Business of the Senate—Notice of Motion

Notice given 21 June 2012

1 Leader of the Australian Greens (Senator Milne): To move—That the following matter be referred to the Economics References Committee for inquiry and report by 23 August 2012:

The causes of electricity bill increases and options to moderate future increases, with particular reference to:

(a) identification of the key causes of electricity price increases over recent years and in future projections;
(b) whether the current electricity market objectives, and governance and regulation structures have been and will continue to be effective at moderating costs and serving their intended purposes;
(c) the accuracy of past electricity demand projections, the impact of declining wholesale electricity prices and the role of energy efficiency;
(d) barriers to reform created by the National Electricity Market institutions, including state-based regulators, the Australian Energy Market Operator, the Australian Energy Market Commission and the Australian Energy Regulator (AER), and whether the reach of the AER is unnecessarily restricted;
(e) the difference in cost drivers between private and government-owned transmission and distribution businesses and the significant decline in the productivity of these businesses;
(f) the impact of state and federal government measures to reduce greenhouse gas emissions and support renewable energy and energy efficiency in light of market externalities, broader social and economic benefits and whether market objectives should be reconsidered in light of these benefits;
(g) whether or not network reliability standards are unnecessarily high, and whether there are benefits of moving to a more sophisticated probabilistic approach to reliability standards, including more appropriate metrics of value of unserved energy and value of customer reliability;
(h) the effects of the imposition of obligations on electricity distributors for minimum targeted levels of ‘demand management’ and consumer energy efficiency schemes;
(i) the benefits of decoupling the profits of electricity distributors from the volume of energy supplied;
(j) the materiality of ‘merit order’ based price reductions in the wholesale energy market from increasing levels of distributed generation;
(k) regulatory and other barriers relating to the connection processes for embedded generators;
(l) the potential to shift from an energy-only market to markets in both energy and capacity, to restrain price volatility, ensure resource adequacy, and foster the development of a broad, competitive mix of generation and demand-side resources;
(m) the potential for increased funding of, and capacity for, consumer advocacy to reduce bills through countering the lobbying of market participants and networks;
(n) the need for a government agency to coordinate and promote energy savings, demand management and distributed generation;
(o) barriers to reform of the energy markets and systems in Western Australia and the Northern Territory; and
(p) any related matters.

Senator Siewert: To move—That the Senate—

(a) notes that:

(i) trawling in the northeast area of the North West Slope Trawl Fishery, in depths of less than 200 metres off the Western Australian Kimberley coast was accidentally made possible due to an administrative error when the Western Australian and Federal Governments amended the Offshore Constitutional Settlement Agreement in 1998,

(ii) this error accidentally allows bottom trawling in areas shallower than 200 metres despite the fact that this is a critical habitat for goldband snapper and other demersal fish species which have been off-limits to North West Slope Trawl Fishery trawlers as they are a deep water crustacean prawn fishery,

(iii) the ecological sensitivity of this area has been acknowledged in the Australian Fisheries Management Authority’s correspondence with permit holders,

(iv) legislative instruments have been introduced prohibiting trawl fishing in this northeast area, but the most recent instrument expired in December 2010,

(v) since that time, the closure has been maintained informally by industry self-regulation,

(vi) negotiations between the Federal and Western Australian Governments which were intended to fix this error have stalled and the trawling industry has stated that they will commence bottom trawling in this area on the imminent cessation of the closure which is 30 September 2011,

(vii) a resumption of trawling in this area would adversely impact the benthos and demersal fish stocks of this region, thus putting the entire ESD [ecologically sustainable development] certified Northern Demersal Scalefish Managed Fishery at great sustainable risk, and

(viii) the Western Australian Department of Fisheries has stated in its latest State of the fisheries and aquatic resources report that the demersal scalefish resources in this area are fully exploited; and

(b) calls on the Federal Government to reinstate the North West Slope Fishery Direction No. 02 Area Closure legislative instrument which excludes trawl fishing in the northeast area of the North West Slope Trawl Fishery in Western Australia.

Senator Siewert: To move—That the following bill be introduced: A Bill for an Act to amend the Fisheries Management Act 1991, and for related purposes.

General Business—Notice of Motion

Notice given 9 May 2012

Leader of the Australian Greens (Senator Milne): To move—That the Senate—

(a) notes:

(i) the Tripa forest in Sumatra, an area covered by a 2-year moratorium on new forest-clearing concessions, is being burnt by deliberately lit fires and cleared in order to make way for palm oil concessions,

(ii) the forest is home to people and wildlife and stores massive quantities of carbon, and is also home to the largest concentration of Sumatran orang-utans,

(iii) that leading experts believe the loss of the Tripa forest could lead to the local extinction of Sumatran orang-utans by the end of 2012, and international primate experts such as Ms Jane Goodall and Mr Richard Leakey have called for the protection of the Tripa forest,

(iv) that humanitarian and conservation organisations working within the region have reported that villagers are suffering from health problems associated with the burning and have been subjected to intimidation from both palm oil companies and Indonesian police,

(v) the chair of President Yudhoyono’s task force on forests and carbon has expressed concern that ‘opening up Tripa – an area with high conservation value and home to many animals endemic to Indonesia – is a grave mistake’,

(vi) while the Indonesian Government has launched a police investigation into the criminal activity in the area, palm oil companies continue to illegally clear protected forest, a process that has destroyed countless livelihoods,

(vii) Australia is a significant consumer of palm oil from South East Asia, particularly Indonesia, as Australia imports 130 000 tonnes of palm oil each year,

(viii) the Tripa forest crisis has received major international news coverage in publications such as Time Magazine, Voice of America, the Guardian, the Australian, the Sydney Morning Herald, and the Independent, and

(ix) many conservation groups in Indonesia regard Tripa as a test case that will determine the future of the $1 billion agreement on carbon and forests between Norway and Indonesia;

(b) welcomes the Indonesian Government’s investigations of law-breaking in Tripa forest in early May 2012; and

(c) calls on the Australian Government to request the Indonesian Government to fully enforce the law that protects this important region and cease all clearing in the Tripa forest.

Commonwealth Heads of Government Meeting in October 2011 have not been implicated in war crimes.

(2) Have any of the members of the delegation travelling with President Mahinda Rajapakse sought certificates from the Australian Government confirming immunity from any possible legal proceedings in Australia.

Notice given 31 October 2011

1316 Senator Milne: To ask the Minister representing the Treasurer—In regard to the statutory capped effective life for various categories of oil and gas assets established in section 40-102(5) of the Income Tax Assessment Act 1997:

(1) How much foregone revenue does the department estimate the Commonwealth has and will incur: (a) since the introduction of these tax breaks in 2002; and (b) over the next decade, given the large investments planned in the oil and gas industry.

(2) Has the department conducted, or is it aware of, any cost-benefit analysis for these tax breaks.

(3) Is the department aware of the analysis by the Australian Conservation Foundation that these tax breaks could cost between $1.6 billion and $2 billion annually by 2018 and does it have any reason to doubt this estimate.

(4) What was the reasoning behind the department advising the Treasurer in 2010 that these tax breaks are arguably inefficient and distortionary.

(5) Will the existence of these tax breaks counteract in part the price signal intended to be created by the carbon tax.

Notice given 10 November 2011

1459 Senator Ludlam: To ask the Minister representing the Treasurer—With reference to the Select Committee on Housing Affordability in Australia report, A good house is hard to find: Housing affordability in Australia, dated June 2008:

if so, can the modelling/analysis be described and provided;

(b) Recommendation 51 (p. 263) which stated ‘Ideally, there would be no role for any stamp duties, including conveyancing stamp duties, in a modern Australian tax system. Recognising the revenue needs of the States, the removal of stamp duty should be achieved through a switch to more efficient taxes, such as those levied on broad consumption or land bases. Increasing land tax at the same time as reducing stamp duty has the additional benefit of some offsetting impacts on asset prices’; if so, can the modelling/analysis be described and provided;

(c) Recommendation 52 (p. 263) relating to the benefits of implementing a broad based land tax; if so, can the modelling/analysis be described and provided;

(d) Recommendations 102 to 104 (p. 610) relating to increasing the maximum rate of Rent Assistance to assist renters to afford an adequate standard of dwelling, to index the rent maximum to movements in national rents, to base eligibility on rent paid, and to extend Rent Assistance equitably to public housing tenants; if so, can the modelling/analysis described and provided;

(e) Recommendation 105 (p. 610) relating to housing payments to tenants with high or special needs who may face discrimination in the private market; if so, can the modelling/analysis be described and provided.

1496 Senator Bushby: To ask the Minister representing the Treasurer—In regard to the Future of Financial Advice (FoFA) package of reforms:

(1) How many:
   (a) new customers will be impacted directly by the FoFA reforms (e.g. need to make a decision on payment of advise, need to complete forms etc);
   (b) existing customers will be impacted directly by the FoFA reforms (e.g. need to make a decision on payment of advice, need to complete forms etc);
   (c) customers will be either directly or indirectly impacted by the FoFA reforms, to what effect, and can a financial benefit analysis be provided of these impacts;
   (d) financial planners will be impacted by the FoFA reforms; and
   (e) financial planning businesses will be impacted by the FoFA reforms.

(2) (a) What is the current state of competition in the financial advice industry—is the industry in a high, moderate or low competitive state; and (b) will the FoFA reforms erect additional barriers to entry for new financial planning businesses and superannuation funds.

(3) Given that media commentary indicates that the FoFA reforms will lead to even greater concentration in the advice industry, has the department discussed this matter with its competition experts; if so, with what results.

(4) (a) What will the impact of the FoFA reforms be on the underlying cost structures of financial planning businesses; and (b) for those businesses that are ASX-listed what will be the impact on their share price.

(5) What is the average hourly cost of financial advice for both in-house super advice and for comprehensive financial advice.

(6) What will be the cost of advice in the 3 years following the FoFA reforms for both in-house and externally provided comprehensive advice.

(7) What will be the impact of the FoFA reforms on the underlying cost structures for financial advice businesses.

(8) What will be the impact on employment in the financial advice sector resulting from the FoFA reforms.

(9) In relation to product providers which allow their customers to pay for advice via deduction from their superannuation fund balances: (a) what will be the cost of building new systems to meet the new regulatory requirements; and (b) how will these cost impositions be funded—will they be: (i) passed on to customers, (ii) amortised via lower returns, or (iii) paid for from shareholder funds from the head entity.
(10) How many customers will complete an opt-in form and thereby agree to
maintain their advisor relationship.

(11) (a) Does the department agree with the Financial Ombudsman Service
(FOS) submission that the opt-in system will result in some consumers
unwittingly losing their financial advice facility (e.g. mail lost, not opened,
deadline date ignored, or simple consumer inertia), and therefore losing
access to the FOS in the event of financial loss which they believe has been
occasioned by bad advice; and (b) what will be the likely magnitude of this
problem and what measures are needed to ensure that such losses are not
systemic.

(12) Assuming that the FoFA reforms gain passage during the Autumn sittings
of Parliament: (a) what will be the time period for funds and advisers to
build systems to comply with the FOS requirements; and (b) how does this
preparation time compare to the time which applied to the introduction of
the Corporate Law Economic Reform Program (CLERP) 4, CLERP 6,
anti-money laundering reforms/Financial Action Task Force, and the
financial services reforms.

(13) (a) What additional costs to the industry will be caused by not
aligning the
MySuper changes with the FoFA reforms; and (b) what will be the impact
on customers and funds of this mutually exclusive approach to reform
applying to the same industry.

Notice given 30 May 2012

Senator Abetz: To ask the Minister for Broadband, Communications and the Digital Economy—With reference to Australia Post and the Lightning Ridge Post Office:

(1) Given that the Post Office licensee has been informed that there will be a number of changes to the license agreement and that one of these changes is to reduce the counter mail delivery:

(a) does Australia Post intend to restrict counter mail deliveries at the Post Office; if so, will the counter mail deliveries be restricted to just 752 mail recipients; if not, what amount of counter mail deliveries will be delivered;
(b) how many people rely on this means of delivery to receive their mail;
(c) is the figure of a minimum of 4 400 recipients correct; if not, why not;
(d) where and how was this figure determined;
(e) when the new counter mail delivery measure has been put in place:
   (i) what will happen to the balance of the deliveries, and (ii) how will Australia Post service those residents in the future;
(f) will the number of Post Office box leases be expanded; and
(g) (i) what process was used to determine which residents would be eligible for this service and which residents would not, and (ii) who made this decision.

(2) Given that the Post Office licensee has been informed that Australia Post intends to restrict delivery to one delivery point per area:
   (a) is it true that there will be a restriction on delivery points for the Lightning Ridge region; if so, what will be the restriction;
   (b) how many delivery points will be cut in this review;
   (c) is it correct that Australia Post will only pay for one delivery point for each area, such as Simms Hill, despite the fact that upwards of 200 people may live in that area and that the remaining 199 people will need to use a Post Office box or have their mail returned to sender;
   (d) what delivery points other than Simms Hill will be affected; and
   (e) who will identify the delivery point to be serviced and who will identify the 199 people that will no longer be serviced and will have to take up the option of delivery to a Post Office box at extra expense.

(3) Does Australia Post have a community service obligation to provide mail services that are reasonably accessible to all Australians wherever they reside; if so, how does Australia Post justify the actions being proposed in Lightning Ridge.

(4) Is Australia Post refusing to accept Lightning Ridge residential addresses as verified, despite the fact that they are valid local addresses, well known by the community.

(5) Is Australia Post also stating that incorrectly addressed Post Office box mail, where the Post Office manager/owner knows that street address, now cannot be redirected and must be returned to sender.

(6) Does Australia Post intend that all mail for a Post Office box holder, not correctly addressed to a Post Office box, be returned to sender; if so:
   (a) (i) is the Post Office currently paid a mail service payment to help manage this mail, and (ii) does Australia Post intend to remove this payment;
   (b) does Australia Post uphold this policy and send its own mail to their clients’ PO box and not to their home address in areas where this policy is stipulated; and
   (c) how will the senders of mail to these recipients know to address the mail to a PO box and not a home address.
(7) Given that the Post Office has been informed of new arrangements for mail sorting:

(a) does Australia Post intend to change the rate of the outward mail processing fee in Lightning Ridge by demanding that all mail for the local community leave the Post Office and be transported to the nearest delivery centre for sorting before being transported back to that Post Office and then have staff from that Post Office unload the mail from the delivery truck that has now been sorted at the local delivery point;

(b) does this mean that the new process for a letter handed over the counter at the Post Office to go to a delivery point just 2 metres from the counter, could take up to 3 days; and

(c) by what measure is this new process more efficient and goes towards providing a more effective mail service.

(8) Does Australia Post intend to remove the telephone subsidy paid to rural licensees; if so:

(a) is this due to the increased cost of rural licensees to contact the network offices, located in major cities, which in the case of Lightning Ridge is now located in Sydney;

(b) if the increased cost is not the reason, why then is the subsidy being removed; and

(c) will Australia Post be breaking its agreement by the removal of this subsidy.

(9) Where the licensee can demonstrate an increase of counter delivery points, do the additional payments for each of those delivery points form part of the agreement made with Australia Post; if not, why not.

the request made; (b) what details were requested; and (c) was a response provided; if so, can details or a copy of that response be provided.

(4) Why has IGIS decided not to investigate any matters raised, despite Mr Wilson providing substantive additional allegations and detailed information concerning inappropriate ASIO interference subsequent to IGIS’s preliminary investigation in 2004.

(5) What did the preliminary investigation conducted by IGIS in 2004 consist of, and in regard to this: (a) was ASIO asked if there was any substance to the complaints raised by Mr Wilson about ASIO abuse and interference; (b) were any of the people named by Mr Wilson contacted or interviewed; and (c) was evidence against Mr Wilson that depended on the provision of intelligence by a foreign intelligence service, such as the United States of America, independently verified and corroborated by ASIO.

(6) Has Mr Wilson ever been, or is he currently, the subject of an ASIO investigation.

(7) Has ASIO ever targeted Mr Wilson’s family, friends, peers, neighbours, lawyers or business associates.

(8) What other Australian agencies are, or have been, involved in investigating and/or the interference with Mr Wilson since 1996, as outlined in his complaints about ASIO and IGIS.

Notice given 5 June 2012

Senator Milne: To ask the Minister representing the Minister for Families, Community Services and Indigenous Affairs—Given that feed-in tariffs from household solar energy systems, paid as cash, are assessed as income for all social security income support payments: how much money does the Government save, broken down by each social security income support payment type, as a result of income derived from cash payments from feed-in tariffs.

Notice given 7 June 2012

Senator Ludlam: To ask the Minister for Tertiary Education, Skills, Science and Research—in regard to isotope production at the Australian Nuclear Science and Technology Organisation’s (ANSTO) Open Pool Australian Lightwater (OPAL) reactor:

(1) Does ANSTO routinely supply all of Australia’s Molybdenum-99 (Mo-99) requirements.

(2) Does ANSTO export Mo-99.

(3) Why has the cost of Mo-99 based generators for Australian patients increased since OPAL was commissioned.

(4) Does ANSTO import Iodine-123 (I-123), Thallium-201 (TI-201) and Gallium-67 (Ga-67); if so, is this because the National Medical Cyclotron was decommissioned in 2009.

(5) Will any of the collaborations entered into by ANSTO be capable of producing I-123, TI-201 and Ga-67.

(6) How much does ANSTO charge for a dose of I-123, used for scanning patients with thyroid cancer, and how much of this is covered by the Medicare rebate.
(7) Does ANSTO’s sale price include a profit margin on the imported price.
(8) Could the cost impost lead to patients having a less effective diagnosis.
(9) Does the OPAL reactor produce Lutetium-177 (Lu-177).
(10) Why is the ANSTO import of Lu-177 more expensive than the international suppliers’ direct charge.
(11) How much does ANSTO charge for Iodine-133 (I-133), used in the treatment of patients with overactive thyroids and the most lethal forms of thyroid cancer.
(12) Is the maximum Medicare rebate for I-133 $417, and the cost of the material to the administering hospital between $688 and $870.
(13) Is there a Medicare rebate for I-133 MIBG, used in the treatment of children with incurable neuroblastoma and some adults with similarly incurable tumours, produced by ANSTO at a cost to the administering hospital of between $4 862 and $7 893.
(14) Can the Minister confirm that patients with metastatic skeletal cancer that is refractory to all other treatments who are treated with Samarium-153 (Sm)Lexidronam produced at ANSTO are charged a minimum of $3 255, with a Medicare rebate of $2 323.

1874 Senator Ludlam: To ask the Minister for Tertiary Education, Skills, Science and Research—in regard to the National Medical Cyclotron (NMC):

(1) Was the cost of $13 million, cited when the NMC was opened in 1991: (a) the cost for the entire facility or for the cyclotron itself; and (b) taxpayer funded; if so, to what extent.
(2) On what basis was the decision made to decommission the NMC.
(3) Was it the manufacturer’s advice to decommission the machine.
(4) What was the manufacturer’s assessment of the operational problems of the NMC.
(5) Is the IBA built ‘Cyclone-30’ still operating in other countries.
(6) Why have other operators obtained longer life cycles from their equipment than the Australian Nuclear Science and Technology Organisation.
(7) What was the cost of decommissioning the NMC.
(8) Is the NMC’s residual value of $2 million, cited during the 2010-11 Senate Budget estimates hearings of the Economics Committee, the book value or the actual sale price.

1875 Senator Ludlam: To ask the Minister for Tertiary Education, Skills, Science and Research—

(1) Did the Australian Nuclear Science and Technology Organisation (ANSTO) cease fluorodeoxyglucose (FDG) production through the National Medical Cyclotron in 2003 and reinstitute supply only in 2010 by Positron Emission Tomography (PET) in conjunction with PETNET Solutions.
(2) Did this withdrawal of ANSTO from the market coincide with the increased clinical demand for FDG under the PET data collection program of the Department of Health and Aging.
(3) Did private companies supply the FDG market in the absence of ANSTO production.

(4) Did patients miss out on best management of their illness due to limited supplies of FDG.

(5) Did ANSTO seek advice from the Department of Health and Aging on the roll-out of Medical Benefits Scheme funding for PET.

(6) Was Professor Andrew Scott on the ANSTO Board when approval for PET was given.

(7) Was Professor Scott closely involved with the Department of Health and Aging with respect to PET funding and data collection initiatives.

(8) Has the failure of ANSTO to understand the FDG market size:
   (a) led to overinvestment in the capacity of the PETNET Solutions facility, including the investment of $17.5 million in public funds, despite little prospect of commercial return; and
   (b) unfairly undermined the business of commercial operators who receive no government funding.

(10) What was the reason for ANSTO increasing its cost base to take on the PETNET Solutions branding.

(11) Given that the PETNET Solutions facility was designed to supply more than FDG, what else has it supplied to date.

1876 Senator Ludlam: To ask the Minister for Tertiary Education, Skills, Science and Research—in regard to exploratory partnership discussions between the Australian Nuclear Science and Technology Organisation (ANSTO) and various entities:

(1) On what occasions have discussions taken place between ANSTO and the Peter MacCallum Cancer Centre, regarding the establishment of an ANSTO-sponsored Collaborative Clinical Radiopharmacy Research Facility at the intended Victorian Comprehensive Cancer Centre in Melbourne, and what documentation of the discussions, if any, exists.

(2) Have ANSTO funds been allocated to the proposed partnership with the University of Queensland’s (UQ) Education Investment Fund bid for a Centre for Advanced Imaging (CAI).

(3) Does the proposed CAI also have funding as a node in the National Imaging Facility (NIF).

(4) Is there any risk that the recently announced commercial venture between CAI and Axiom Molecular will infringe on competitive neutrality provisions.

(5) Do the contractual arrangements make it clear that competitive neutrality must be respected in any commercial spin-offs.

(6) What particular expertise did the ANSTO Board identify at CAI that warranted the use of ANSTO funds to support the collaboration.

(7) Has UQ previously owned or had access to a cyclotron.

(8) Who are the lead researchers at CAI in charge of the PET [Positron Emission Tomography] tracer discovery and commercialisation program.
(9) Did the agreement with the Austin Health based Ludwig Institute for Cancer Research, regarding joint competitive research, involve funding from ANSTO; if so: (a) when were the funds provided; (b) does the contract provide for a loan or a grant; and (c) are there any competitive neutrality considerations.

(10) Is the intent of the arrangement to supply Copper-64 (Cu-64), Iodine-124 (I-124), Zirconium-89 (Zr-89), and Yttrium-86 (Y-86) for research and clinical development, and what has been supplied to date.

(11) Did collaboration with the Sir Charles Gairdner Hospital (SCGH) in Western Australia for cyclotron targetry involve ANSTO funding; if so, how much and under what provisions.

(12) Given that the Minister has noted that the arrangement would involve Cu-64, Zr-89 and radionuclide development research, how many doses have been dispatched for research or clinical use to date.

(13) Is there a reason why SCGH and the Ludwig Institute are both working on Cu-64 and Zr-89, when isotope half-lives allow for distribution throughout Australia.

(14) Is ANSTO aware that: (a) Cyclopharm in Sydney has had the capacity to produce Cu-64 for several years; and (b) the Peter MacCallum Cancer Centre has been producing Y-86, Cu-64 and I-124 with its research cyclotron.

(15) Were the Cooperative Research Centre for Biomedical Imaging Development (CRC BID) or the Peter MacCallum Cancer Centre consulted by the ANSTO Board before the decision to allocate funds to the Ludwig Institute was made.

(16) Why did the ANSTO Board decide not to pursue the proposal for a CRC BID, ANSTO and Cyclotek co-funded project to make Cu-64, I-124, Zr-89, and Y-86 available using commercial hardware supplied through CRC BID partner GE Healthcare, projected to cost less than $350 000 per contributor.

(17) Did any ANSTO Board member with a potential conflict absent themself in discussions concerning the allocation of funds to the Ludwig Institute; if so, was the act recorded in the minutes.

(2) Given that, for more than 10 years, Switzerland has been operating with an EMR standard that is 1 per cent of the current Australian Radiation Protection and Nuclear Safety Agency standard (proving this to be both technically and economically viable), why is Australia not adopting this precautionary approach in light of the WHO classification of radiofrequency electromagnetic fields as a Group 2B carcinogen.

3. Are there any plans for the ABS to produce multifactor productivity estimates that also include inputs of natural and environmental resources.

Senator Ludlam: To ask the Minister representing the Minister for Resources and Energy—Will the Minister commit to delaying any declaration of Muckaty as the final location for the proposed nuclear waste site under the National Radioactive Waste Management Act 2012 until the matters pertaining to the nomination currently before the Federal Court of Australia are resolved.

   (b) each Australian port from which the shark fin was exported; and
   (c) the destination of the export.

(4) For the years 2008, 2009, 2010 and 2011, does the total quantity, by weight, of shark products exported under each of the above trade codes correspond with reported catches from Commonwealth, state and territory fisheries and reported to the Food and Agriculture Organization of the United Nations (FAO).

(5) Following the TRAFFIC review of South African shark imports and a subsequent letter from TRAFFIC to the former Minister for Agriculture, Fisheries and Forestry, Mr Peter McGauran, in 2007, what measures has the Government taken to improve the quality of shark import and export data.

(6) What action has the Government taken to ensure imports of seafood into Australia are ‘responsible’, through being consistent with all elements of the FAO Technical Guidelines for the Responsible Fish Trade.

(7) Will the Government consider adopting a risk assessment method consistent with that being developed by TRAFFIC for the United Kingdom Joint Nature Conservation Committee as a way of identifying species that are not consistent with responsible fish trade.

(8) Will the Government consider adopting a similar regulation to that adopted by the European Union to limit the access of Illegal, Unreported and Unregulated (IUU) derived fisheries products into the Australian marketplace, by requiring the validation of all exports to Australia by Flag States that the products have been caught legally.

(9) Given that under the Fisheries Management Act 1991 and, in particular, clause 9ZO (Prohibited ways of processing fish) of the Regulations made under section 14 of the Act, the caudal lobe and the dorsal, pectoral or caudal fins of sharks of the class Chondrichthyes may be removed from the carcass before the fish is landed and received by a fish receiver permit holder, a ban that enables species identification on landing and in turn monitoring that catches are within prescribed limits, protected species monitoring and compliance with legal size limits, for the years 2008, 2009, 2010, 2011 and 2012:
   (a) to what extent has the Australian Fisheries Management Authority investigated compliance with this measure;
   (b) how many shark landings (in-port), at sea and fish receiver inspections have been observed;
   (c) how many compliance breaches were recorded and have any offenders been successfully prosecuted;
   (d) if no compliance monitoring has taken place, why not; and
   (e) if illegal shark finning activity has been recorded, what quantity of shark and shark fin, by weight, was apprehended.
For the years 2008, 2009, 2010, 2011 and 2012:

(a) how many foreign fishing vessels have been observed and apprehended fishing in the Australian Fishing Zone;
(b) how many of these vessels were in possession of shark or shark fin;
(c) what was the total quantity, by weight, of shark and shark fin taken illegally by foreign fishing vessels; and
(d) what was the composition (species) of the illegal take of sharks.

Given that the 2007 Australian Institute of Criminology report, *A national study of crime in the Australian fishing industry*, identified evidence of illegal activity in obtaining shark fins and noted the high value of fins as a driver of illegal activity, stating: ‘in the Northern Territory, stakeholders considered that large scale and well-organised shark finning had developed in northern Australia, with family groups and companies involved’:

(a) what measures has the Government taken to address the issue since the publication of the report;
(b) what evidence is there that the measures have been successful; and
(c) if no action has been taken, why not.

Senator Ludlam: To ask the Minister for Foreign Affairs—

(1) Given that, in a speech made to the Association of International Life Offices, Daw Aung San Suu Kyi asked countries to prevent their companies from partnering with the Myanmar Oil and Gas Enterprise due to the lack of transparency and accountability, will the Government take steps to stop Australian companies investing in Burma’s oil and gas industry.

(2) Will the Government apply internationally recognised standards such as the International Monetary Fund’s Code of Good Practices on Fiscal Transparency in its trade with Burma, and require Australian companies to be subject to the code including the publication of accounts.

Senator Abetz: To ask the Minister representing the Minister for Employment and Workplace Relations—Will the Minister intervene in the modern awards review by Fair Work Australia and seek a new award for ‘Green Jobs’ or ‘Green Collar Workers’; if not: (a) why not; and (b) which award will apply to these workers.

(2) Did the Government envisage the spending of funds on jelly beans.
(3) Does the Government consider this an appropriate use of funds acquired in accordance with compulsory student unionism.

Senator Abetz: To ask the Minister representing the Minister for Employment and Workplace Relations—Given that the Minister’s office rewrote the terms of reference for the review of the Fair Work Act 2009, removing references to flexibility and the impact on ‘red tape’, why did the Government: (a) rewrite the terms of reference; and (b) ignore the Department of Finance and Deregulation’s recommendation to include ‘productivity’.

Senator Abetz: To ask the Minister representing the Minister for Employment and Workplace Relations—Does the Government support the findings of Fair Work Australia’s report into the Health Services Union.

Senator Abetz: To ask the Minister representing the Minister for Employment and Workplace Relations—With reference to the Government’s Key Performance Indicator regarding the Fair Work Act 2009 level of industrial action: Does the Minister still consider a doubling in the working days lost over the past year, from 117 500 to 257 600, as ‘steady’.

Senator Abetz: To ask the Minister representing the Minister for Employment and Workplace Relations—With reference to the Incoming Minister brief that was released following a question on notice, which contained a Hot Issue brief on the implementation of Government policy in line with changes to the Labor Party policy platform, what changes to the Fair Work Act 2009 are being pursued by the Government outside the current review process.

Given this comment, what prompted the Minister’s announcement of changes to the *Fair Work (Registered Organisations) Act 2009*. 

Will the Government make any further changes following the KPMG report.

**Senator Abetz:** To ask the Minister representing the Minister for Employment and Workplace Relations—With reference to the statement made during question time on 19 March 2012, that the Minister would ‘draw it [the Fair Work Australia report into the Health Services Union] to the attention of the ATO [Australian Taxation Office]’:

1920 Senator Abetz: To ask the Minister representing the Minister for Employment and Workplace Relations—In regard to Individual Flexibility Agreements (IFAs), does the Minister stand by the former Minister’s comments that the 28-day-rule is an ‘impediment to the use of IFAs’.

(2) What data did the Commonwealth rely upon to increase the quota and when was this data last updated.

(3) Is the data reviewed according to the precautionary principle before there are any alterations in the TAC.

(4) Have there been any written or verbal discussions between the Tasmanian and Commonwealth governments regarding this company, its trawler proposal and the TAC in the fishery.

(5) Have there been any discussions between Seafish and the Australian Fisheries Management Authority (AFMA) regarding the trawler proposal or the TAC; if so, has the Minister been involved in or informed of these discussions.

(10) Were there any clauses in the previous agreement that related specifically to the franchised PostShop model.

(11) Did Australia Post provide information to prospective franchisees through the interview and application process that it had formal agreements in place with its employee unions, and that these may prevent expansion of the franchise network to 150 outlets.

(13) Under the Future Ready program, are Australia Post managers in receipt of any performance bonuses in relation to cost savings achieved.

(9) Was this information shared with the franchisee; if so, when and what specific information was provided.

(10) Did Australia Post consult with the Coorparoo community in regard to this closure and subsequent relocation; if so, with whom and when did the consultation occur.
(11) Did the franchisee make numerous requests for documentation, which may have assisted them in making a decision about relocations, and was Australia Post in a position to supply such documents.

(12) Does Australia Post usually expect agreements to be entered into without availing the other party or parties an opportunity to view the contract.

(13) On what basis did Australia Post include in the Termination Notice for the particular franchise a clause whereby acceptance of the exit payment indemnified Australia Post from any further legal action, which may be open to this franchisee; and is this: (a) usual practice; and (b) mandated across all franchises in similar positions.

(14) Can a copy of the Termination Notice be provided.

(15) With reference to the document titled ‘A PostShop Franchise: Your Key to Business Success’, in particular p. 14 under the heading Franchise Advisory Council, which sets out the intentions of Australia Post, and given that this was supplied to the Coorparoo franchisee in the early stages of their expressions of interest in this model: (a) in what forum was the Coorparoo franchisee able to raise issues surrounding the closure of the Coorparoo franchise; and (b) given that the establishment of such a Council was indicated during the sale process, why has the Council not been established.

50 Prayer and acknowledgement of country
The President, on taking the chair each day, shall read the following prayer:

Almighty God, we humbly beseech Thee to vouchsafe Thy special blessing upon this Parliament, and that Thou wouldst be pleased to direct and prosper the work of Thy servants to the advancement of Thy glory, and to the true welfare of the people of Australia.
Our Father, which art in Heaven, Hallowed be Thy name. Thy kingdom come. Thy will be done on earth, as it is in Heaven. Give us this day our daily bread. And forgive us our trespasses, as we forgive them that trespass against us. And lead us not into temptation; but deliver us from evil: For thine is the kingdom, and the power, and the glory, for ever and ever. Amen.

The President shall then make an acknowledgement of country in the following terms:

I acknowledge the Ngunnawal and Ngambri peoples who are the traditional custodians of the Canberra area and pay respect to the elders, past and present, of all Australia’s Indigenous peoples.

Orders for production of documents

27 Taxation—Henry Tax Review—Superannuation—Order for production of documents
That the Senate—

(a) notes that:

(i) the Henry Tax Review made a number of recommendations in relation to superannuation,
(ii) those recommendations were not adopted by either the Rudd or Gillard Governments which pursued proposals criticised in the context of the Henry Tax Review,
(iii) the Government so far has not released any of the Treasury modelling or other relevant information and advice about the impact of those Henry Tax Review recommendations, and

(iv) release of that information is in the public interest to enable a fully informed community discussion about the best way forward for superannuation;

(b) calls on the Government to honour its stated commitment to openness and transparency and release all the information it holds about the Henry Tax Review recommendations on superannuation forthwith; and

(c) orders that there be laid on the table by noon on Thursday, 30 September 2010:

(i) any modelling, assessments or advice generated on superannuation-related issues for the purposes of the Henry Tax Review before it finalised its report and recommendations,

(ii) any Treasury modelling, assessments and advice to the Government about the impact of the Henry Tax Review’s recommendations on superannuation, and

(iii) any other information held by the Government about the superannuation-related recommendations in the Henry Tax Review.

(Motion of Senator Cormann agreed to 29 September 2010; document tabled 30 September 2010.)

28 Taxation—Mining tax—Revenue estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government continues to hide key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,

(ii) since the last sitting of the Senate, the Select Committee on Fuel and Energy repeatedly sought information from the Government about changes it made to those assumptions between the 2010-11 Budget and the announcement of the new proposed mining tax arrangements on 2 July 2010,

(iii) the committee specifically sought information about changes to commodity price, production volume, exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,

(iv) the information sought by the committee is published by the Western Australian State Government in its budget papers as a matter of course,

(v) the Government did not allow the Secretary of the Department of the Treasury (Dr Henry) to provide that information even when he appeared before the committee for a second time on 13 July 2010,

(vi) the Prime Minister (Ms Gillard) to this day has not responded to Senator Cormann’s letter, dated 12 July 2010, asking for this information to be released,
the Treasurer (Mr Swan) has since conceded that:

(A) under the revised assumptions, the original Resource Super Profits Tax (RSPT) proposal would have raised approximately $24 billion over the forward estimates rather than the $12 billion revenue estimate contained in the Budget,

(B) a massive $6 billion out of the $10.5 billion revised mining tax revenue estimate was based on changes to government assumptions, and

(C) under the original assumptions, the Minerals Resource Rent Tax (MRRT) or expanded Petroleum Resource Rent Tax (PRRT) would only have raised $4 billion over the forward estimates, and

the release of all relevant government assumptions is necessary to enable proper scrutiny of the Government’s mining tax proposal and that, as such, release of that information is in the public interest;

(b) calls on the Government to honour its stated commitment to openness and transparency and release all the information it holds about mining tax revenue estimates forthwith; and

(c) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010 all the Government’s assumptions used to estimate:

(i) the revenue from the RSPT as contained in the 2010-11 Budget, including but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and

(ii) the revenue from and overall fiscal impact of the MRRT/expanded PRRT arrangement announced on 2 July 2010, including all changes to assumptions used for the 2010-11 Budget.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

29 Taxation—Mining tax—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government conducted negotiations about its revised mining tax with BHP Billiton, Rio Tinto and Xstrata in secret before entering into an agreement about this new mining tax proposal with those three companies only,

(ii) approximately 99 per cent of the mining industry was excluded from those secret mining tax negotiations, and

(iii) in its haste to reach a new deal quickly, the Government gave those three companies an unfair competitive advantage, including by:

(A) allowing them to directly influence the ultimate design of the new tax while excluding their competitors,

(B) using data provided by those three companies on commodity prices, production volumes and other key assumptions, and

(C) giving them preferential access to inside information about Government assumptions and thought processes around the new tax;
(b) considers that:
   (i) information made available by the Government to those three companies should be made available to everyone,
   (ii) any data provided by those three companies for use in any Treasury modelling of the revised mining tax proposals should be publicly released, and
   (iii) all parts of any agreement between the Government and those three companies about the revised mining tax arrangements, including any schedules and other attachments, should be publicly available; and

(c) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:
   (i) any information held by the Government related to the negotiations and agreement about the new mining tax proposal announced on 2 July 2010, including but not limited to, briefing notes, e-mails, data provided to the Government by BHP Billiton, Rio Tinto and Xstrata and any other information generated in the context of the negotiations about the new mining tax proposal, and
   (ii) a copy of the signed heads-of-agreement on the new mining tax proposal between the Government and BHP Billiton, Rio Tinto and Xstrata.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

30 Taxation—Mining tax—Government estimates—Order for production of documents

That the Senate—
   (a) notes that:
      (i) the executive director of the Revenue Group in the Department of the Treasury (Mr David Parker) told the Select Committee on Fuel and Energy on 5 July 2010 that the department:
         (A) had assessed where the $10.5 billion estimated revenue from the revised mining tax was expected to come from ‘by commodity’, and
         (B) had not assessed where that revenue would come from on a state-by-state basis, but that ‘it would not be a difficult piece of analysis to do’,
      (ii) despite repeated requests since, the Government has refused to provide that information,
      (iii) this information is required to properly assess and scrutinise the impact of the proposed mining tax on the economy, jobs and on individual states and territories and individual sectors of the resources industry,
      (iv) furthermore, the Rudd and Gillard Governments made a commitment that funding from the mining tax related ‘infrastructure fund’ would be allocated to individual states and territories based on the level of mining tax revenue raised in those jurisdictions, and
      (v) as such, information about where the revenue is expected to come from on a state-by-state and territory basis is necessary to properly scrutinise whether, and ensure that, individual jurisdictions would receive a fair share of funding from that fund; and
(b) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:

(i) government estimates of where the $12 billion in revenue from the Resource Super Profits Tax was expected to come from by commodity and by state and territory, and

(ii) government estimates of where the $10.5 billion in revenue from the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax is expected to come from by commodity and by state and territory.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

31 Taxation—Mining tax—Revenue estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government has refused to provide information requested by the Senate about key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,

(ii) specifically, the Government has refused to provide information about changes to commodity price, production volume and exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,

(iii) in its response to the relevant order of the Senate, the Government justified its refusal to provide the information on the basis that, ‘commodity price forecasts underpinning the terms of trade forecasts are based in part on information provided by companies that is commercial in confidence. Disclosure of these individual commodity price forecasts may therefore prejudice negotiations between private companies’;

(iv) the information sought by the Senate is published by the Western Australian State Government in its budget papers as a matter of course, and

(v) information published by the Western Australian Government includes its commodity price assumptions developed after relevant information about commodity price expectations is obtained from relevant mining companies, which includes at least some of the companies involved in the mining tax negotiations with the Federal Government;

(b) based on the Government’s response does not accept that there are any legitimate public interest grounds for the Government to refuse to provide the requested information;

(c) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(i) all the Government assumptions used to estimate the revenue from the Resource Super Profits Tax as contained in the 2010-11 budget, including, but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and
(ii) all the Government assumptions used to estimate the revenue from and overall fiscal impact of the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax arrangement announced on 2 July 2010, including all changes to assumptions used for the 2010-11 budget;

(d) notes the agreements between the Government and other parties and independents to refer disputes about public interest disclosures to the Information Commissioner, who will arbitrate on the release of documents; and

(e) orders that, if the Government does not produce the information required by this order within the specified timeframe, there be laid on the table by 15 November 2010, a report on the matter by the Information Commissioner, including a review of the adequacy of the grounds specified by the Government for its refusal to produce the information and, if applicable, his arbitration on the release of the information.

(Motion of Senator Cormann agreed to 26 October 2010; documents tabled 28 October 2010 and 15 November 2010; document certified 3 February 2011 and tabled 9 February 2011.)

32 Taxation—Mining tax—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government has refused to provide any of the information requested by the Senate about its negotiations with BHP Billiton, Rio Tinto and Xstrata on the revised mining tax proposal,

(ii) in relation to some of the information only, the Government justified its refusal in its response to the relevant Senate order on the basis that, ‘Data and other material provided to the Treasury as part of negotiations around the MRRT are considered to be commercial in confidence’,

(iii) no justification was provided by the Government as to why release of any of the other information was not in the public interest, and

(iv) specifically, no reason was provided by the Government as to why the release of the signed heads-of-agreement between the Government and BHP Billiton, Rio Tinto and Xstrata would not be in the public interest;

(b) considers release of all the information requested on the negotiations between the Government and BHP Billiton, Rio Tinto and Xstrata about the revised mining tax proposal to be in the public interest;

(c) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(b) orders that there be laid on the table by noon on Thursday, 28 October 2010:

34 **Superannuation—Productivity Commission report—Order for production of document**  
That the Senate—

(a) notes that:
   (i) the current process to select default superannuation funds under modern awards is not transparent, not objective or evidence based, not competitive and not subject to systematic review,
   (ii) the top ten most commonly listed default funds under modern awards are all union based industry super funds, with these ten funds listed as default super funds in modern awards 330 times,
   (iii) the Cooper Review into superannuation also confirmed that current default superannuation fund arrangements undermined competition as new employees typically become a member of a default fund, and
   (iv) a competitive, transparent and efficient superannuation industry is critically important to maximise value for all superannuants;

(b) endorses the Labor Party’s commitment before the 2010 election to instruct the Productivity Commission to design a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds; and

(c) orders that there be laid on the table, no later than 31 May 2011, a report by the Productivity Commission on the design of a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds, with the requirements that:
   (i) the process is to be based on objective criteria and evidence and be subject to systematic review, so that the selection and ongoing review of eligible default funds is transparent and competitive,
   (ii) the process is to help maximise employees’ retirement incomes by ensuring that only those superannuation funds that deliver – and continue to deliver – the best results to their members are able to be included as default fund options in modern awards and enterprise agreements, and
   (iii) in designing the process the Productivity Commission make reference to the existing sophisticated system of superannuation fund ratings which has evolved over the past 20 years and is already used widely by employees, employers and financial planners in making decisions on fund selection.

That the Senate:

(a) notes that:
   (i) the Government has refused to provide the information requested by the Senate in relation to advice to Government about the requirement for unanimous agreement from all parties to change the GST arrangements,

(ii) the language in the agreements with the states and territories differs from the language in the agreements with the BGAs with respect to the Australian Government’s ability to withhold, suspend or recover monies in the event that the funding is not expended for the purposes of the program and in accordance with the BER Guidelines, and

(iii) the Minister for Tertiary Education, Skills, Jobs and Workplace Relations indicated at a Senate estimates hearing in October 2010 that the Commonwealth has obtained legal advice that confirms that, notwithstanding the differences in language in the agreements, under each of the two types of agreements the Commonwealth has the power to withhold or recover monies; and

(ii) that the Minister for Sustainability, Environment, Water, Population and Communities tabled legal advice from the Australian Government Solicitor in the House of Representatives on 25 October 2010 stating that, ‘The nature of the decision-making in relation to the Plan involves the application of broad concepts and there is therefore scope for the consideration of how economic, social and environmental outcomes should be optimised’,

(iii) that the Chairman of the Murray-Darling Basin Authority, Mr Mike Taylor, responded by stating that this advice disagrees with previous advice the Authority had received stating, ‘... clearly the advice we’d had to date had indicated that we were obliged to meet the requirements of adhering to international agreement, and ensuring that we met the environmental flows required to maintain and restore key environmental assets and key ecosystems, and that it was not subject to social and economic impacts’, and

(iv) that, in a statement on 26 October 2010, the Authority revealed that this advice had come from the Minister’s Department of Sustainability, Environment, Water, Population and Communities, in close consultation with the Australian Government Solicitor for legal interpretation; and

(ii) that in a letter to the Clerk of the Senate the Chairman of the Productivity Commission expressed the view that in his understanding ‘such a report would need to be commissioned by the Assistant Treasurer’,

(iii) that like the Australian Information Commissioner, the Chairman of the Productivity Commission appears to have confused a legitimate order of a House of the Australian Parliament for the production of a document, with a request to perform a specific function under his enabling statute, and

(b) advises the Productivity Commissioner as follows:

(i) that under section 49 of the Constitution the Senate has the undisputed power to order the production of documents necessary for its information, a power which encompasses documents already in existence and documents required to be created for the purpose of complying with the order,

(ii) this power may be modified only by express statutory declaration, as required by section 49 of the Constitution,

(iii) nothing in the Productivity Commission Act 1998 is expressed as a declaration for the purpose of section 49 that would have the effect of limiting the exercise of the power by the Houses of the Commonwealth Parliament in respect of the Productivity Commission,

(iv) multiple resolutions of the Senate affirm the principle that information may be withheld from it only following consideration by the Senate of a properly founded claim of public interest immunity, and

(v) the Senate has on numerous occasions exercised its power to require statutory agencies and officers to produce information in response to orders; and
(c) again orders the Productivity Commission to provide the report requested by the Senate consistent with its order agreed to on 16 November 2010.

55 Meeting of Parliament—‘Welcome to Country’ ceremony
That the Senate is of the view that the declaration of the opening of Parliament should be preceded by an Indigenous ‘Welcome to Country’ ceremony.

(Agreed to 23 June 2010.)

Question time

56 Modified rules for question time—Temporary order
That the following modified rules for question time continue to operate as a temporary order, in conjunction with standing orders 72 and 73, until 30 June 2012:

Senate

57 Appropriations—Ordinary annual services of the Government
That, in accordance with the recommendation made in the 50th Report of the Appropriations and Staffing Committee, the Senate resolves:

(1) To reaffirm its constitutional right to amend proposed laws appropriating revenue or moneys for expenditure on all matters not involving the ordinary annual services of the Government.

(2) That appropriations for expenditure on:

(a) the construction of public works and buildings;

(b) the acquisition of sites and buildings;
(c) items of plant and equipment which are clearly definable as capital expenditure (but not including the acquisition of computers or the fitting out of buildings);
(d) grants to the states under section 96 of the Constitution;
(e) new policies not previously authorised by special legislation;
(f) items regarded as equity injections and loans; and
(g) existing asset replacement (which is to be regarded as depreciation),

(3) That, in respect of payments to international organisations:
(a) the initial payment in effect represents a new policy decision and therefore should be in Appropriation Bill (No. 2); and
(b) subsequent payments represent a continuing government activity of supporting the international organisation and therefore represent an ordinary annual service and should be in Appropriation Bill (No. 1).

(4) That all appropriation items for continuing activities for which appropriations have been made in the past be regarded as part of ordinary annual services.

GUIDE TO THE NOTICE PAPER

A Notice Paper is issued each sitting day containing details of current business before the Senate. It works in conjunction with the Senate Order of Business (otherwise known as the Red) which sets out the daily routine of business to be followed as per standing order 57.

Standing orders are the rules or procedures set down by the Senate to govern the Senate and its committees. The current version of The Senate: Standing Orders and other orders of the Senate is available on the Senate website at

The publication of the Notice Paper is authorised by standing order 43(2).

Placement of business on the Notice Paper

The way business is placed on the Notice Paper is set down according to standing orders and is listed under one of the following four categories:

- **Matters of privilege** which take precedence over all other business and are listed at the beginning of the Notice Paper when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

- **Business of the Senate** which has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

- **Government business** which is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

- **General business** which is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above. (See below for a breakdown of this section.)

Within each of the above categories you may find notices of motions and/or orders of the day:

- **Notices of motion** are statements indicating that senators intend to move particular motions on the days indicated. They are entered on the Notice Paper in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

- **Orders of the day** are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters, including legislation, or requirements to present committee reports.

On days other than Thursdays, the Notice Paper records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, to take account of General Business at 4.30 pm, a full listing of business relating to the consideration of government documents, committee reports and government responses to committee reports and Auditor-General’s reports is also published.
