PRIVATE MEMBERS’ BUSINESS—continued

Notices—continued

1 MR CHAMPION: To move—That this House calls on the Government to use the 2016-17 budget to back existing, safe and well paid Australian manufacturing jobs including in:
   (1) steel, aluminium and other metal production and fabrication;
   (2) automotive manufacturing;
   (3) shipbuilding;
   (4) defence industries;
   (5) food, fibre and grocery production; and
   (6) biopharmaceuticals and medical technologies.
(Notice given 18 April 2016. Notice will be removed from the Notice Paper unless called on on any of the next 7 sitting Mondays including 9 May 2016.)

2 MR CHAMPION: To move—That this House acknowledges that penalty rates are relied upon by Australian workers and their families to cover everyday costs of living, no matter if they are full time, part time or casual, including workers such as:
   (1) nurses;
   (2) police, firefighters and ambulance officers;
   (3) retail and hospitality workers;
   (4) manufacturing industry employees;
   (5) services sector employees; and
   (6) tourism and transport industry employees.
(Notice given 19 April 2016. Notice will be removed from the Notice Paper unless called on on any of the next 8 sitting Mondays including 9 May 2016.)

3 MS MACTIERNAN: To move—That this House:
   (1) notes the findings of Regional Development Australia (RDA) Perth’s Driving Change in our Cities: Economic Development Strategy and Infrastructure Priorities Plan for Perth and Peel, including, that:
      (a) the development of the Outer Harbour at Kwinana is the number one infrastructure priority for government in Perth;
      (b) ‘the initiative is essential to the Western Australian economy. Without it, growth will be held back through inefficiencies and lost opportunities (directly related to transport and logistics as well as local production and export)’;
(c) ‘there is a need to ensure the primary freight gateway of the State can continue to support economic growth. Further extension of the Inner Harbour is not viable. Road access to it is heavily constrained, and the rail connection requires further investment’;

(d) ‘development of the Outer Harbour presents significant jobs growth opportunities with regard to industry, transport and logistics, as well as additional trade opportunities. Development of the Outer Harbour also provides potential to relocate activities from the Inner Harbour, reducing the freight task on congested road and rail links to the Inner Harbour, and potentially unlocking enormous opportunities for precinct development and amenity enhancement in Fremantle’;

(2) notes the RDA Perth report was completed in early March 2016 and was intended to be released in early April 2016, but still has not been made public;

(3) condemns the Government for:
   (a) committing additional funding to the flawed Perth Freight Link (PFL) against expert advice that funding should be directed towards construction of the Outer Harbour; and
   (b) attempting to sweat life out of century old port infrastructure in Fremantle in spite of clear evidence that a new port will be needed within the decade; and

(4) calls on the Government to:
   (a) immediately redirect funding committed to the PFL to the infrastructure that Western Australia needs; and
   (b) expedite the release of the RDA Perth report.

(Notice given 19 April 2016. Notice will be removed from the Notice Paper unless called on on any of the next 8 sitting Mondays including 9 May 2016.)

4 MR ZAPPIA: To move—That this House:

   (1) notes:
      (a) that governments across Australia spend around $100 billion per year procuring goods and services with around $40 billion of that being Australian Government procurement;
      (b) the significant amount of procurement outlined in 2016 Defence White Paper;
      (c) the Government has commitments for over $50 billion in infrastructure spending on current and future projects;

   (2) further notes:
      (a) the direct and indirect economic benefits which flow from local procurement; and
      (b) the Government procurement market presents a great opportunity to create jobs, assist small businesses and boost the economy;

   (3) calls on the Government to ensure that local content is maximised in all of its procurement.

(Notice given 19 April 2016. Notice will be removed from the Notice Paper unless called on on any of the next 8 sitting Mondays including 9 May 2016.)

5 MS MCGOWAN: To move—That this House:

   (1) notes that:
      (a) the wine industry plays an important role in regional Australia for the local and national economy;
      (b) small winemakers are an important part of the wine industry for job creation and tourism;
      (c) the Winemakers’ Federation of Australia (WFA) estimates that up to 70 per cent of current local grape and wine production may be uneconomic;
      (d) the dithering of successive governments over the unintended consequences of the Wine Equalisation Tax (WET) rebate scheme, the weak export push for Australian wine and the supermarket duopoly have had a major impact on the sector; and
      (e) the reform proposal led by WFA was measured, sensible and urgently needed, and its plan would have delivered net savings to the Commonwealth of at least $234 million over the next four years; and
calls on the Government to:

(a) give certainty to the wine industry by releasing its response to the Senate Rural and Regional Affairs and Transport References Committee’s report into the Australian Grape and Wine Industry; and

(b) keep the WET rebate in line with the original policy intent of delivering long term benefits to the industry and tourism in regional Australia.

(Notice given 19 April 2016. Notice will be removed from the Notice Paper unless called on on any of the next 8 sitting Mondays including 9 May 2016.)

6 MS PARKE: To move—That this House:

(1) notes that:

(a) there is considerable evidence that payday lending and consumer leases are not properly regulated and that both financial practices are causing serious harm to low income Australians;

(b) irresponsible and immoral lending is endemic in the payday lending industry, which is growing rapidly and developing new online opportunities to encourage people to borrow with insufficient consideration of their capacity to bear the exorbitant and poorly regulated interest costs that payday lending involves;

(c) the Australian Securities and Investment Commission review of payday lending found that 24 per cent of loans were taken out by Centrelink customers and 54 per cent were taken out by customers who had two or more payday loans in the previous 90 days, a clear indication that they are caught in a cycle of repeat borrowing;

(d) consumer leases can involve an effective annualised interest rate of 240 per cent, and generally mean that vulnerable consumers pay three or four times the value of basic household items like refrigerators or washing machines;

(e) consumer leases operate with lower consumer protection standards under the National Credit Code, though such agreements are not materially different in effect from credit contracts;

(f) in 2013-14 nearly half of Radio Rental’s $197 million revenue was received through the Centrepay system which allows payments to be directly debited from a consumer’s Centrelink account; and

(g) Senator the Hon. Doug Cameron has brought a private Senator’s bill that seeks to remove consumer leases from access to the Centrepay system; and

(2) calls on the Government to:

(a) ensure that the recently announced review into the 2013 reforms to payday lending focuses on securing the wellbeing and protection of low income Australians irrespective of the effect this has on the profits of companies that practise this kind of often predatory lending;

(b) act quickly to stop consumer leases being used to prey on vulnerable and low income Australian households by ensuring that consumer leases are subject to the same standards and controls as credit contracts and introducing stricter controls on the currently outrageous and indefensible costs involved in such arrangements, including the requirement to prominently disclose the total cost of all contracts; and

(c) support Senator Cameron’s initiative to remove access to Centrepay for consumer lease companies and amend section 123TC of the Social Security (Administration) Act 1999 to include a definition of consumer leases for this purpose.

(Notice given 2 May 2016. Notice will be removed from the Notice Paper unless called on on any of the next 8 sitting Mondays including 9 May 2016.)
COMMITTEE AND DELEGATION BUSINESS has precedence each Monday in the House of Representatives Chamber from 10.10 am to 12 noon; and in the Federation Chamber from 11 am to 1.30 pm (standing orders 34, 35 and 192).

PRIVATE MEMBERS’ BUSINESS has precedence from the conclusion of consideration of committee and delegation business each Monday (standing orders 34, 35 and 192).

The SELECTION COMMITTEE is responsible for arranging the timetable and order of committee and delegation business and private Members’ business for each sitting Monday. Its determinations for today are shown under ‘Business accorded priority for …’. Any private Members’ business not called on, or consideration of private Members’ business or committee and delegation business which has been interrupted and not re- accorded priority on any of the next 8 sitting Mondays, shall be removed from the Notice Paper (standing order 42).

Orders of the day

†1 EMPLOYMENT AND WORKPLACE RELATIONS: Resumption of debate (from 2 May 2016) on the motion of Ms L. M. Chesters—That this House:

(a) advocating for a reduction in penalty rates;
(b) issuing temporary licences, which resulted in Australian seafarers being sacked;
(c) abolishing the Road Safety Remuneration Tribunal;
(d) pursuing legislation that would ensure workers on construction sites have less rights than ‘ice’ dealers;
(e) the attempted reintroduction of unfair individual contracts;
(f) the failure to address widespread and system exploitation of workers; and
(g) the unfair, ideological bargaining policy which forces agencies to strip rights and conditions from enterprise agreements and offer cuts to pay in real terms;

(2) condemns the Government for its employment and workplace relations agenda; and

(3) calls on the Government to abandon its attacks on the pay, rights and conditions of workers in Australia.

(Time allowed—40 minutes.)

†2 STEEL INDUSTRY: Resumption of debate (from 2 May 2016) on the motion of Mr Champion—That this House:

(1) notes with concern that one of Australia’s major steel manufacturers, Arrium, has recently been placed into administration, highlighting the risk to Whyalla’s economy and our national steelmaking capabilities;

(2) recognises the multiple pressures currently being experienced by the Australian steel industry, including the impact of a global over supply of steel;

(3) further notes the worrying evidence presented to the Senate Economics References Committee’s inquiry into the future of Australia’s steel industry, on the widespread importation and use of structural steel that does not meet Australian standards and presents a threat to public safety;

(4) notes the plan announced by Labor to support Australia’s strategically significant metals manufacturing industries, particularly the steel industry, by:

(a) ensuring Australian standards are upheld in Government funded projects and supporting local steel producers in meeting certification standards;
(b) seeking to maximise the use of locally produced steel in Australian Government funded projects and put in place regular reporting of usage levels;
(c) halving the thresholds for projects required to have an Australian Industry Participation Plan from $500 million down to $250 million for private projects, and from $20 million to $10 million for public projects;
(d) doubling funding for the Australian Industry Participation (AIP) Authority and appointing an AIP Board;
(e) ensuring Australia’s anti-dumping system has the right powers and penalties in place;
(f) creating a national Steel Supplier Advocate; and
(g) establishing a tripartite Metals Manufacturing Investment Council to work closely with the Government to deliver these measures;
(5) condemns the Government’s failure to take a comprehensive approach to securing the future of Australia’s steel industry; and

(6) calls on the Government to take serious action to support Australia’s strategically significant metals manufacturing industries, particularly the steel industry.

(Time allowed—30 minutes.)

3 SCHOOL FUNDING: Resumption of debate (from 2 May 2016) on the motion of Ms Ryan—That this House:

(1) notes that:

(a) the Government has:

(i) implemented the biggest ever cut to Australian schools, ripping $30 billion out of our classrooms over the next decade; and

(ii) failed to fund the vital fifth and sixth years of the Gonski reforms, locking Australian students into inequality and an uncertain future; and

(b) Labor’s Your Child, Our Future plan:

(i) for Australian schools will ensure that every student in every school has the resources they need to achieve their best; and

(ii) will reverse the Government’s cuts and fund the needs based Gonski reforms on time and in full—a $4.5 billion commitment in 2018 and 2019 alone;

(2) acknowledges the hard work and dedication of educators and teaching staff around the country, and the need to support them to meet their students’ needs; and

(3) calls on the Government to use the budget to reverse their school cuts, fund the Gonski reforms on time and in full, and adopt Labor’s Your Child, Our Future plan, so that every student can reach their potential.

(Time allowed—30 minutes.)

4 UNIVERSAL HEALTHCARE: Resumption of debate (from 2 May 2016) on the motion of Ms Claydon—This House condemns the Government for its repeated attempts to undermine universal healthcare and drive up costs for patients, as evidenced by:

(1) its repeated attempts to introduce an upfront payment for visits to a general practitioner, including:

(a) a $7 co-payment;

(b) a $5 co-payment;

(c) a $20 co-payment; and

(d) the four year freeze on Medicare rebates;

(2) tearing up of the long term hospital funding deal agreed by all states and territories and endorsed by the Coalition in the 2013 election;

(3) the $650 million in cuts to Medicare rebates for pathology and diagnostic imaging which will force up the cost of scans and tests for patients;

(4) the $800 million in cuts to the health flexible funds which will force the closure of health organisations, including those providing support for drug and alcohol addiction, mental health and cancer support;

(5) abandoning the National Partnership Agreement on Preventive Health and abolishing the Australian National Preventive Health Agency;

(6) abolishing the Health and Hospitals Fund, cutting $1 billion reserved for essential health infrastructure;

(7) cutting more than $500 million in public dental programs and moving to scrap the Child Dental Benefits Scheme used by one million Australian children; and

(8) the Government’s continuing plans to:

(a) raise the price of prescriptions by $5 for general patients and 80 cents for health care card holders; and
