Notice given 23 June 2011
306 Chair of the Education, Employment and Workplace Relations Legislation Committee (Senator Marshall): To move—That the Senate—
(a) notes:
   (i) the opening statement made by the President of Fair Work Australia on 1 June 2010 during his appearance at an estimates hearing of the Education, Employment and Workplace Relations Legislation Committee, and
   (ii) in particular, the request made in that statement that the Senate reconsider its order of 28 October 2009 which requires that, on each occasion on which the Education, Employment and Workplace Relations Legislation Committee meets to consider estimates in relation to Fair Work Australia, the President of Fair Work Australia appear before the committee to answer questions; and
(b) modifies the order of 28 October 2009 by declaring that, while relaxing the requirement that the President of Fair Work Australia attend to answer questions on all occasions when the Education, Employment and Workplace Relations Legislation Committee meets to consider estimates in relation to Fair Work Australia, the Senate expects that the President will appear should his or her presence be requested by the Education, Employment and Workplace Relations Legislation Committee in the future.

Notice given 18 August 2011
359 Leader of the Australian Greens (Senator Bob Brown): To move—That the Senate condemns the Opposition’s:
(a) ongoing attacks on the Tasmanian Forests Intergovernmental Agreement between the Commonwealth of Australia and the State of Tasmania; and

As amended on 22 August 2011.

Notice given 2 November 2011

531 **Senator Madigan:** To move—That, in light of the fact that the Australian Parliament, on behalf of the Australian people, has rightly recognised the cultural heritage of the Indigenous members of our community and identified the importance of their historic connection to the land on which we all live, the Senate recognises that there are other Australian communities which also have a cultural heritage which comes from their connection, over generations, to the district and environment which they have inhabited and from which they have created an identity which is passed on to future generations of those communities.

Notice given 8 November 2011

544 **Leader of the Australian Greens (Senator Bob Brown):** To move—That the Senate—

(a) notes:

(i) the letter of the President of the Senate to the Leader of the Australian Greens (Senator Bob Brown), dated 7 November 2011, in which he states ‘I have examined the Hansard and agree that the remarks made by Senator Abetz alleging fraudulent conduct on your part were contrary to standing order 193(3) and should have been ruled out of order on the grounds that they imputed improper motives to you and contained personal reflections’, and

(ii) the President’s advice ‘as a senator, you have numerous opportunities to respond. These include...giving notice of a motion calling on Senator Abetz to retract’; and

(b) calls on Leader of the Opposition in the Senate (Senator Abetz) to retract the allegation in accordance with standing orders.
Leader of the Australian Greens (Senator Bob Brown): To move—That the Senate—
(a) notes that:
   (i) after the final vote on the Clean Energy bills, Senator Heffernan crossed the chamber to stand in front of the crossbenches and the Australian Greens’ senators, and
   (ii) this action obscured vision of cameras and the press gallery observing the proceedings for the Australian public; and
(b) calls on Senator Heffernan and his colleagues to reflect on this regrettable behaviour and take appropriate steps to see that it does not recur.

*Notice given 25 November 2011*

*608 Senator Rhiannon: To move—That the Senate—

(a) notes that:

(i) 25 November 2011 commemorates the United Nations’ International Day for the Elimination of Violence Against Women – White Ribbon Day,

(ii) domestic violence occurs in every geographic area and in all socio-economic and cultural groups in Australia, in particular in regional and rural Australia and Indigenous communities,

(iii) the prevention and elimination of domestic violence is a goal of the Australian Government, and yet the Government has failed to fund the continuation of the pilot Bsafe program, which successfully operated in regional Victoria from 2007 to 2010, providing personal safety alarms to women and children at risk of domestic violence to prevent further violence and enable them to remain in their own homes and communities,

(iv) the cessation of the pilot Bsafe program, which was funded through a 3 year $340 000 federal grant that ended in December 2010, caused distress to the women and children and their families and friends who had come to rely on it,

(v) there is an extraordinary level of support for the Bsafe program from the beneficiaries, community workers, police, women’s groups and the broader community across the country,

(vi) the Bsafe program won the national Australian Crime and Violence Prevention Award in 2010,

(vii) the Bsafe program was extremely cost effective, costing approximately $1 000 for the two safety alarms, and provided enormous benefits in reducing the risk and breaking the cycle of domestic violence, giving assurance to vulnerable women and children and allowing them to return to participating fully in society, as detailed in the Bsafe program evaluation report,

(viii) in Victoria the community sector is ready and eager to expand this potentially life-saving resource to women across the state, and

(ix) one woman who was a recipient of a Bsafe alarm asked ‘How much does my life cost’; and

(b) calls on the Government to:

(i) urgently fund the continuation of the successful pilot Bsafe program in regional Victoria to allow women and children continued access to the service, and

(ii) fund the extension of the Bsafe program to other regions in Victoria and into other states.
Leader of the Australian Greens (Senator Bob Brown): To move—That the Minister for Agriculture, Fisheries and Forestry, on the next day of sitting, report to the Senate on the failure of the Prime Minister (Ms Gillard) to uphold the Tasmanian Forests Intergovernmental Agreement between the Commonwealth of Australia and the State of Tasmania, in particular clauses 25 to 27 which stipulated immediate protection of 430 000 hectares of high conservation value forests where logging, including clear-felling and burning of ancient forests and wildlife habitat, is continuing.

Leader of the Australian Greens (Senator Bob Brown): To move—That the President of the Senate report to the Senate on the next day of sitting on whether the Committee of Privileges is endangered with politicisation by ‘SLAPP’ writ style references, such as that of Senator Kroger on 22 November 2011, which was publicised by the Leader of the Opposition in the Senate (Senator Abetz) before any adjudication was possible.

Leader of the Australian Greens (Senator Bob Brown): To move—That the Senate—
(a) notes the growing support for a sovereign wealth fund (SWF); and

On 28 February 2012

General Business—Notices of Motion

Notice given 19 September 2011

438 Senator Siewert: To move—That the Senate—

(a) notes that:

(i) trawling in the northeast area of the North West Slope Trawl Fishery, in depths less than 200 metres off the Western Australian Kimberley coast was accidentally made possible due to an administrative error when the Western Australian and Federal Governments amended the Offshore Constitutional Settlement Agreement in 1998,

(ii) this error accidentally allows bottom trawling in areas shallower than 200 metres despite the fact that this is a critical habitat for goldband snapper and other demersal fish species which have been off-limits to North West Slope Trawl Fishery trawlers as they are a deep water crustacean prawn fishery,

(iii) the ecological sensitivity of this area has been acknowledged in the Australian Fisheries Management Authority’s correspondence with permit holders,

(iv) legislative instruments have been introduced prohibiting trawl fishing in this northeast area, but the most recent instrument expired in December 2010,

(v) since that time, the closure has been maintained informally by industry self-regulation,

(vi) negotiations between the Federal and Western Australian Governments which were intended to fix this error have stalled and the trawling industry has stated that they will commence bottom trawling in this area on the imminent cessation of the closure which is 30 September 2011,

(vii) a resumption of trawling in this area would adversely impact the benthos and demersal fish stocks of this region, thus putting the entire ESD [ecologically sustainable development] certified Northern Demersal Scalefish Managed Fishery at great sustainable risk, and

(viii) the Western Australian Department of Fisheries has stated in its latest State of the fisheries and aquatic resources report that the demersal scalefish resources in this area are fully exploited; and
(b) calls on the Federal Government to reinstate the North West Slope Fishery Direction No. 02 Area Closure legislative instrument which excludes trawl fishing in the northeast area of the North West Slope Trawl Fishery in Western Australia.

Notice given 20 September 2011

Orders for production of documents

13 Taxation—Henry Tax Review—Superannuation—Order for production of documents

That the Senate—

(a) notes that:

(i) the Henry Tax Review made a number of recommendations in relation to superannuation,

(ii) those recommendations were not adopted by either the Rudd or Gillard Governments which pursued proposals criticised in the context of the Henry Tax Review,

(iii) the Government so far has not released any of the Treasury modelling or other relevant information and advice about the impact of those Henry Tax Review recommendations, and
(iv) release of that information is in the public interest to enable a fully informed community discussion about the best way forward for superannuation;

(b) calls on the Government to honour its stated commitment to openness and transparency and release all the information it holds about the Henry Tax Review recommendations on superannuation forthwith; and

(c) orders that there be laid on the table by noon on Thursday, 30 September 2010:
   (i) any modelling, assessments or advice generated on superannuation-related issues for the purposes of the Henry Tax Review before it finalised its report and recommendations,
   (ii) any Treasury modelling, assessments and advice to the Government about the impact of the Henry Tax Review’s recommendations on superannuation, and
   (iii) any other information held by the Government about the superannuation-related recommendations in the Henry Tax Review.

(Motion of Senator Cormann agreed to 29 September 2010; document tabled 30 September 2010.)

14 Taxation—Mining tax—Revenue estimates—Order for production of documents

That the Senate—

(a) notes that:
   (i) the Government continues to hide key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,
   (ii) since the last sitting of the Senate, the Select Committee on Fuel and Energy repeatedly sought information from the Government about changes it made to those assumptions between the 2010-11 Budget and the announcement of the new proposed mining tax arrangements on 2 July 2010,
   (iii) the committee specifically sought information about changes to commodity price, production volume, exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,
   (iv) the information sought by the committee is published by the Western Australian State Government in its budget papers as a matter of course,
   (v) the Government did not allow the Secretary of the Department of the Treasury (Dr Henry) to provide that information even when he appeared before the committee for a second time on 13 July 2010,
   (vi) the Prime Minister (Ms Gillard) to this day has not responded to Senator Cormann’s letter, dated 12 July 2010, asking for this information to be released,
   (vii) the Treasurer (Mr Swan) has since conceded that:
      (A) under the revised assumptions, the original Resource Super Profits Tax (RSPT) proposal would have raised approximately $24 billion over the forward estimates rather than the $12 billion revenue estimate contained in the Budget,
(B) a massive $6 billion out of the $10.5 billion revised mining tax revenue estimate was based on changes to government assumptions, and

(C) under the original assumptions, the Mineral Resource Rent Tax (MRRT) or expanded Petroleum Resource Rent Tax (PRRT) would only have raised $4 billion over the forward estimates, and

(viii) the release of all relevant government assumptions is necessary to enable proper scrutiny of the Government’s mining tax proposal and that, as such, release of that information is in the public interest;

(b) calls on the Government to honour its stated commitment to openness and transparency and release all the information it holds about mining tax revenue estimates forthwith; and

(c) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010 all the Government’s assumptions used to estimate:

(i) the revenue from the RSPT as contained in the 2010-11 Budget, including but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and

(ii) the revenue from and overall fiscal impact of the MRRT/expanded PRRT arrangement announced on 2 July 2010, including all changes to assumptions used for the 2010-11 Budget.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

15 Taxation—Mining tax—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government conducted negotiations about its revised mining tax with BHP Billiton, Rio Tinto and Xstrata in secret before entering into an agreement about this new mining tax proposal with those three companies only,

(ii) approximately 99 per cent of the mining industry was excluded from those secret mining tax negotiations, and

(iii) in its haste to reach a new deal quickly, the Government gave those three companies an unfair competitive advantage, including by:

(A) allowing them to directly influence the ultimate design of the new tax while excluding their competitors,

(B) using data provided by those three companies on commodity prices, production volumes and other key assumptions, and

(C) giving them preferential access to inside information about Government assumptions and thought processes around the new tax;

(b) considers that:

(i) information made available by the Government to those three companies should be made available to everyone,

(ii) any data provided by those three companies for use in any Treasury modelling of the revised mining tax proposals should be publicly released, and
(iii) all parts of any agreement between the Government and those three companies about the revised mining tax arrangements, including any schedules and other attachments, should be publicly available; and

(c) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:
   (i) any information held by the Government related to the negotiations and agreement about the new mining tax proposal announced on 2 July 2010, including but not limited to, briefing notes, e-mails, data provided to the Government by BHP Billiton, Rio Tinto and Xstrata and any other information generated in the context of the negotiations about the new mining tax proposal, and
   (ii) a copy of the signed heads-of-agreement on the new mining tax proposal between the Government and BHP Billiton, Rio Tinto and Xstrata.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

16 Taxation—Mining tax—Government estimates—Order for production of documents

That the Senate—
   (a) notes that:
      (i) the executive director of the Revenue Group in the Department of the Treasury (Mr David Parker) told the Select Committee on Fuel and Energy on 5 July 2010 that the department:
         (A) had assessed where the $10.5 billion estimated revenue from the revised mining tax was expected to come from ‘by commodity’, and
         (B) had not assessed where that revenue would come from on a state-by-state basis, but that ‘it would not be a difficult piece of analysis to do’,
      (ii) despite repeated requests since, the Government has refused to provide that information,
      (iii) this information is required to properly assess and scrutinise the impact of the proposed mining tax on the economy, jobs and on individual states and territories and individual sectors of the resources industry,
      (iv) furthermore, the Rudd and Gillard Governments made a commitment that funding from the mining tax related ‘infrastructure fund’ would be allocated to individual states and territories based on the level of mining tax revenue raised in those jurisdictions, and
      (v) as such, information about where the revenue is expected to come from on a state-by-state and territory basis is necessary to properly scrutinise whether, and ensure that, individual jurisdictions would receive a fair share of funding from that fund; and
   (b) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:
      (i) government estimates of where the $12 billion in revenue from the Resource Super Profits Tax was expected to come from by commodity and by state and territory, and
(ii) government estimates of where the $10.5 billion in revenue from the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax is expected to come from by commodity and by state and territory.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

17 Taxation—Mining tax—Revenue estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government has refused to provide information requested by the Senate about key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,

(ii) specifically, the Government has refused to provide information about changes to commodity price, production volume and exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,

(iii) in its response to the relevant order of the Senate, the Government justified its refusal to provide the information on the basis that, ‘commodity price forecasts underpinning the terms of trade forecasts are based in part on information provided by companies that is commercial in confidence. Disclosure of these individual commodity price forecasts may therefore prejudice negotiations between private companies’,

(iv) the information sought by the Senate is published by the Western Australian State Government in its budget papers as a matter of course, and

(v) information published by the Western Australian Government includes its commodity price assumptions developed after relevant information about commodity price expectations is obtained from relevant mining companies, which includes at least some of the companies involved in the mining tax negotiations with the Federal Government;

(b) based on the Government’s response does not accept that there are any legitimate public interest grounds for the Government to refuse to provide the requested information;

(c) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(i) all the Government assumptions used to estimate the revenue from the Resource Super Profits Tax as contained in the 2010-11 budget, including, but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and

(ii) all the Government assumptions used to estimate the revenue from and overall fiscal impact of the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax arrangement announced on 2 July 2010, including all changes to assumptions used for the 2010-11 budget;
(d) notes the agreements between the Government and other parties and independents to refer disputes about public interest disclosures to the Information Commissioner, who will arbitrate on the release of documents; and

(e) orders that, if the Government does not produce the information required by this order within the specified timeframe, there be laid on the table by 15 November 2010, a report on the matter by the Information Commissioner, including a review of the adequacy of the grounds specified by the Government for its refusal to produce the information and, if applicable, his arbitration on the release of the information.

(Motion of Senator Cormann agreed to 26 October 2010; documents tabled 28 October 2010 and 15 November 2010; document certified 3 February 2011 and tabled 9 February 2011.)

18 Taxation—Mining tax—Order for production of documents
That the Senate—
(a) notes that:
   (i) the Government has refused to provide any of the information requested by the Senate about its negotiations with BHP Billiton, Rio Tinto and Xstrata on the revised mining tax proposal,
   (ii) in relation to some of the information only, the Government justified its refusal in its response to the relevant Senate order on the basis that, ‘Data and other material provided to the Treasury as part of negotiations around the MRRT are considered to be commercial in confidence’,
   (iii) no justification was provided by the Government as to why release of any of the other information was not in the public interest, and
   (iv) specifically, no reason was provided by the Government as to why the release of the signed heads-of-agreement between the Government and BHP Billiton, Rio Tinto and Xstrata would not be in the public interest;
(b) considers release of all the information requested on the negotiations between the Government and BHP Billiton, Rio Tinto and Xstrata about the revised mining tax proposal to be in the public interest;
(c) orders that there be laid on the table by noon on Thursday, 28 October 2010:
   (i) any information held by the Government related to the negotiations and agreement about the new mining tax proposal announced on 2 July 2010, including, but not limited to, briefing notes, emails, data provided to the Government by BHP Billiton, Rio Tinto and Xstrata and any other information generated in the context of the negotiations about the new mining tax proposal, and
   (ii) a copy of the signed heads-of-agreement on the new mining tax proposal between the Government and BHP Billiton, Rio Tinto and Xstrata;
(d) notes the agreements between the Government and other parties and independents to refer disputes about public interest disclosures to the Information Commissioner, who will arbitrate on the release of documents; and

   (ii) in what appears to be a consolidated response to three separate orders of the Senate for the production of documents the Government did not provide any of the information requested in the relevant order, nor did the Government provide any explanation as to why release of this information would not be in the public interest;

(b) orders that there be laid on the table by noon on Thursday, 28 October 2010:

20 Superannuation—Productivity Commission report—Order for production of document

That the Senate—

(a) notes that:
   (i) the current process to select default superannuation funds under modern awards is not transparent, not objective or evidence based, not competitive and not subject to systematic review,
   (ii) the top ten most commonly listed default funds under modern awards are all union based industry super funds, with these ten funds listed as default super funds in modern awards 330 times,
   (iii) the Cooper Review into superannuation also confirmed that current default superannuation fund arrangements undermined competition as new employees typically become a member of a default fund, and
   (iv) a competitive, transparent and efficient superannuation industry is critically important to maximise value for all superannuants;

(b) endorses the Labor Party’s commitment before the 2010 election to instruct the Productivity Commission to design a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds; and

(c) orders that there be laid on the table, no later than 31 May 2011, a report by the Productivity Commission on the design of a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds, with the requirements that:
   (i) the process is to be based on objective criteria and evidence and be subject to systematic review, so that the selection and ongoing review of eligible default funds is transparent and competitive,
   (ii) the process is to help maximise employees’ retirement incomes by ensuring that only those superannuation funds that deliver – and continue to deliver – the best results to their members are able to be included as default fund options in modern awards and enterprise agreements, and
   (iii) in designing the process the Productivity Commission make reference to the existing sophisticated system of superannuation fund ratings which has evolved over the past 20 years and is already used widely by employees, employers and financial planners in making decisions on fund selection.

(i) the Government has refused to provide the information requested by the Senate in relation to advice to Government about the requirement for unanimous agreement from all parties to change the GST arrangements,

(ii) the language in the agreements with the states and territories differs from the language in the agreements with the BGAs with respect to the Australian Government’s ability to withhold, suspend or recover monies in the event that the funding is not expended for the purposes of the program and in accordance with the BER Guidelines, and

(iii) the Minister for Tertiary Education, Skills, Jobs and Workplace Relations indicated at a Senate estimates hearing in October 2010 that the Commonwealth has obtained legal advice that confirms that, notwithstanding the differences in language in the agreements, under each of the two types of agreements the Commonwealth has the power to withhold or recover monies; and

(ii) that the Minister for Sustainability, Environment, Water, Population and Communities tabled legal advice from the Australian Government Solicitor in the House of Representatives on 25 October 2010 stating that, ‘The nature of the decision-making in relation to the Plan involves the application of broad concepts and there is therefore scope for the consideration of how economic, social and environmental outcomes should be optimised’,

(iii) that the Chairman of the Murray-Darling Basin Authority, Mr Mike Taylor, responded by stating that this advice disagrees with previous advice the Authority had received stating, ‘... clearly the advice we’d had to date had indicated that we were obliged to meet the requirements of adhering to international agreement, and ensuring that we met the environmental flows required to maintain and restore key environmental assets and key ecosystems, and that it was not subject to social and economic impacts’, and

(ii) that in a letter to the Clerk of the Senate the Chairman of the Productivity Commission expressed the view that in his understanding ‘such a report would need to be commissioned by the Assistant Treasurer’,

(iii) that like the Australian Information Commissioner, the Chairman of the Productivity Commission appears to have confused a legitimate order of a House of the Australian Parliament for the production of a document, with a request to perform a specific function under his enabling statute, and

(iv) with increasing concern this recently emerging trend of statutory agencies established by the Parliament failing to understand valid orders of the Senate and thereby threatening to interfere with the free exercise by the Senate of its authority and functions;

(b) advises the Productivity Commissioner as follows:

(i) that under section 49 of the Constitution the Senate has the undisputed power to order the production of documents necessary for its information, a power which encompasses documents already in existence and documents required to be created for the purpose of complying with the order,

(ii) this power may be modified only by express statutory declaration, as required by section 49 of the Constitution,

(iii) nothing in the Productivity Commission Act 1998 is expressed as a declaration for the purpose of section 49 that would have the effect of limiting the exercise of the power by the Houses of the Commonwealth Parliament in respect of the Productivity Commission,
(iv) multiple resolutions of the Senate affirm the principle that information may be withheld from it only following consideration by the Senate of a properly founded claim of public interest immunity, and

(v) the Senate has on numerous occasions exercised its power to require statutory agencies and officers to produce information in response to orders; and

(c) again orders the Productivity Commission to provide the report requested by the Senate consistent with its order agreed to on 16 November 2010.

Parliament

42 Meeting of Parliament—‘Welcome to Country’ ceremony
That the Senate is of the view that the declaration of the opening of Parliament should be preceded by an Indigenous ‘Welcome to Country’ ceremony.
(Agreed to 23 June 2010.)

Question time

43 Modified rules for question time—Temporary order
That the following modified rules for question time continue to operate as a temporary order, in conjunction with standing orders 72 and 73, until 30 June 2012:

(c) answers shall be directly relevant to each question.

Senate

44 Appropriations—Ordinary annual services of the Government
That, in accordance with the recommendation made in the 50th Report of the Appropriations and Staffing Committee, the Senate resolves:

(1) To reaffirm its constitutional right to amend proposed laws appropriating revenue or moneys for expenditure on all matters not involving the ordinary annual services of the Government.
(2) That appropriations for expenditure on:

(a) the construction of public works and buildings;
(b) the acquisition of sites and buildings;
(c) items of plant and equipment which are clearly definable as capital expenditure (but not including the acquisition of computers or the fitting out of buildings);
(d) grants to the states under section 96 of the Constitution;
(e) new policies not previously authorised by special legislation;
(f) items regarded as equity injections and loans; and
(g) existing asset replacement (which is to be regarded as depreciation),

are not appropriations for the ordinary annual services of the Government and that proposed laws for the appropriation of revenue or moneys for expenditure on the said matters shall be presented to the Senate in a separate appropriation bill subject to amendment by the Senate.

(3) That, in respect of payments to international organisations:

(a) the initial payment in effect represents a new policy decision and therefore should be in Appropriation Bill (No. 2); and
(b) subsequent payments represent a continuing government activity of supporting the international organisation and therefore represent an ordinary annual service and should be in Appropriation Bill (No. 1).

(4) That all appropriation items for continuing activities for which appropriations have been made in the past be regarded as part of ordinary annual services.

( Agree to 22 June 2010.)

GUIDE TO THE NOTICE PAPER

A Notice Paper is issued each sitting day containing details of current business before the Senate. It works in conjunction with the Senate Order of Business (otherwise known as the Red) which sets out the daily routine of business to be followed as per standing order 57.

Standing orders are the rules or procedures set down by the Senate to govern the Senate and its committees. The current version of The Senate: Standing Orders and other orders of the Senate is available on the Senate website at: www.aph.gov.au/Senate/pubs/standing_orders/index.htm.

The publication of the Notice Paper is authorised by standing order 43(2).

Placement of business on the Notice Paper

The way business is placed on the Notice Paper is set down according to standing orders and is listed under one of the following four categories:

- **Matters of privilege** which take precedence over all other business and are listed at the beginning of the Notice Paper when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

- **Business of the Senate** which has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

- **Government business** which is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

- **General business** which is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above. (See below for a breakdown of this section.)

Within each of the above categories you may find notices of motions and/or orders of the day:

- **Notices of motion** are statements indicating that senators intend to move particular motions on the days indicated. They are entered on the Notice Paper in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

- **Orders of the day** are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters, including legislation, or requirements to present committee reports.

On days other than Thursdays, the Notice Paper records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, to take account of General Business at 4.30 pm, a full listing of business relating to the consideration of government documents, committee reports and government responses to committee reports and Auditor-General’s reports is also published.
Sections of the Notice Paper

Other than the sections: Matters of Privilege, Business of the Senate and Government Business, the Notice Paper, may also contain the following:

Orders of the Day relating to Committee Reports and Government Responses and Auditor-General’s Reports

Adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day’s Notice Paper. The section is printed in full on Thursdays.

This section can be found residing between Government Business and General Business on the Notice Paper.

General Business

Orders of the Day—Adjourned debates on motions initiated by private senators to take note of business other than a government document or a private senator’s bill as these have their own sections.

Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day’s Notice Paper. The section is printed in full on Thursdays.

Orders of the day relating to Private Senators’ Bills—Adjourned debates on motions to consider bills introduced by senators in a personal capacity. New items appear in the following day’s Notice Paper.

Business for Future Consideration

Lists any notice of motion or order of the day to be considered on a specific day in the future, for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Business, is listed under the date it is to dealt with in the chamber, starting with the next day of sitting. Any business to which a date cannot be allocated, for example, the tabling date may be a result of some other event occurring, will be placed at the end of the section.
