GENERAL BUSINESS

Notices of Motion

Notice given 23 June 2011

306 Chair of the Education, Employment and Workplace Relations Legislation Committee (Senator Marshall): To move—That the Senate—

(a) notes:

(i) the opening statement made by the President of Fair Work Australia on 1 June 2010 during his appearance at an estimates hearing of the Education, Employment and Workplace Relations Legislation Committee, and
(ii) in particular, the request made in that statement that the Senate reconsider its order of 28 October 2009 which requires that, on each occasion on which the Education, Employment and Workplace Relations Legislation Committee meets to consider estimates in relation to Fair Work Australia, the President of Fair Work Australia appear before the committee to answer questions; and

(b) modifies the order of 28 October 2009 by declaring that, while relaxing the requirement that the President of Fair Work Australia attend to answer questions on all occasions when the Education, Employment and Workplace Relations Legislation Committee meets to consider estimates in relation to Fair Work Australia, the Senate expects that the President will appear should his or her presence be requested by the Education, Employment and Workplace Relations Legislation Committee in the future.

Notice given 18 August 2011

359 Senator Bob Brown: To move—That the Senate condemns the Opposition’s:
(a) ongoing attacks on the Tasmanian Forests Intergovernmental Agreement between the Commonwealth of Australia and the State of Tasmania; and
(b) failure to provide a constructive alternative for scores of contractors facing market downturn, closures of three export woodchip mills and regional areas of Tasmania welcoming the development opportunities the package will provide.

As amended on 22 August 2011.

Notice given 21 September 2011

458 Senator Bob Brown: To move—That the Senate condemns the Coalition for seeking to deny Tasmania $270 million of assistance for forestry transition.

Notice given 8 November 2011

544 Senator Bob Brown: To move—That the Senate—
(a) notes:
   (i) the letter of the President of the Senate to the Leader of the Australian Greens (Senator Bob Brown), dated 7 November 2011, in which he states ‘I have examined the Hansard and agree that the remarks made by Senator Abetz alleging fraudulent conduct on your part were contrary to standing order 193(3) and should have been ruled out of order on the grounds that they imputed improper motives to you and contained personal reflections’, and
   (ii) the President’s advice ‘as a senator, you have numerous opportunities to respond. These include...giving notice of a motion calling on Senator Abetz to retract’; and
(b) calls on Leader of the Opposition in the Senate (Senator Abetz) to retract the allegation in accordance with standing orders.

549 Senator Bob Brown: To move—That the Senate—
(a) notes that:
   (i) after the final vote on the Clean Energy bills, Senator Heffernan crossed the chamber to stand in front of the crossbenches and the Australian Greens’ senators, and
(ii) this action obscured vision of cameras and the press gallery observing the proceedings for the Australian public; and

608 Senator Rhiannon: To move—That the Senate—
(a) notes that:
(i) 25 November 2011 commemorates the United Nations’ International Day for the Elimination of Violence Against Women – White Ribbon Day,
(ii) domestic violence occurs in every geographic area and in all socio-economic and cultural groups in Australia, in particular in regional and rural Australia and Indigenous communities,
(iii) the prevention and elimination of domestic violence is a goal of the Australian Government, and yet the Government has failed to fund the continuation of the pilot Bsafe program, which successfully operated in regional Victoria from 2007 to 2010, providing personal safety alarms to women and children at risk of domestic violence to prevent further violence and enable them to remain in their own homes and communities,
(iv) the cessation of the pilot Bsafe program, which was funded through a 3 year $340,000 federal grant that ended in December 2010, caused distress to the women and children and their families and friends who had come to rely on it,
(v) there is an extraordinary level of support for the Bsafe program from the beneficiaries, community workers, police, women’s groups and the broader community across the country,
(vi) the Bsafe program won the national Australian Crime and Violence Prevention Award in 2010,
(vii) the Bsafe program was extremely cost effective, costing approximately $1,000 for the two safety alarms, and provided enormous benefits in reducing the risk and breaking the cycle of domestic violence, giving assurance to vulnerable women and children and allowing them to return to participating fully in society, as detailed in the Bsafe program evaluation report,
(viii) in Victoria the community sector is ready and eager to expand this potentially life-saving resource to women across the state, and
(ix) one woman who was a recipient of a Bsafe alarm asked ‘How much does my life cost’; and
(b) calls on the Government to:
(i) urgently fund the continuation of the successful pilot Bsafe program in regional Victoria to allow women and children continued access to the service, and
(ii) fund the extension of the Bsafe program to other regions in Victoria and into other states.
No. 89—10 May 2012

Notice given 22 March 2012

743 Senators Di Natale and Rhiannon: To move—That the Senate—

(a) notes that:

(i) on 1 November 2010, $120.5 million was made available through Medicare for eligible midwives to work in private practice, and

(ii) this funding has not been effectively implemented, with only one midwifery group practice able to claim all funding available, 17 months after its implementation; and

(b) calls on the Minister for Health (Ms Plibersek) to:

(i) work, as a matter of priority and within a defined timeframe, with the Council of Australian Governments and Australian health ministers to agree on a nationwide approach, that will allow Medicare eligible privately practicing midwives to gain access to public hospitals and the Medicare funding available,

(ii) ensure women are able to continue to access care for birth at home from registered private practice midwives after 1 July 2013 by ensuring an insurance product is made available to private practice midwives for birth at home, and

(iii) make Commonwealth funding available for mentoring programs so that midwives receive support as they transition into private practice and access funds available under Medicare.

(a) notes that:

(i) on 5 May 2012, the President of the Bahrain Center for Human Rights and the Director of the Gulf Center for Human Rights, Mr Nabeel Rajab, was arrested on arrival at Manama airport from Lebanon, and

(ii) Mr Rajab has been charged with ‘cyber incitement’ essentially for promoting the culture of human rights through the online media, especially Facebook and Twitter; and

(b) calls on the Government to make direct representations to Bahraini authorities for the immediate release of Mr Rajab and for democratic reforms in Bahrain.
Senator Ryan: To move—That the Senate—
(a) commends:

(b) calls on the Federal Government to commit to taking the findings of any such report seriously.

Senators Wright and Di Natale: To move—That the Senate—
(a) notes that:
   (i) 14 May to 20 May 2012 is Schizophrenia Awareness Week, and
   (ii) people with severe mental illness can, on average, die up to 25 years earlier than the rest of the community and are at a higher risk of experiencing physical illness;
(b) recognises that:
   (i) diabetes occurs in approximately 15 per cent of people with schizophrenia, a rate three times higher than in the general population, and
   (ii) after 5 years, 28 per cent of people with respiratory disease or chronic obstructive pulmonary disorder who also have schizophrenia have died, compared with 15 per cent of people with no serious mental health problems; and
(c) calls on the Government to show leadership in making the physical health issues of people with mental illness a national health priority.

Leader of the Opposition in the Senate (Senator Abetz): To move—That the Senate—
(a) notes that:
   (i) Fair Work Australia’s investigation into the Health Services Union and the Member for Dobell (Mr Thomson) has taken an unreasonably long time,
   (ii) the Member for Dobell expected Fair Work Australia to conduct its investigation within 6 months,
   (iii) Australians have lost faith in Fair Work Australia to conduct itself in a quick and proper manner,
   (iv) under the Fair Work (Registered Organisations) Act 2009, enacted by the then Minister for Education, Employment and Workplace Relations (Ms Gillard), the provisions for accountability and transparency are far less than the standard expected of company directors, and
   (v) the Coalition has a plan for better accountability and transparency for registered organisations; and
(b) calls on the Government to adopt the Coalition’s plan for better accountability and transparency for registered organisations.

Senator Siewert: To move—that the Senate—
(a) notes that:
   (i) stromatolites are the oldest living organisms in the world,
   (ii) Western Australia’s Hamelin Pool contains the most diverse range of stromatolites in the world, is one of only three places on Earth where you can see living marine stromatolites, and these stromatolites are one of the major reasons for Shark Bay’s World Heritage Listing, and
   (iii) the recent decision by the Department of Sustainability, Environment, Water, Population and Communities to allow American researchers to cut down and remove 45 stromatolites from Hamelin Pool, would have a significant impact on the heritage values of the area if carried out; and
(b) calls on the Government to reassess this decision as a matter of urgency and prevent this or any other removal of stromatolites from going ahead.

Senator Back: To move—that the Senate—
(a) notes that:
   (i) the Prime Minister (Ms Gillard) said in the 2010 election campaign that achieving harmonised occupational health and safety laws was her greatest achievement, and
   (ii) harmonisation of occupational health and safety laws has not taken place; and
(b) calls on the Prime Minister to advise the Australian people, in light of this, if the carbon tax is now her greatest achievement.

Senator Fifield: To move—that the Senate notes the 2012-13 Federal Budget does nothing to strengthen the Australian economy in the face of storm clouds on the global horizon, as it:
(a) fails to cut spending;
(b) increases taxes;
(c) lifts the debt ceiling to $300 billion; and
(d) imposes the world’s largest carbon tax.

Chair of the Joint Select Committee on Cyber Safety (Senator Bilyk): To move—that the Joint Select Committee on Cyber Safety be authorised to hold a public meeting during the sitting of the Senate on Wednesday, 20 June 2012, from 4.15 pm to 5.30 pm.

(i) that areas of Tasmanian forest that have been logged have the potential to recover quickly, and
(ii) the rich biodiversity that can exist in areas of Tasmanian forest that have been logged, including waratahs, massive flowering displays, masses of birdlife, devils, quolls and wombats; and
(b) acknowledges that native forest industry based activities and vibrant, biodiverse forests are not mutually exclusive.

Leader of the Australian Greens (Senator Milne): To move—That the Senate—
(a) notes:
(i) the Tripa forest in Sumatra, an area covered by a 2-year moratorium on new forest-clearing concessions, is being burnt by deliberately lit fires and cleared in order to make way for palm oil concessions,
(ii) the forest is home to people and wildlife and stores massive quantities of carbon, and is also home to the largest concentration of Sumatran orang-utans,
(iii) that leading experts believe the loss of the Tripa forest could lead to the local extinction of Sumatran orang-utans by the end of 2012, and international primate experts such as Ms Jane Goodall and Mr Richard Leakey have called for the protection of the Tripa forest,
(iv) that humanitarian and conservation organisations working within the region have reported that villagers are suffering from health problems associated with the burning and have been subjected to intimidation from both palm oil companies and Indonesian police,
(v) the chair of President Yudhoyono’s task force on forests and carbon has expressed concern that “opening up Tripa – an area with high conservation value and home to many animals endemic to Indonesia – is a grave mistake”,
(vi) while the Indonesian Government has launched a police investigation into the criminal activity in the area, palm oil companies continue to illegally clear protected forest, a process that has destroyed countless livelihoods,
Australia is a significant consumer of palm oil from South East Asia, particularly Indonesia, as Australia imports 130,000 tonnes of palm oil each year,

the Tripa forest crisis has received major international news coverage in publications such as *Time Magazine*, *Voice of America*, the Guardian, the Australian, the *Sydney Morning Herald*, and the *Independent,* and

many conservation groups in Indonesia regard Tripa as a test case that will determine the future of the $1 billion agreement on carbon and forests between Norway and Indonesia;

welcomes the Indonesian Government’s investigations of law-breaking in Tripa forest in early May 2012; and

calls on the Australian Government to request the Indonesian Government to fully enforce the law that protects this important region and cease all clearing in the Tripa forest.

Notice given 19 September 2011

438 Senator Siewert: To move—that the Senate—

(a) notes that:

(i) trawling in the northeast area of the North West Slope Trawl Fishery, in depths of less than 200 metres off the Western Australian Kimberley coast was accidentally made possible due to an administrative error when the Western Australian and Federal Governments amended the Offshore Constitutional Settlement Agreement in 1998,

(ii) this error accidentally allows bottom trawling in areas shallower than 200 metres despite the fact that this is a critical habitat for goldband snapper and other demersal fish species which have been off-limits to North West Slope Trawl Fishery trawlers as they are a deep water crustacean prawn fishery,
the ecological sensitivity of this area has been acknowledged in the Australian Fisheries Management Authority’s correspondence with permit holders,

(iv) legislative instruments have been introduced prohibiting trawl fishing in this northeast area, but the most recent instrument expired in December 2010,

(v) since that time, the closure has been maintained informally by industry self-regulation,

(vi) negotiations between the Federal and Western Australian Governments which were intended to fix this error have stalled and the trawling industry has stated that they will commence bottom trawling in this area on the imminent cessation of the closure which is 30 September 2011,

(vii) a resumption of trawling in this area would adversely impact the benthos and demersal fish stocks of this region, thus putting the entire ESD [ecologically sustainable development] certified Northern Demersal Scalefish Managed Fishery at great sustainable risk, and

(viii) the Western Australian Department of Fisheries has stated in its latest State of the fisheries and aquatic resources report that the demersal scalefish resources in this area are fully exploited; and

(b) calls on the Federal Government to reinstate the North West Slope Fishery Direction No. 02 Area Closure legislative instrument which excludes trawl fishing in the northeast area of the North West Slope Trawl Fishery in Western Australia.

Notice given 20 September 2011

Senator Ludlam: To ask the Minister representing the Treasurer—With reference to the Select Committee on Housing Affordability in Australia report, A good house is hard to find: Housing affordability in Australia, dated June 2008:

(1) Of the 33 recommendations, of which at least eight directly relate to the department, how many have been implemented to date.
Can an update on any action be provided, including progress and outcomes made on all recommendations relating to the department, since the report was released.

Senator Ludlam: To ask the Minister representing the Treasurer—With reference to Australia’s Future Tax System report, has the department ever conducted any modelling or analysis on:

(a) the number of recommendations it contained relating to the taxation treatment of housing, and specifically, of Recommendation 14 (p. 70) to ‘Provide a 40 per cent savings income discount to individuals for non-business related:

(1) How many:
   (a) new customers will be impacted directly by the FoFA reforms (e.g. need to make a decision on payment of advice, need to complete forms etc);

(2) (a) What is the current state of competition in the financial advice industry— is the industry in a high, moderate or low competitive state; and (b) will the FoFA reforms erect additional barriers to entry for new financial planning businesses and superannuation funds.

(10) How many customers will complete an opt-in form and thereby agree to maintain their advisor relationship.

(11) (a) Does the department agree with the Financial Ombudsman Service (FOS) submission that the opt-in system will result in some consumers unwittingly losing their financial advice facility (e.g. mail lost, not opened, deadline date ignored, or simple consumer inertia), and therefore losing access to the FOS in the event of financial loss which they believe has been occasioned by bad advice; and (b) what will be the likely magnitude of this problem and what measures are needed to ensure that such losses are not systemic.

(12) Assuming that the FoFA reforms gain passage during the Autumn sittings of Parliament: (a) what will be the time period for funds and advisers to build systems to comply with the FOS requirements; and (b) how does this preparation time compare to the time which applied to the introduction of the Corporate Law Economic Reform Program (CLERP) 4, CLERP 6, anti-money laundering reforms/Financial Action Task Force, and the financial services reforms.

(13) (a) What additional costs to the industry will be caused by not aligning the MySuper changes with the FoFA reforms; and (b) what will be the impact on customers and funds of this mutually exclusive approach to reform applying to the same industry.

Senator Waters: To ask the Minister representing the Minister for Sustainability, Environment, Water, Population and Communities—With reference to the ‘State Party Report on the state of conservation of the Great Barrier Reef World Heritage Area (Australia)’:

(1) Given that the Australian Government’s report, presented to the World Heritage Committee on 1 February 2012, stated that Queensland’s State Coastal Plan ‘prevents new development footprints in coastal areas of high ecological significance’ (p. iv), can details be provided outlining exactly how the State Coastal Plan achieves this.

(2) Is the department’s definition of ‘prevent’ different from the commonly accepted understanding, that prevent means stopping something from happening.

(3) What is meant by ‘new development footprints’.

(4) In coastal areas of high ecological significance, how does the Queensland State Coastal Plan prevent:
   (a) residential or tourism developments;
   (b) port developments; and
   (c) industrial and infrastructure developments.

(5) Is it more accurate to state that the Queensland State Coastal Plan does not prevent any development, but rather that the plan needs merely to be considered by an assessment manager (usually the local council) when applications for particular types of development are under assessment.

(6) Given that the report states that the Queensland Government’s Wetlands State Planning Policy protects high value wetlands, can details be provided outlining exactly how this policy delivers genuine protection of high value wetlands from the impacts of residential, commercial, industrial, port and infrastructure developments.

(7) Can a list be provided detailing which wetlands in Queensland are not of ‘high value’ and therefore are not afforded protection by the Wetlands State Planning Policy.

(8) Does the Wetlands State Planning Policy have to be complied with by decision-makers; do decisions have to be consistent with the policy or does the policy only have to be considered by decision-makers.

(4) When will the remaining 86 F-35 JSF be purchased (as referenced in the Defence White Paper 2009, p. 78, paragraph 9.60, ‘The Government has decided that it will acquire around 100 F-35 JSF, along with supporting systems and weapons. The first stage of this acquisition will acquire three operational squadrons comprising not fewer than 72 aircraft’).

(5) With reference to the acquisition of the remaining 86 F-35 JSF aircraft: (a) what is the expected expenditure on the acquisition; (b) what will be supplied as equipment, supporting systems, weapons, services or infrastructure to the ADF; (c) when will the aircraft be delivered; (d) when will they become fully operational; (e) where will the JSF squadrons be based, and when; and (e) what is the estimated through-life support and operating costs over an expected 30 year period of operation.

(6) What savings would be made by cancelling the purchase of 24 F-35 JSF aircraft and purchasing 24 Super Hornets.

1623 **Senator Johnston:** To ask the Minister representing the Minister for Defence—With reference to the Government commissioned report, 2008 Audit of the Defence Budget which identified that ‘a real growth rate of 3.5% in capital expenditure on SME [Specialised Military Equipment] [is required] just to replace today’s equipment. To deliver the capabilities proposed in the recommended Force Structure Option requires a growth rate of 4.2%’: As at 31 December 2011, what will be the amount required to fund, in nominal dollars, the major capital equipment program each year from 2010-11 to 2029-30, so as to fund the White Paper ‘Force 2030’ initiatives.

(7) (a) What programs in 2011-12 will now have to be resourced through absorbed costs; and (b) what programs have been cancelled or deferred to enable these costs to be absorbed.

(8) Of the $20.6 billion worth of savings under the Strategic Reform Program (SRP) it would appear that $4.6 billion of this involves the re-allocation of funds and is not a savings item at all—how can this claim of savings be made when it is in fact a reallocation of funds.

(9) Under the SRP: (a) why has the number of civilian employees to be cut been reduced from the forecast 3 125; and (b) what is the new figure.

Orders for production of documents

19 Taxation—Henry Tax Review—Superannuation—Order for production of documents
That the Senate—
(a) notes that:
(i) the Henry Tax Review made a number of recommendations in relation to superannuation,
(ii) those recommendations were not adopted by either the Rudd or Gillard Governments which pursued proposals criticised in the context of the Henry Tax Review,
(iii) the Government so far has not released any of the Treasury modelling or other relevant information and advice about the impact of those Henry Tax Review recommendations, and
(iv) release of that information is in the public interest to enable a fully informed community discussion about the best way forward for superannuation;
(b) calls on the Government to honour its stated commitment to openness and transparency and release all the information it holds about the Henry Tax Review recommendations on superannuation forthwith; and

(c) orders that there be laid on the table by noon on Thursday, 30 September 2010:

(i) any modelling, assessments or advice generated on superannuation-related issues for the purposes of the Henry Tax Review before it finalised its report and recommendations,

(ii) any Treasury modelling, assessments and advice to the Government about the impact of the Henry Tax Review’s recommendations on superannuation, and

(iii) any other information held by the Government about the superannuation-related recommendations in the Henry Tax Review.

(Motion of Senator Cormann agreed to 29 September 2010; document tabled 30 September 2010.)

20 Taxation—Mining tax—Revenue estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government continues to hide key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,

(ii) since the last sitting of the Senate, the Select Committee on Fuel and Energy repeatedly sought information from the Government about changes it made to those assumptions between the 2010-11 Budget and the announcement of the new proposed mining tax arrangements on 2 July 2010,

(iii) the committee specifically sought information about changes to commodity price, production volume, exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,

(iv) the information sought by the committee is published by the Western Australian State Government in its budget papers as a matter of course,

(v) the Government did not allow the Secretary of the Department of the Treasury (Dr Henry) to provide that information even when he appeared before the committee for a second time on 13 July 2010,

(vi) the Prime Minister (Ms Gillard) to this day has not responded to Senator Cormann’s letter, dated 12 July 2010, asking for this information to be released,

(vii) the Treasurer (Mr Swan) has since conceded that:

(A) under the revised assumptions, the original Resource Super Profits Tax (RSPT) proposal would have raised approximately $24 billion over the forward estimates rather than the $12 billion revenue estimate contained in the Budget,

(B) a massive $6 billion out of the $10.5 billion revised mining tax revenue estimate was based on changes to government assumptions, and
(c) under the original assumptions, the Minerals Resource Rent Tax (MRRT) or expanded Petroleum Resource Rent Tax (PRRT) would only have raised $4 billion over the forward estimates, and

(viii) the release of all relevant government assumptions is necessary to enable proper scrutiny of the Government’s mining tax proposal and that, as such, release of that information is in the public interest;

(b) calls on the Government to honour its stated commitment to openness and transparency and release all the information it holds about mining tax revenue estimates forthwith; and

(c) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010 all the Government’s assumptions used to estimate:

(i) the revenue from the RSPT as contained in the 2010-11 Budget, including but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and

(ii) the revenue from and overall fiscal impact of the MRRT/expanded PRRT arrangement announced on 2 July 2010, including all changes to assumptions used for the 2010-11 Budget.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

21 Taxation—Mining tax—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government conducted negotiations about its revised mining tax with BHP Billiton, Rio Tinto and Xstrata in secret before entering into an agreement about this new mining tax proposal with those three companies only,

(ii) approximately 99 per cent of the mining industry was excluded from those secret mining tax negotiations, and

(iii) in its haste to reach a new deal quickly, the Government gave those three companies an unfair competitive advantage, including by:

(A) allowing them to directly influence the ultimate design of the new tax while excluding their competitors,

(B) using data provided by those three companies on commodity prices, production volumes and other key assumptions, and

(C) giving them preferential access to inside information about Government assumptions and thought processes around the new tax;

(b) considers that:

(i) information made available by the Government to those three companies should be made available to everyone,

(ii) any data provided by those three companies for use in any Treasury modelling of the revised mining tax proposals should be publicly released, and

(iii) all parts of any agreement between the Government and those three companies about the revised mining tax arrangements, including any schedules and other attachments, should be publicly available; and
orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:

(i) any information held by the Government related to the negotiations and agreement about the new mining tax proposal announced on 2 July 2010, including but not limited to, briefing notes, e-mails, data provided to the Government by BHP Billiton, Rio Tinto and Xstrata and any other information generated in the context of the negotiations about the new mining tax proposal, and

(ii) a copy of the signed heads-of-agreement on the new mining tax proposal between the Government and BHP Billiton, Rio Tinto and Xstrata.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

22 Taxation—Mining tax—Government estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the executive director of the Revenue Group in the Department of the Treasury (Mr David Parker) told the Select Committee on Fuel and Energy on 5 July 2010 that the department:

(A) had assessed where the $10.5 billion estimated revenue from the revised mining tax was expected to come from ‘by commodity’, and

(B) had not assessed where that revenue would come from on a state-by-state basis, but that ‘it would not be a difficult piece of analysis to do’,

(ii) despite repeated requests since, the Government has refused to provide that information,

(iii) this information is required to properly assess and scrutinise the impact of the proposed mining tax on the economy, jobs and on individual states and territories and individual sectors of the resources industry,

(iv) furthermore, the Rudd and Gillard Governments made a commitment that funding from the mining tax related ‘infrastructure fund’ would be allocated to individual states and territories based on the level of mining tax revenue raised in those jurisdictions, and

(v) as such, information about where the revenue is expected to come from on a state-by-state and territory basis is necessary to properly scrutinise whether, and ensure that, individual jurisdictions would receive a fair share of funding from that fund; and

(b) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:

(i) government estimates of where the $12 billion in revenue from the Resource Super Profits Tax was expected to come from by commodity and by state and territory, and
government estimates of where the $10.5 billion in revenue from the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax is expected to come from by commodity and by state and territory.

That the Senate—

(a) notes that:

(i) the Government has refused to provide information requested by the Senate about key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,

(ii) specifically, the Government has refused to provide information about changes to commodity price, production volume and exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,

(iii) in its response to the relevant order of the Senate, the Government justified its refusal to provide the information on the basis that, 'commodity price forecasts underpinning the terms of trade forecasts are based in part on information provided by companies that is commercial in confidence. Disclosure of these individual commodity price forecasts may therefore prejudice negotiations between private companies',

(iv) the information sought by the Senate is published by the Western Australian State Government in its budget papers as a matter of course, and

(v) information published by the Western Australian Government includes its commodity price assumptions developed after relevant information about commodity price expectations is obtained from relevant mining companies, which includes at least some of the companies involved in the mining tax negotiations with the Federal Government;

(b) based on the Government’s response does not accept that there are any legitimate public interest grounds for the Government to refuse to provide the requested information;

(c) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(i) all the Government assumptions used to estimate the revenue from the Resource Super Profits Tax as contained in the 2010-11 budget, including, but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and

That the Senate—

(a) notes that:

(i) the Government has refused to provide any of the information requested by the Senate about its negotiations with BHP Billiton, Rio Tinto and Xstrata on the revised mining tax proposal,

(ii) in relation to some of the information only, the Government justified its refusal in its response to the relevant Senate order on the basis that, ‘Data and other material provided to the Treasury as part of negotiations around the MRRT are considered to be commercial in confidence’,

(iii) no justification was provided by the Government as to why release of any of the other information was not in the public interest, and

(iv) specifically, no reason was provided by the Government as to why the release of the signed heads-of-agreement between the Government and BHP Billiton, Rio Tinto and Xstrata would not be in the public interest;

(b) considers release of all the information requested on the negotiations between the Government and BHP Billiton, Rio Tinto and Xstrata about the revised mining tax proposal to be in the public interest;

(ii) in what appears to be a consolidated response to three separate orders of the Senate for the production of documents the Government did not provide any of the information requested in the relevant order, nor did the Government provide any explanation as to why release of this information would not be in the public interest;

(b) orders that there be laid on the table by noon on Thursday, 28 October 2010:

26 Superannuation—Productivity Commission report—Order for production of document

That the Senate—
(a) notes that:
   (i) the current process to select default superannuation funds under modern awards is not transparent, not objective or evidence based, not competitive and not subject to systematic review,
   (ii) the top ten most commonly listed default funds under modern awards are all union based industry super funds, with these ten funds listed as default super funds in modern awards 330 times,
   (iii) the Cooper Review into superannuation also confirmed that current default superannuation fund arrangements undermined competition as new employees typically become a member of a default fund, and
   (iv) a competitive, transparent and efficient superannuation industry is critically important to maximise value for all superannuants;
(b) endorses the Labor Party’s commitment before the 2010 election to instruct the Productivity Commission to design a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds; and
(c) orders that there be laid on the table, no later than 31 May 2011, a report by the Productivity Commission on the design of a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds, with the requirements that:
   (i) the process is to be based on objective criteria and evidence and be subject to systematic review, so that the selection and ongoing review of eligible default funds is transparent and competitive,
   (ii) the process is to help maximise employees’ retirement incomes by ensuring that only those superannuation funds that deliver – and continue to deliver – the best results to their members are able to be included as default fund options in modern awards and enterprise agreements, and
   (iii) in designing the process the Productivity Commission make reference to the existing sophisticated system of superannuation fund ratings which has evolved over the past 20 years and is already used widely by employees, employers and financial planners in making decisions on fund selection.

That the Senate:

(a) notes that:

(i) the Government has refused to provide the information requested by the Senate in relation to advice to Government about the requirement for unanimous agreement from all parties to change the GST arrangements,

(iii) that the Chairman of the Murray-Darling Basin Authority, Mr Mike Taylor, responded by stating that this advice disagrees with previous advice the Authority had received stating, ‘... clearly the advice we’d had to date had indicated that we were obliged to meet the requirements of adhering to international agreement, and ensuring that we met the environmental flows required to maintain and restore key environmental assets and key ecosystems, and that it was not subject to social and economic impacts’, and

(ii) that in a letter to the Clerk of the Senate the Chairman of the Productivity Commission expressed the view that in his understanding ‘such a report would need to be commissioned by the Assistant Treasurer’,

(iii) that like the Australian Information Commissioner, the Chairman of the Productivity Commission appears to have confused a legitimate order of a House of the Australian Parliament for the production of a document, with a request to perform a specific function under his enabling statute, and

(b) advises the Productivity Commissioner as follows:

(ii) this power may be modified only by express statutory declaration, as required by section 49 of the Constitution,

(iii) nothing in the *Productivity Commission Act 1998* is expressed as a declaration for the purpose of section 49 that would have the effect of limiting the exercise of the power by the Houses of the Commonwealth Parliament in respect of the Productivity Commission,

(iv) multiple resolutions of the Senate affirm the principle that information may be withheld from it only following consideration by the Senate of a properly founded claim of public interest immunity, and
(v) the Senate has on numerous occasions exercised its power to require statutory agencies and officers to produce information in response to orders; and

(c) again orders the Productivity Commission to provide the report requested by the Senate consistent with its order agreed to on 16 November 2010.

45 **Meeting of Parliament—‘Welcome to Country’ ceremony**

That the Senate is of the view that the declaration of the opening of Parliament should be preceded by an Indigenous ‘Welcome to Country’ ceremony.

*(Agreed to 23 June 2010.)*

**Question time**

46 **Modified rules for question time—Temporary order**

That the following modified rules for question time continue to operate as a temporary order, in conjunction with standing orders 72 and 73, until 30 June 2012:

47 Appropriations—Ordinary annual services of the Government

That, in accordance with the recommendation made in the 50th Report of the Appropriations and Staffing Committee, the Senate resolves:

(1) To reaffirm its constitutional right to amend proposed laws appropriating revenue or moneys for expenditure on all matters not involving the ordinary annual services of the Government.

(2) That appropriations for expenditure on:
   (a) the construction of public works and buildings;
   (b) the acquisition of sites and buildings;
   (c) items of plant and equipment which are clearly definable as capital expenditure (but not including the acquisition of computers or the fitting out of buildings);
   (d) grants to the states under section 96 of the Constitution;
   (e) new policies not previously authorised by special legislation;
   (f) items regarded as equity injections and loans; and
   (g) existing asset replacement (which is to be regarded as depreciation),

are not appropriations for the ordinary annual services of the Government and that proposed laws for the appropriation of revenue or moneys for expenditure on the said matters shall be presented to the Senate in a separate appropriation bill subject to amendment by the Senate.

(3) That, in respect of payments to international organisations:
   (a) the initial payment in effect represents a new policy decision and therefore should be in Appropriation Bill (No. 2); and
   (b) subsequent payments represent a continuing government activity of supporting the international organisation and therefore represent an ordinary annual service and should be in Appropriation Bill (No. 1).

(4) That all appropriation items for continuing activities for which appropriations have been made in the past be regarded as part of ordinary annual services.

GUIDE TO THE NOTICE PAPER

A Notice Paper is issued each sitting day containing details of current business before the Senate. It works in conjunction with the Senate Order of Business (otherwise known as the Red) which sets out the daily routine of business to be followed as per standing order 57.

Standing orders are the rules or procedures set down by the Senate to govern the Senate and its committees. The current version of The Senate: Standing Orders and other orders of the Senate is available on the Senate website at www.aph.gov.au/About_Parliament/Senate/Powers_practice_n_procedures/standingorders

The publication of the Notice Paper is authorised by standing order 43(2).

Placement of business on the Notice Paper

The way business is placed on the Notice Paper is set down according to standing orders and is listed under one of the following four categories:

Matters of privilege which take precedence over all other business and are listed at the beginning of the Notice Paper when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

Business of the Senate which has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

Government business which is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

General business which is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above. (See below for a breakdown of this section.)

Within each of the above categories you may find notices of motions and/or orders of the day:

Notices of motion are statements indicating that senators intend to move particular motions on the days indicated. They are entered on the Notice Paper in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

Orders of the day are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters, including legislation, or requirements to present committee reports.

On days other than Thursdays, the Notice Paper records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, to take account of General Business at 4.30 pm, a full listing of business relating to the consideration of government documents, committee reports and government responses to committee reports and Auditor-General’s reports is also published.
Sections of the Notice Paper

Other than the sections: Matters of Privilege, Business of the Senate and Government Business, the Notice Paper, may also contain the following:

Orders of the Day relating to Committee Reports and Government Responses and Auditor-General’s Reports
Adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day’s Notice Paper. The section is printed in full on Thursdays.

This section can be found residing between Government Business and General Business on the Notice Paper.

General Business

Orders of the Day—Adjourned debates on motions initiated by private senators to take note of business other than a government document or a private senator’s bill as these have their own sections.

Orders of the day relating to Government Documents—Adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day’s Notice Paper. The section is printed in full on Thursdays.

Orders of the day relating to Private Senators’ Bills—Adjourned debates on motions to consider bills introduced by senators in a personal capacity. New items appear in the following day’s Notice Paper.

They can also be listed for consideration for up to 2 hours and 20 minutes on Thursday mornings (temporary order agreed to on 2 November 2010 upon adoption of recommendation in the Procedure Committee’s 4th report of 2010).

Business for Future Consideration
Lists any notice of motion or order of the day to be considered on a specific day in the future, for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Business, is listed under the date it is to dealt with in the chamber, starting with the next day of sitting. Any business to which a date cannot be allocated, for example, the tabling date may be a result of some other event occurring, will be placed at the end of the section.

Bills Referred to Committees
Lists all bills or provisions of bills currently being considered by Senate or joint committees, including details of: who referred, to which committee, when referred, variations to the reporting date, any interim reports presented and final reporting date.

Orders of the Senate

This section can include resolutions such as: new or amendments of standing orders which have not yet appeared in a current reprint, temporary orders of the Senate, the authorisation of committees to meet during the sitting of the Senate, and orders for production of documents.
