†3 MS HENDERSON: To move—that this House:

(1) recognises that:

(a) the Australian Government will contribute $1.5 billion towards the completion of the western section (Stage Two) of Melbourne’s East West Link;

(b) the commitment to Stage Two of the East West Link is in addition to the Commonwealth’s $1.5 billion contribution towards the $6 to $8 billion Stage One section of the East West Link; and

(iii) improving freight efficiency and connections for major industries in Melbourne’s outer east, north and south east to the Port of Melbourne and international airports;

(b) East West Link will never happen under a Labor Government—state Labor opposes the project despite estimates that the cost of Melbourne’s road congestion will grow to $5 billion per annum by 2021 and $7.2 billion by 2031, more than double current levels; and

(c) Victorian Leader of the Opposition has described the East West Link as a ‘grand hoax’ and has threatened to rip up any contracts that are signed in respect of the project and in doing so, has shown contempt for the people of Victoria.

(c) the importance of a bipartisan approach in addressing such a complex issue and support for addressing family violence by all Members of Parliament within the House; and

(1) notes that:

(a) shipbuilding is an industry that delivers the highest-value and most complex manufacturing outcomes produced in Australia, and therefore represents expertise and capacity that must be maintained for its very significant national economic and security benefits;

(b) as an example of the multiplier effects of shipbuilding projects in respect of the quality and range of manufacturing it both requires and enables, at the commencement of the Collins-class submarine project there were only 35 Australian companies certified to Defence quality standards, whereas by 1998 there were more than 1,500;

(c) there are currently more than 7,000 people employed in shipbuilding across Australia, including more than 4,000 people employed in naval shipbuilding alone;

(d) the Government has identified the need for more than 80 ships over the next 30 years for service in the Royal Australian Navy, and as part of border protection, Antarctic operations and scientific research, among other roles; and

   (a) Financial Assistance Grants are used by every local government in Australia to maintain local roads and deliver critical community services;
   (b) the Government’s indexation freeze represents cuts of $925 million to local governments in every town and city over the next four years;
   (c) regional and remote councils will be most affected by the cuts, with larger service areas and more kilometres of roads to maintain per ratepayer;
   (d) the viability of some regional and remote councils may be compromised as a result of the cuts;

   (b) the former Government did not provide compensation for small businesses hit by the carbon tax;
   (c) many small businesses are run at a very slim profit margin and are unable to pass these costs on to the consumers, forcing them to absorb the burden of the carbon tax themselves;
   (d) with the cost of doing business increasing due to the carbon tax, small businesses lose confidence, invest less money in their business, and are forced to employ fewer staff; and
   (e) under the former Government, too many small business jobs were lost; and

(3) commends the Government’s action to repeal the carbon tax to provide certainty to small business and restore the sector’s competitiveness, viability and capacity to employ.

   (d) despite their victory, our veterans were treated appallingly upon their return to Australia; and

      (c) Government has restricted school funding changes to the Consumer Price Index from 2018; and
      (d) importance of equity and quality—for every child in every school—in improving student results and building a prosperous future; and

†2 MR RANDALL: To move—That this House notes that:
   (1) dung beetles:

      (b) act as a biological solution that assists in fly control and enhances livestock health;
   (2) the work of dung beetles acts to enhance and improve the nutrients in soil, leading to natural fertilisation and reducing nutrient runoff;
   (3) greater recognition by industry of the beetles’ importance may lead to further widespread adoption;
   (4) investigation and research into the introduction of two new species of beetles from France and Spain may provide opportunities to expand the beneficial impacts of dung beetles by increased activity during the spring months, and this could bridge the existing activity gap prior to the activity of native beetles in the summer months; and
   (5) agricultural research and development organisations could provide important support in researching the benefits and quarantine implications associated with importing these two new species.

   (2) recognises the progress that has been made in increasing access to kindergarten and preschool since the National Partnership Agreement on Early Childhood Education was introduced in 2008, including:
      (a) an increase in the proportion of Australian children who attend 15 hours of quality early childhood education in the year before school from just 12 per cent in 2008, to over 56 per cent in 2012; and
(b) evidence that Australian children who access quality early education for 15 hours a week go on to score significantly better in Year Three NAPLAN tests and achieve higher results in Year Four reading, maths and science;

(3) notes the uncertainty surrounding future funding for kindergarten and preschool and understands the impact this has on the sector, teachers, educators and parents balancing work and family; and

   (b) those industries that rely on the health of the Marine Park are able to continue, providing social and economic benefits to local communities and the wider economy;
   (c) a diverse range of other benefits and values of the Marine Park, including recreational, cultural, educational and scientific values, are protected;

(5) acknowledges the value of the Ranger Program in providing job opportunities for Indigenous people to care for their country, take on important skills, develop career pathways, protect dugongs and turtles and manage environmental threats stemming from feral animals, among other benefits;

(6) calls on the:
   (a) Australian Labor Party and the Greens to pass the Environment Legislation Amendment Bill 2013 which will enable a tripling of penalties for those poaching turtles and/or dugongs; and

      (ii) continue to allow certain activities to take place with a permit, such as research and management programs for fauna and flora where they pose a threat to humans or the environment, as per existing regulations; and
(iii) introduce legislation to prohibit the taking of marine species, including seabirds, in designated Green Zones within the Great Barrier Reef Marine Park Area, where other efforts have proven to be inadequate;

(7) in the interest of supporting the policing of turtle and dugong product that is transported for commercial purposes, prohibit the movement of native species, taken under the Native Title Act 1993 outside the area in which it is caught; and

(8) recognises that these initiatives would complement a range of measures already being implemented under the Government’s Turtle and Dugong Protection Plan and Community Management Plans, which will enhance the protection of marine turtles and dugongs in Far North Queensland and the Torres Strait.

7 SUPERANNUATION: Resumption of debate (from 20 October 2014) on the motion of Ms T. M. Butler—
That this House:

(1) notes that:

(a) in the document ‘Our Plan’, the Liberals and Nationals promised Australians, prior to the
election that: ‘We will deliver greater stability and certainty on superannuation—we won’t
move the goalposts. … We will ensure that no more negative unexpected changes occur to the
superannuation system so that those planning for their retirement can face the future with a
higher degree of predictability’;

(b) the Government has subsequently revealed, in breach of that promise, that there will be a freeze
on superannuation guarantee increases until at least July 2025;

(c) the Prime Minister has said of the changes that: ‘By delaying the increase in the superannuation
guarantee levy we are keeping more money in workers’ pockets’;

(d) between 7 September 2013 and 2 September 2014, the Fair Work Commission received
thousands of applications for approval of enterprise agreements; and

(e) enterprise agreements’ nominal expiry dates can be up to four years after the enterprise
agreement is approved;

(2) recognises that:

(a) parties negotiate the terms of enterprise agreements, including terms providing for pay
increases, having regard to, among other things, the superannuation guarantee rate;

(b) the parties who negotiated enterprise agreements for which applications for approval were
made between 7 September 2013 and 2 September 2014 would have done so on the basis that
the superannuation guarantee rate would increase during the life of the agreement;

(c) employees to whom such enterprise agreements apply are generally covered by ‘no further
claims’ provisions, so they are not at liberty to negotiate for greater pay increases; and

(d) accordingly, any money that is not going into their superannuation fund will also not be going
into their pockets, despite the Prime Minister’s claim; and

(3) accordingly, calls on the Government to:

(a) concede workers, whose enterprise agreements were negotiated between the election and
2 September 2014, have lost ‘money in their pocket’ because the negotiations were conducted
on the basis there would be ‘no negative change to superannuation’; and

(b) enable those workers to renegotiate pay increases, to compensate for the unexpected freeze on
superannuation.

(Order of the day will be removed from the Notice Paper unless re- accorded priority on any of the next
7 sitting Mondays including 24 November 2014.)

      (ii) provides services at 468 hearing services centres and visiting sites throughout Australia including many rural and regional centres;
   (b) the National Commission of Audit recommended Australian Hearing be privatised; and
   (c) the Government has responded to this recommendation by funding a scoping study in the budget;
(2) acknowledges that:
   (a) the Australian Government provides funding to Australian Hearing that is vital for the provision of hearing health services;
   (b) Australian Hearing delivers quality, low cost hearing health services to over 450,000 people every year; and
   (c) the privatisation of Australian Hearing will result in an interruption to service delivery and impact the quality of services and access to services; and
(3) calls upon the Government to:
   (a) reject the National Commission of Audit recommendation to privatisate Australian Hearing;
   (b) ensure that the Australian Hearing research division and National Acoustic Laboratories be guaranteed certainty of continued operation at current capacity or greater;
   (c) guarantee the service level and quality of the current hearing health services provider; and
   (d) provide certainty to rural and regional centres in the provision of hearing health services to the same standard or better than the current provider.

       leader in delivering overseas aid programs and funding;

(1) acknowledges the 20th anniversary of the Australian Government’s recognition of Australian-born South Sea Islanders as a distinct ethnic group in Australia;

(2) expresses deep regret:
   (a) over the cruel treatment of the approximately 60,000 South Sea Islanders, mainly young men, who were blackbirded (or essentially kidnapped) or lured onto ships and then transported to Australia for the purpose of indentured labour; and

(2) notes that:
   (a) Australia’s flag was the first in the world to be chosen in an open public competition, and this flag design competition brought forth the pride of a newly formed nation by attracting entries from 1 per cent of our population at that time;
   (b) on 3 September 1901, Lady Hopetoun, wife of the first Governor-General of the new Commonwealth of Australia, formally opened the Commonwealth Flag and Seal Exhibition and announced the names of the successful competitors;
   (c) the winning design was a Blue Ensign including the Union Jack, along with a Southern Cross and a six pointed star;
   (d) this latter star (the ‘Commonwealth Star’) was changed to the seven pointed star we are familiar with today in 1908, to signify the Territory of Papua and future Territories; and
   (e) the new flag represents a design by the people, for the people, and since it was first flown in 1901, has become an icon of our shared identity.

(a) the sectarian unrest in parts of Burma, and also in the Mandalay, Bago, and Rangoon regions, but in Rakhine state in particular where around 140,000 people have been displaced for almost two years, is of particular concern;

(b) Human Rights Watch released two reports on the unrest in Rakhine state and the situation of Rohingya Muslims there, which raise concerns about persecution against Rohingya and outlines the dire humanitarian situation in Rakhine state;

(c) Rohingya in Rakhine state were unable to self-identify in the national census in Burma in April 2014;

(d) on 27 May 2014 Burma’s state-run media published a draft law on religious conversions that would impose restrictions on citizens wishing to change their religion, which would encourage further repression and violence against Muslims and other religious minorities;

(e) the Australian Government continues to assist affected people in Rakhine state through direct humanitarian assistance, and has provided almost $10.7 million in humanitarian assistance since the violence in 2012, making Australia one of the largest humanitarian donors to Rakhine state; and

       (ii) one of the most underfunded chronic conditions in Australia with limited research as to its cause and the treatment required for patients;

(2) calls for:

(2) notes that:
   (a) analysis by NATSEM (which the Prime Minister once described as ‘the most reputable and authoritative modelling organisation in Australia’) shows that the 2014-15 budget will redistribute income from lower-income households to higher-income households;
   (b) by 2017-18, NATSEM analysis suggests that the budget will cause:
       (i) across all households, a 2.2 per cent drop in disposable incomes in the bottom quintile, and an 0.2 per cent rise in disposable incomes in the top quintile;
       (ii) among couples with children, a 6.6 per cent drop in disposable incomes of households in the poorest quintile; and
       (iii) among single parents, a 10.8 per cent drop in disposable incomes of households in the poorest quintile; and
calls upon the Government to rethink a budget that not only breaks promises and produces higher deficit figures than in the Pre-election Economic and Fiscal Outlook 2014, but also fails the ‘fair go test’ by hurting low and middle income families.

that the existence of an effective national body is essential to the Government’s ability to fulfil its Closing the Gap targets;

      (ii) $15 million over three years in the 2013 budget to support Congress to continue to develop income opportunities to sustain the organisation; and
   (c) ongoing Commonwealth funding beyond 2013 is essential to support the continued sustainability of an independent national voice for First Nation Peoples;

(4) notes with concern that the Government plans to cut the $15 million funding and abandon the commitment to the sustainability of Congress as the national representative body for Aboriginal and Torres Strait Islander Peoples; and

(5) calls on the Government to commit to the sustainability of a strong Congress by honouring the $15 million funding commitment.

(Order of the day will be removed from the Notice Paper unless re-accorde on any of the next 3 sitting Mondays including 24 November 2014.)

   (1) commends the Government for reaffirming Australia’s support for the Global Polio Eradication Initiative (the Initiative) by maintaining the $15 million commitment for 2013-14;
   (2) notes that:
      (a) on 13 January 2014, India passed three years without reporting a single case of polio, an achievement reports say will lead to the entire South-East Asia Region of the World Health Organisation being certified as polio-free later in 2014;
      (b) lessons learned from India’s success are now part of the Polio Eradication and Endgame Strategic Plan 2013-2018 announced at the Global Vaccine Summit in Abu Dhabi in 2013;
      (c) the Initiative should mobilise the polio eradication infrastructure for broader child survival efforts wherever possible, ensuring that the knowledge, capacities, processes and assets created by the Initiative contribute to reducing child deaths, accelerating the achievement of Millennium Development Goal 4;
      (d) despite ongoing security challenges, in the three countries where polio remains endemic—Afghanistan, Pakistan and Nigeria—the proportion of children vaccinated during 2013 increased;
      (e) in 2013 for the first time in the history of the Initiative, all cases of poliomyelitis caused by a wild virus were due to a single serotype, type 1; the most recent case due to wild poliovirus type 3 occurring on 10 November 2012 in Nigeria, while a case of poliovirus type 2 has not been detected since 1999;
      (f) polio outbreaks in previously polio-free countries—Somalia, Syria, Cameroon—and the presence of the polio virus in Egypt and Israel are constant reminders of the need to ensure the polio program is fully funded and of the need for countries to take full ownership of the implementation of emergency plans; and

(1) Is the Minister aware of the statement made by Sir Robert Menzies on 2 October 1964 at the opening of the Chrysler Manufacturing Centre in Tonsley Park, South Australia, where he said that the manufacturing industry, providing large scale employment, has enabled migration programs to continue, and in turn, given confidence to other industries that benefit from the higher demand for goods and services resulting from annual population increases.

(2) Will the Minister consider developing a coordinated strategy (a) to ensure Australia’s migration program, particularly the Skilled Migration program, does not reduce the opportunities for Australians to find work in this tough job market, and (b) that helps to regenerate manufacturing and industry in Australia, particularly in Melbourne’s Northern Suburbs, in order to reduce local unemployment and improve social cohesion.

(1) In respect of the Deakin University’s Centre for Research in Educational Futures and Innovation’s report Australian international graduates and the transition to employment (September 2014), is he aware that the findings illustrate that (a) the overseas student program needs to be reviewed by the Australian Government to provide greater opportunity for Australian graduates to find work domestically, (b) the graduate labour market in Australia in the three disciplines of nursing, engineering and accounting is very competitive, (c) the proportion of bachelor degree graduates employed within four months of completing their courses has fallen to 71.3 per cent, the lowest figure in over 20 years, and what action will the Minister take to address this issue, (d) shortages for engineers eased significantly in 2012-13 and are now limited to petroleum and mining engineers, and (e) a slowdown in the mining industry, as well as manufacturing, and subdued activity in construction, are contributing to a weak labour market.
(2) Does the Minister accept the report’s findings that employment outcomes for graduate engineers have weakened in recent years with softer market conditions, resulting in graduates competing for work with experienced engineers, with BHP, Rio Tinto and AECOM cutting their graduate intakes.

626  MR THOMSON: To ask the Minister for Education.

627  MR THOMSON: To ask the Minister representing the Minister for Employment.

628  MR THOMSON: To ask the Minister for Immigration and Border Protection.

MR THOMSON: To ask the Ministers listed below (question Nos. 630 to 633)—

(2) Is the Minister aware that in 2012, 7,200 domestic students completed a bachelor or higher degree in accounting, with the Department of Employment declaring that ‘a more than adequate supply of accountants existed in Australia’.

(3) Is the Minister aware (a) of reports that overall employment of accountants increased by just 1.3 per cent over the five years to May 2014, which was well below the ‘all occupations’ average of 7.4 per cent, and (b) that advertised vacancies for accountancy positions have also fallen since 2008.

(4) Is the Minister aware of the recent media report by Edmund Tadros ‘Accounting bodies do about-face on jobs for foreign students’ (Australian Financial Review, 29 October 2014), claiming that the Australian Government says it will review the Skilled Occupations List early next year, and that based on the Australian Workforce and Productivity Agency’s recommendation, a reduced ceiling of approximately 5,000 places or 3 per cent of the domestic workforce, has been set for accountants in 2014-15.

(5) Is it a fact that the Department of Employment has recommended that accountants be removed from the Skilled Occupations List, having concluded there is a surplus of accountants and ‘deteriorating outcomes for graduates…relatively low pay rates for bachelor graduates and weak employment outcomes for masters graduates’; if so, and in light of the evidence from the academic research, media reporting and professional views, will the Minister consider removing accountants from the Skilled Occupations List.

(6) In respect of a media report by Edmund Tadros and Agnes King ‘Accounting Bodies do about-face on jobs for foreign students’ (Australian Financial Review, 12 February 2014), is he aware (a) that in the past five years, 40,000 migrants have entered the country through accounting skilled stream, which is significantly higher than the numbers entering with other priority areas, (b) of data provided in this report that Graduate Careers Australia shows that 80 per cent of domestic accounting graduates were working full time four months after finishing their courses in 2012, compared with 93 per cent in 2001, (c) that the University of New South Wales (UNSW) had an almost record enrolment in first year accounting in 2014 with over 1,700 currently enrolled, and (d) that the UNSW’s record for accounting enrolments was 1,800 in 2010.

(7) Will the Minister acknowledge the suggestions in the Deakin University’s Centre for Research in Educational Futures and Innovation’s report Australian international graduates and the transition to employment (September 2014) and media report in part (6), that overseas accounting students are being lured to study accounting in Australia on the misleading impression that it is easy to find work experience, work opportunities and permanent residency in Australia.

(8) Is the Minister aware of the findings in Deakin University’s report in part (7), which showed that international accounting students were a major source of income for Australian Universities, making up a record 79 per cent of the 17,600 enrolled postgraduate students in 2013, and 55 per cent of the more than 24,500 enrolled undergraduate students.

648 MR THOMSON: To ask the Minister for Immigration and Border Protection.

649 MR THOMSON: To ask the Minister representing the Minister for Employment.

To ask the Ministers listed below (question Nos. 650 to 651)—In respect of the concerns of Mr Michael O’Connor, National Secretary of the Construction, Forestry, Mining and Energy Union (CFMEU), about the alleged abuse of 457 visa workers by Samsung C&T Corporation (Construction and Trading) at the Roy Hill Project in the Pilbara region, Western Australia, are the Ministers aware (a) that in March 2014, the CFMEU was contacted by a whistle-blower who claimed that there are between 150 to 200 457 visa workers employed by Samsung C&T on the project, about half of whom are Korean

excessive hours, (d) that the whistle-blower reported that the 457 visa workers are working from 7 am to
9 pm every day with only one day off a month, ie, over 84 hours a week, and (e) of claims that the actual

2009 and the approved 457 visa worker ‘market salary rate’ for equivalent Australian workers, at less than
$16 an hour.

650 MR THOMSON: To ask the Minister for Immigration and Border Protection.

reportedly the sponsor Samsung C&T has not been authorised by the Department of Immigration and
Border Protection to employ workers on 457 visas, and has not sought any such authorisation, (c) of claims
that many of the 457 visa workers are suffering extreme stress as a result of the excessive work hours and
onerous employment conditions, and their welfare is being placed at risk, (d) that the whistle blower
reports that many of the Korean 457 visa workers have at best, very poor English language skills, and at
worst, no English at all, (e) of how these workers were made aware of their rights under Australian
workplace and immigration laws, and (f) of reports that the employer intends to nominate, or has already

program which requires the sponsor to have complied with all relevant Australian immigration and
workplace laws.

immigration and employment laws and regulations occurred in this case, (b) can the Ministers explain
what labour market testing was undertaken by the employer or the Australian Government, to provide an
opportunity for local Australians to seek employment at the Roy Hill Project, before the 150 to 200 foreign
nationals were brought in as migrant workers, and (c) can the Ministers explain with national
unemployment now at 6.2 per cent, and with some parts of Australia having unemployment higher than in
Spain and Greece, with Broadmeadows, Melbourne, for example, being over 26 per cent, how encouraging
migrant workers to come to Australia assists our local unemployment crisis.

REPORTS OF HOUSE AND JOINT COMMITTEES AWAITING GOVERNMENT RESPONSE

The Government is to respond to committee reports within six months, otherwise the relevant minister must present a signed statement to the House indicating the reasons for non-response.

This list indicates the status of Government responses to committee reports of the 43rd and the 44th parliaments, and appears in the first Notice Paper of each sitting period (fortnight or single week). It includes committee reports requiring an explicit formal Government response to recommendations, but not advisory reports on bills, reports of the Public Works committee, and other domestic committees, etc.

Reports from the Parliamentary Joint Committee on Human Rights are only listed where the committee has examined and reported on a specific item(s) of existing legislation. Not listed are that committee’s regular reports on the human rights compatibility of bills and legislative instruments that come before either House of Parliament.

The period from when the 43rd Parliament was prorogued on 5 August 2013 and the commencement of the 44th Parliament on 12 November 2013 is not included in the response period.

For a complete list of all House and Joint committee reports still requiring a government response, refer to the current Speaker’s Schedule of Outstanding Government Responses: www.aph.gov.au/SpeakersSchedule
