres;
   (c) provide an additional 800 beds for mental health, associated with the EPPIC centres;
   (d) appropriate funds necessary to provide these critical steps to expanding mental health treatment facilities; and
   (e) immediately provide additional funds for existing headspace centres; and
(3) sends a message to the Senate acquainting it of this resolution and requesting that it concur. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 8 sitting Mondays after 15 November 2010.)

6 CORD BLOOD DONATIONS: Resumption of debate (from 25 October 2010) on the motion of Mrs D’Ath—That this House:

(1) that many lives have been saved through the research and the use of organ and blood donations throughout Australia;

(2) that one form of donation is cord blood from the umbilical cord and placenta, and that:
   (a) research has shown that his blood is a rich source of blood forming stem cells known as haemopoietic stem cells;
   (b) the use of these cells for transplantation to a sufferer of leukaemia, lymphoma, and some tumours, provides the best chance for a cure; and
   (c) recent research has established that umbilical cord blood stem cells can demonstrate plasticity, suggesting a role for them in the treatment of diseases such as diabetes, cerebral vascular disease, and Parkinson’s disease;

(3) that the collection of umbilical cord blood cells for research and for processing is a safe and non-invasive procedure, and that this procedure does not involve the destruction of an embryo given that the umbilical cord and placenta are usually discarded as waste;

(4) that the collection of umbilical cord blood is not available in all States and Territories or hospitals throughout Australia, and that:
   (a) the collection, processing and storage of umbilical cord blood requires specialised techniques by appropriately trained and accredited professionals; and
   (b) based on limitations on the collection centres that currently exist, not all permissions for donations given by women at existing collection centres results in the actual collection of the cord blood;

(5) that the Federal Government already funds the Australian National Cord Blood Collection Network; and

(6) the great work being done by the Australian National Cord Blood Collection Network, AusCord, the Australian national network of umbilical cord blood banks and cord blood collection centres. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 8 sitting Mondays after 15 November 2010.)

7 TELSTRA’S GRAFTON CALL CENTRE: Resumption of debate (from 18 October 2010) on the motion of Ms Saffin—That this House:

(1) notes with grave concern:
   (a) Telstra’s stated proposal to close its Business Call Centre in Grafton, with the loss of 108 local jobs, and the relocation of some of these jobs to Brisbane and Melbourne;
   (b) the damaging flow on effect to a regional economy from such significant job cuts;
   (c) the perception that Telstra is abandoning regional Australia; and
   (d) Telstra’s claim that it can improve customer service while carrying out a program of job cuts;

(2) acknowledges the Clarence Valley community’s strong support for the campaign to save local Telstra jobs evidenced by the actions of Mayor Richie Williamson, the Grafton Chamber of Commerce and the 5559 people who signed my petition calling for Telstra to keep the Call Centre open, and not abandon regional Australia; and

(3) calls upon Telstra’s Chief Executive Officer David Thodey to stop the closure of the Grafton Call Centre to demonstrate a commitment by Telstra to Regional Australia. (Order of the day will be removed from the Notice Paper unless re-accorded priority on any of the next 7 sitting Mondays after 15 November 2010.)

8 SPECIAL DISABILITY TRUSTS: Resumption of debate (from 18 October 2010) on the motion of Mrs Moylan—That this House:

(1) acknowledges the work of carers, and in particular ageing parents caring for profoundly disabled dependents;

(2) recognises that ageing parent carers remain deeply concerned about the diminishing capacity to care for their dependent children;
(3) appreciates the special challenges faced by families, and in particular ageing parents, who wish to make provision for the needs of their disabled dependents;

(4) notes that:
   (a) disability trusts were established in September 2006 by the Coalition Government to assist families make provision for the future housing and care needs of dependents with severe disabilities;
   (b) despite the Department of Families, Housing, Community Services and Indigenous Affairs estimating that over four years, 5000 people with severe disability would benefit from Special Disability Trusts, as at 31 March 2010, 423 people have been assessed as eligible, and only 91 trusts have been established; and
   (c) since establishing Special Disability Trusts, it has become apparent that the conditions governing eligibility and management, as well as direct and wider taxation implications, have limited the workability and uptake of the trusts;

(5) acknowledges that conditions diminishing the attractiveness of the trusts include the:
   (a) complex application of taxation rules;
