GENERAL BUSINESS

Notices of Motion

Notice given 23 June 2011

306 Chair of the Education, Employment and Workplace Relations Legislation Committee (Senator Marshall): To move—That the Senate—
(a) notes:
(i) the opening statement made by the President of Fair Work Australia on 1 June 2010 during his appearance at an estimates hearing of the
Education, Employment and Workplace Relations Legislation Committee, and

(ii) in particular, the request made in that statement that the Senate reconsider its order of 28 October 2009 which requires that, on each occasion on which the Education, Employment and Workplace Relations Legislation Committee meets to consider estimates in relation to Fair Work Australia, the President of Fair Work Australia appear before the committee to answer questions; and

(b) modifies the order of 28 October 2009 by declaring that, while relaxing the requirement that the President of Fair Work Australia attend to answer questions on all occasions when the Education, Employment and Workplace Relations Legislation Committee meets to consider estimates in relation to Fair Work Australia, the Senate expects that the President will appear should his or her presence be requested by the Education, Employment and Workplace Relations Legislation Committee in the future.

Notice given 19 September 2011

438 Senator Siewert: To move—That the Senate—

(a) notes that:

(i) trawling in the northeast area of the North West Slope Trawl Fishery, in depths of less than 200 metres off the Western Australian Kimberley coast was accidentally made possible due to an administrative error when the Western Australian and Federal Governments amended the Offshore Constitutional Settlement Agreement in 1998,

(ii) this error accidentally allows bottom trawling in areas shallower than 200 metres despite the fact that this is a critical habitat for goldband snapper and other demersal fish species which have been off-limits to North West Slope Trawl Fishery trawlers as they are a deep water crustacean prawn fishery,

(iii) the ecological sensitivity of this area has been acknowledged in the Australian Fisheries Management Authority’s correspondence with permit holders,

(iv) legislative instruments have been introduced prohibiting trawl fishing in this northeast area, but the most recent instrument expired in December 2010,

(v) since that time, the closure has been maintained informally by industry self-regulation,

(vi) negotiations between the Federal and Western Australian Governments which were intended to fix this error have stalled and the trawling industry has stated that they will commence bottom trawling in this area on the imminent cessation of the closure which is 30 September 2011,

(vii) a resumption of trawling in this area would adversely impact the benthos and demersal fish stocks of this region, thus putting the entire ESD [ecologically sustainable development] certified Northern Demersal Scalefish Managed Fishery at great sustainable risk, and

(viii) the Western Australian Department of Fisheries has stated in its latest State of the fisheries and aquatic resources report that the demersal scalefish resources in this area are fully exploited; and
(b) calls on the Federal Government to reinstate the North West Slope Fishery Direction No. 02 Area Closure legislative instrument which excludes trawl fishing in the northeast area of the North West Slope Trawl Fishery in Western Australia.

Notice given 20 September 2011

442 Senator Siewert: To move—That the following bill be introduced: A Bill for an Act to amend the Fisheries Management Act 1991, and for related purposes. **Fisheries Management Amendment (North West Slope Fishery Partial Closure) Bill 2011.**

673 Senator Ludlam: To move—That the Senate—

(a) notes the publication of evidence that a sealed grand jury indictment against Australian citizen Mr Julian Assange has been in existence for more than a year; and

(b) calls on the Government to obtain confirmation of its existence from the Government of the United States of America and report to the Senate.

Notice given 29 June 2012 am

829 Senator Rhiannon: To move—That the Senate—

(a) notes that:

(i) family planning is key to achieving all Millennium Development Goals, especially Goal 5 which seeks to reduce maternal mortality by three-quarters and is the least likely goal to be achieved,

(ii) maternal mortality is a leading cause of death and illness for all women worldwide, with pregnancy the biggest killer of girls aged 15 to 19,

(iii) over 200 million married women and hundreds of millions more single and adolescent women still cannot access contraception and reproductive health services, fundamental human rights which can prevent 99 per cent of maternal deaths, and

(iv) on 11 July 2012, the United Kingdom Government and the Bill & Melinda Gates Foundation host the global Family Planning Summit in London, which aims to reduce maternal deaths by 200 000 per year and to prevent 1 million infant deaths by 2020; and

(b) calls on the Government to:

(i) continue to increase aid funding for family planning, with a special emphasis on investing in comprehensive rights-based approaches that eradicate social and cultural barriers, in the 2012-13 budget and beyond, and

(ii) support the work of the International Consortium of Sexual and Reproductive Health Rights, comprised of CARE Australia, Marie Stopes International Australia, the Burnet Institute, the International Women’s Development Agency, and Plan International Australia, and other initiatives that enable women to claim their right to decide if and when to have children.
830 Senator McEwen: To move—That the Senate—

(a) notes that in 2012 Australia is commemorating the 70th anniversary of the War in the Pacific and acknowledging the contribution of our service personnel to the defence of Australia during that period of World War II at events and memorial services in Australia and elsewhere in the Pacific region;

(b) notes that:

(i) the 2/27th Battalion AIF was formed at Woodside in South Australia in May 1940 and disbanded in March 1946,
(ii) the 2/27th Battalion AIF fought in all the major World War II campaigns in which Australia was engaged and was awarded honours for the following battles: North Africa, Syria, The Litani, Sidon, Adloun, Damour, South West Pacific, Kokoda Track, Efogi-Menari, Buna-Gona, Gona, Ramu Valley, Shaggy Ridge, Balikpapan and Borneo,
(iii) during the campaign in New Guinea in 1942 the Battalion suffered heavy casualties during the battle at Brigade Hill on 8 September and at Gona in November and December, and
(iv) the Battalion continued fighting in New Guinea and was serving in Balikpapan, Borneo, when the war ended in August 1945;

(c) acknowledges the invaluable contribution of the 2/27th Battalion AIF throughout World War II;

(d) expresses its appreciation to the surviving members of the 2/27th Battalion AIF who served with courage and distinction in the Pacific War and other campaigns in World War II; and

(e) thanks all those who served in Australia’s defence forces during World War II.

Business of the Senate—Notice of Motion

Notice given 21 June 2012

1 Leader of the Australian Greens (Senator Milne): To move—That the following matter be referred to the Economics References Committee for inquiry and report by 29 October 2012:

The causes of electricity bill increases and options to moderate future increases, with particular reference to:

(a) identification of the key causes of electricity price increases over recent years and in future projections;
(b) whether the current electricity market objectives, and governance and regulation structures have been and will continue to be effective at moderating costs and serving their intended purposes;
(c) the accuracy of past electricity demand projections, the impact of declining wholesale electricity prices and the role of energy efficiency;
(d) barriers to reform created by the National Electricity Market institutions, including state-based regulators, the Australian Energy Market Operator, the Australian Energy Market Commission and the Australian Energy Regulator (AER), and whether the reach of the AER is unnecessarily restricted;
(e) the difference in cost drivers between private and government-owned transmission and distribution businesses and the significant decline in the productivity of these businesses;
(f) the impact of state and federal government measures to reduce greenhouse gas emissions and support renewable energy and energy efficiency in light of market externalities, broader social and economic benefits and whether market objectives should be reconsidered in light of these benefits;
(g) whether or not network reliability standards are unnecessarily high, and whether there are benefits of moving to a more sophisticated probabilistic approach to reliability standards, including more appropriate metrics of value of unserved energy and value of customer reliability;
(h) the effects of the imposition of obligations on electricity distributors for minimum targeted levels of ‘demand management’ and consumer energy efficiency schemes;
(i) the benefits of decoupling the profits of electricity distributors from the volume of energy supplied;
(j) the materiality of ‘merit order’ based price reductions in the wholesale energy market from increasing levels of distributed generation;
(k) regulatory and other barriers relating to the connection processes for embedded generators;
(l) the potential to shift from an energy-only market to markets in both energy and capacity, to restrain price volatility, ensure resource adequacy, and foster the development of a broad, competitive mix of generation and demand-side resources;

(m) the potential for increased funding of, and capacity for, consumer advocacy to reduce bills through countering the lobbying of market participants and networks;

(n) the need for a government agency to coordinate and promote energy savings, demand management and distributed generation;

(o) barriers to reform of the energy markets and systems in Western Australia and the Northern Territory; and

(p) any related matters.

General Business—Notice of Motion

Notice given 9 May 2012

770 Leader of the Australian Greens (Senator Milne): To move—That the Senate—
   (a) notes:
      (i) the Tripa forest in Sumatra, an area covered by a 2-year moratorium
          on new forest-clearing concessions, is being burnt by deliberately lit
          fires and cleared in order to make way for palm oil concessions,
      (ii) the forest is home to people and wildlife and stores massive
          quantities of carbon, and is also home to the largest concentration of
          Sumatran orang-utans,
      (iii) that leading experts believe the loss of the Tripa forest could lead to
          the local extinction of Sumatran orang-utans by the end of 2012,
          and international primate experts such as Ms Jane Goodall and Mr
          Richard Leakey have called for the protection of the Tripa forest,
      (iv) that humanitarian and conservation organisations working within
          the region have reported that villagers are suffering from health
          problems associated with the burning and have been subjected to
          intimidation from both palm oil companies and Indonesian police,
      (v) the chair of President Yudhoyono’s task force on forests and carbon
          has expressed concern that ‘opening up Tripa – an area with high
          conservation value and home to many animals endemic to Indonesia
          – is a grave mistake’,
      (vi) while the Indonesian Government has launched a police
          investigation into the criminal activity in the area, palm oil
          companies continue to illegally clear protected forest, a process that
          has destroyed countless livelihoods,
      (vii) Australia is a significant consumer of palm oil from South East
          Asia, particularly Indonesia, as Australia imports 130 000 tonnes of
          palm oil each year,
      (viii) the Tripa forest crisis has received major international news
          coverage in publications such as Time Magazine, Voice of America,
          the Guardian, the Australian, the Sydney Morning Herald, and the
          Independent, and
(ix) many conservation groups in Indonesia regard Tripa as a test case that will determine the future of the $1 billion agreement on carbon and forests between Norway and Indonesia;

(b) welcomes the Indonesian Government’s investigations of law-breaking in Tripa forest in early May 2012; and

(c) calls on the Australian Government to request the Indonesian Government to fully enforce the law that protects this important region and cease all clearing in the Tripa forest.

1146 Minister representing the Minister for Financial Services and Superannuation

(transferred to the Minister representing the Treasurer on 14 September 2011)

Notice given 31 October 2011

Senator Milne: To ask the Minister representing the Treasurer—In regard to the statutory capped effective life for various categories of oil and gas assets established in section 40-102(5) of the Income Tax Assessment Act 1997:

(1) How much foregone revenue does the department estimate the Commonwealth has and will incur: (a) since the introduction of these tax breaks in 2002; and (b) over the next decade, given the large investments planned in the oil and gas industry.

(2) Has the department conducted, or is it aware of, any cost-benefit analysis for these tax breaks.

(3) Is the department aware of the analysis by the Australian Conservation Foundation that these tax breaks could cost between $1.6 billion and $2 billion annually by 2018 and does it have any reason to doubt this estimate.

(4) What was the reasoning behind the department advising the Treasurer in 2010 that these tax breaks are arguably inefficient and distortionary.

(5) Will the existence of these tax breaks counteract in part the price signal intended to be created by the carbon tax.

Notice given 10 November 2011

Senator Ludlam: To ask the Minister representing the Treasurer—With reference to the Select Committee on Housing Affordability in Australia report, A good house is hard to find: Housing affordability in Australia, dated June 2008:

(1) Of the 33 recommendations, of which at least eight directly relate to the department, how many have been implemented to date.
(2) Can an update on any action be provided, including progress and outcomes made on all recommendations relating to the department, since the report was released.

(3) Given that recommendation 4.1 states ‘In the interests of more informed discussion of arrangements to encourage affordable housing, the Treasury be asked to publish current estimates of various taxation and related measures affecting the housing market’, can a current estimate of taxation and related measures affecting the housing market be provided, including a disaggregated breakdown for spending across all relevant departments.

1460 Senator Ludlam: To ask the Minister representing the Treasurer—With reference to Australia’s Future Tax System report, has the department ever conducted any modelling or analysis on:

(a) the number of recommendations it contained relating to the taxation treatment of housing, and specifically, of Recommendation 14 (p. 70) to ‘Provide a 40 per cent savings income discount to individuals for non-business related:
   (a) net interest income;
   (b) net residential rental income (including related interest expenses);
   (c) capital gains (and losses); and
   (d) interest expenses related to listed shares held by individuals as non-business investments’;
   if so, can the modelling/analysis be described and provided;

(b) Recommendation 51 (p. 263) which stated ‘Ideally, there would be no role for any stamp duties, including conveyancing stamp duties, in a modern Australian tax system. Recognising the revenue needs of the States, the removal of stamp duty should be achieved through a switch to more efficient taxes, such as those levied on broad consumption or land bases. Increasing land tax at the same time as reducing stamp duty has the additional benefit of some offsetting impacts on asset prices’; if so, can the modelling/analysis be described and provided;

(c) Recommendation 52 (p. 263) relating to the benefits of implementing a broad based land tax; if so, can the modelling/analysis be described and provided;

(d) Recommendations 102 to 104 (p. 610) relating to increasing the maximum rate of Rent Assistance to assist renters to afford an adequate standard of dwelling, to index the rent maximum to movements in national rents, to base eligibility on rent paid, and to extend Rent Assistance equitably to public housing tenants; if so, can the modelling/analysis described and provided;

(e) Recommendation 105 (p. 610) relating to housing payments to tenants with high or special needs who may face discrimination in the private market; if so, can the modelling/analysis be described and provided.

(3) How many Authorised Deposit-taking Institutions have been the subject of an enforceable undertaking with the Australian Securities and Investments Commission over the past decade.

(4) Is the Minister aware of any Authorised Deposit-taking Institutions which have been promoting retail margin loan products in respect of stocks outside or below the ASX200; if so, does he believe that such an offering is consistent with the findings of the Parliamentary Joint Committee on Corporations and Financial Services’ inquiry into financial products and services in Australia or the intent of the Corporations Legislation Amendment (Financial Services Modernisation) Bill 2009.

(5) Is the Minister aware of Authorised Deposit-taking Institutions with significant debt portfolios in respect of stocks outside or below the ASX200, does he believe that the current arrangements in terms of capital adequacy of Authorised Deposit-taking Institutions is in any way compromised by such portfolios.

1496 Senator Bushby: To ask the Minister representing the Treasurer—In regard to the Future of Financial Advice (FoFA) package of reforms:

(1) How many:
   (a) new customers will be impacted directly by the FoFA reforms (e.g. need to make a decision on payment of advice, need to complete forms etc);
   (b) existing customers will be impacted directly by the FoFA reforms (e.g. need to make a decision on payment of advice, need to complete forms etc);
   (c) customers will be either directly or indirectly impacted by the FoFA reforms, to what effect, and can a financial benefit analysis be provided of these impacts;
   (d) financial planners will be impacted by the FoFA reforms; and
   (e) financial planning businesses will be impacted by the FoFA reforms.

(2) (a) What is the current state of competition in the financial advice industry—is the industry in a high, moderate or low competitive state; and (b) will the FoFA reforms erect additional barriers to entry for new financial planning businesses and superannuation funds.

(3) Given that media commentary indicates that the FoFA reforms will lead to even greater concentration in the advice industry, has the department discussed this matter with its competition experts; if so, with what results.
(4) (a) What will the impact of the FoFA reforms be on the underlying cost structures of financial planning businesses; and (b) for those businesses that are ASX-listed what will be the impact on their share price.

(5) What is the average hourly cost of financial advice for both in-house super advice and for comprehensive financial advice.

(10) How many customers will complete an opt-in form and thereby agree to maintain their advisor relationship.

(11) (a) Does the department agree with the Financial Ombudsman Service (FOS) submission that the opt-in system will result in some consumers unwittingly losing their financial advice facility (e.g. mail lost, not opened, deadline date ignored, or simple consumer inertia), and therefore losing access to the FOS in the event of financial loss which they believe has been occasioned by bad advice; and (b) what will be the likely magnitude of this problem and what measures are needed to ensure that such losses are not systemic.

(12) Assuming that the FoFA reforms gain passage during the Autumn sittings of Parliament: (a) what will be the time period for funds and advisers to build systems to comply with the FOS requirements; and (b) how does this preparation time compare to the time which applied to the introduction of the Corporate Law Economic Reform Program (CLERP) 4, CLERP 6, anti-money laundering reforms/Financial Action Task Force, and the financial services reforms.

(13) (a) What additional costs to the industry will be caused by not aligning the MySuper changes with the FoFA reforms; and (b) what will be the impact on customers and funds of this mutually exclusive approach to reform applying to the same industry.

(4) Does ANSTO import Iodine-123 (I-123), Thallium-201 (TI-201) and Gallium-67 (Ga-67); if so, is this because the National Medical Cyclotron was decommissioned in 2009.

(5) Will any of the collaborations entered into by ANSTO be capable of producing I-123, TI-201 and Ga-67.

(6) How much does ANSTO charge for a dose of I-123, used for scanning patients with thyroid cancer, and how much of this is covered by the Medicare rebate.

1875 **Senator Ludlam:** To ask the Minister for Tertiary Education, Skills, Science and Research—

(1) Did the Australian Nuclear Science and Technology Organisation (ANSTO) cease fluorodeoxyglucose (FDG) production through the National Medical Cyclotron in 2003 and reinstitute supply only in 2010 by Positron Emission Tomography (PET) in conjunction with PETNET Solutions.

(2) Did this withdrawal of ANSTO from the market coincide with the increased clinical demand for FDG under the PET data collection program of the Department of Health and Aging.

(3) Did private companies supply the FDG market in the absence of ANSTO production.

(4) Did patients miss out on best management of their illness due to limited supplies of FDG.

(5) Did ANSTO seek advice from the Department of Health and Aging on the roll-out of Medical Benefits Scheme funding for PET.

(6) Was Professor Andrew Scott on the ANSTO Board when approval for PET was given.

(7) Was Professor Scott closely involved with the Department of Health and Aging with respect to PET funding and data collection initiatives.
(8) Has the failure of ANSTO to understand the FDG market size:
   (a) led to overinvestment in the capacity of the PETNET Solutions facility, including the investment of $17.5 million in public funds, despite little prospect of commercial return; and
   (b) unfairly undermined the business of commercial operators who receive no government funding.

(10) What was the reason for ANSTO increasing its cost base to take on the PETNET Solutions branding.

(11) Given that the PETNET Solutions facility was designed to supply more than FDG, what else has it supplied to date.

1876 Senator Ludlam: To ask the Minister for Tertiary Education, Skills, Science and Research—In regard to exploratory partnership discussions between the Australian Nuclear Science and Technology Organisation (ANSTO) and various entities:

(1) On what occasions have discussions taken place between ANSTO and the Peter MacCallum Cancer Centre, regarding the establishment of an ANSTO-sponsored Collaborative Clinical Radiopharmacy Research Facility at the intended Victorian Comprehensive Cancer Centre in Melbourne, and what documentation of the discussions, if any, exists.

(2) Have ANSTO funds been allocated to the proposed partnership with the University of Queensland’s (UQ) Education Investment Fund bid for a Centre for Advanced Imaging (CAI).

(3) Does the proposed CAI also have funding as a node in the National Imaging Facility (NIF).

(4) Is there any risk that the recently announced commercial venture between CAI and Axiom Molecular will infringe on competitive neutrality provisions.

(5) Do the contractual arrangements make it clear that competitive neutrality must be respected in any commercial spin-offs.

(6) What particular expertise did the ANSTO Board identify at CAI that warranted the use of ANSTO funds to support the collaboration.

(7) Has UQ previously owned or had access to a cyclotron.

(8) Who are the lead researchers at CAI in charge of the PET [Positron Emission Tomography] tracer discovery and commercialisation program.

(9) Did the agreement with the Austin Health based Ludwig Institute for Cancer Research, regarding joint competitive research, involve funding from ANSTO; if so: (a) when were the funds provided; (b) does the contract provide for a loan or a grant; and (c) are there any competitive neutrality considerations.

(10) Is the intent of the arrangement to supply Copper-64 (Cu-64), Iodine-124 (I-124), Zirconium-89 (Zr-89), and Yttrium-86 (Y-86) for research and clinical development, and what has been supplied to date.

(11) Did collaboration with the Sir Charles Gairdner Hospital (SCGH) in Western Australia for cyclotron targety involve ANSTO funding; if so, how much and under what provisions.

Orders for production of documents

26 Taxation—Henry Tax Review—Superannuation—Order for production of
documents

That the Senate—
   (a) notes that:
       (i) the Henry Tax Review made a number of recommendations in
           relation to superannuation,
       (ii) those recommendations were not adopted by either the Rudd or
           Gillard Governments which pursued proposals criticised in the
           context of the Henry Tax Review,
       (iii) the Government so far has not released any of the Treasury
           modelling or other relevant information and advice about the impact
           of those Henry Tax Review recommendations, and
       (iv) release of that information is in the public interest to enable a fully
           informed community discussion about the best way forward for
           superannuation;
   (b) calls on the Government to honour its stated commitment to openness and
       transparency and release all the information it holds about the Henry Tax
       Review recommendations on superannuation forthwith; and
   (c) orders that there be laid on the table by noon on Thursday, 30 September
       2010:
       (i) any modelling, assessments or advice generated on
           superannuation-related issues for the purposes of the Henry Tax
           Review before it finalised its report and recommendations,
(ii) any Treasury modelling, assessments and advice to the Government about the impact of the Henry Tax Review’s recommendations on superannuation, and

(iii) any other information held by the Government about the superannuation-related recommendations in the Henry Tax Review.

(Motion of Senator Cormann agreed to 29 September 2010; document tabled 30 September 2010.)

27 Taxation—Mining tax—Revenue estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government continues to hide key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,

(ii) since the last sitting of the Senate, the Select Committee on Fuel and Energy repeatedly sought information from the Government about changes it made to those assumptions between the 2010-11 Budget and the announcement of the new proposed mining tax arrangements on 2 July 2010,

(iii) the committee specifically sought information about changes to commodity price, production volume, exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,

(iv) the information sought by the committee is published by the Western Australian State Government in its budget papers as a matter of course,

(v) the Government did not allow the Secretary of the Department of the Treasury (Dr Henry) to provide that information even when he appeared before the committee for a second time on 13 July 2010,

(vi) the Prime Minister (Ms Gillard) to this day has not responded to Senator Cormann’s letter, dated 12 July 2010, asking for this information to be released,

(vii) the Treasurer (Mr Swan) has since conceded that:

(A) under the revised assumptions, the original Resource Super Profits Tax (RSPT) proposal would have raised approximately $24 billion over the forward estimates rather than the $12 billion revenue estimate contained in the Budget,

(B) a massive $6 billion out of the $10.5 billion revised mining tax revenue estimate was based on changes to government assumptions, and

(C) under the original assumptions, the Minerals Resource Rent Tax (MRRT) or expanded Petroleum Resource Rent Tax (PRRT) would only have raised $4 billion over the forward estimates, and

(viii) the release of all relevant government assumptions is necessary to enable proper scrutiny of the Government’s mining tax proposal and that, as such, release of that information is in the public interest;

(b) calls on the Government to honour its stated commitment to openness and transparency and release all the information it holds about mining tax revenue estimates forthwith; and
(c) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010 all the Government’s assumptions used to estimate:
   (i) the revenue from the RSPT as contained in the 2010-11 Budget, including but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and
   (ii) the revenue from and overall fiscal impact of the MRRT/expanded PRRT arrangement announced on 2 July 2010, including all changes to assumptions used for the 2010-11 Budget.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

28 Taxation—Mining tax—Order for production of documents
That the Senate—
(a) notes that:
   (i) the Government conducted negotiations about its revised mining tax with BHP Billiton, Rio Tinto and Xstrata in secret before entering into an agreement about this new mining tax proposal with those three companies only,
   (ii) approximately 99 per cent of the mining industry was excluded from those secret mining tax negotiations, and
   (iii) in its haste to reach a new deal quickly, the Government gave those three companies an unfair competitive advantage, including by:
     (A) allowing them to directly influence the ultimate design of the new tax while excluding their competitors,
     (B) using data provided by those three companies on commodity prices, production volumes and other key assumptions, and
     (C) giving them preferential access to inside information about Government assumptions and thought processes around the new tax;
(b) considers that:
   (i) information made available by the Government to those three companies should be made available to everyone,
   (ii) any data provided by those three companies for use in any Treasury modelling of the revised mining tax proposals should be publicly released, and
   (iii) all parts of any agreement between the Government and those three companies about the revised mining tax arrangements, including any schedules and other attachments, should be publicly available; and
(c) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:
   (i) any information held by the Government related to the negotiations and agreement about the new mining tax proposal announced on 2 July 2010, including but not limited to, briefing notes, e-mails, data provided to the Government by BHP Billiton, Rio Tinto and Xstrata and any other information generated in the context of the negotiations about the new mining tax proposal, and
(ii) a copy of the signed heads-of-agreement on the new mining tax proposal between the Government and BHP Billiton, Rio Tinto and Xstrata.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

29 Taxation—Mining tax—Government estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the executive director of the Revenue Group in the Department of the Treasury (Mr David Parker) told the Select Committee on Fuel and Energy on 5 July 2010 that the department:

(A) had assessed where the $10.5 billion estimated revenue from the revised mining tax was expected to come from ‘by commodity’, and

(B) had not assessed where that revenue would come from on a state-by-state basis, but that ‘it would not be a difficult piece of analysis to do’,

(ii) despite repeated requests since, the Government has refused to provide that information,

(iii) this information is required to properly assess and scrutinise the impact of the proposed mining tax on the economy, jobs and on individual states and territories and individual sectors of the resources industry,

(iv) furthermore, the Rudd and Gillard Governments made a commitment that funding from the mining tax related ‘infrastructure fund’ would be allocated to individual states and territories based on the level of mining tax revenue raised in those jurisdictions, and

(v) as such, information about where the revenue is expected to come from on a state-by-state and territory basis is necessary to properly scrutinise whether, and ensure that, individual jurisdictions would receive a fair share of funding from that fund; and

(b) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:

(i) government estimates of where the $12 billion in revenue from the Resource Super Profits Tax was expected to come from by commodity and by state and territory, and

(ii) government estimates of where the $10.5 billion in revenue from the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax is expected to come from by commodity and by state and territory.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)
That the Senate—

(a) notes that:

(i) the Government has refused to provide information requested by the Senate about key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,

(ii) specifically, the Government has refused to provide information about changes to commodity price, production volume and exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,

(iii) in its response to the relevant order of the Senate, the Government justified its refusal to provide the information on the basis that, ‘commodity price forecasts underpinning the terms of trade forecasts are based in part on information provided by companies that is commercial in confidence. Disclosure of these individual commodity price forecasts may therefore prejudice negotiations between private companies’,

(iv) the information sought by the Senate is published by the Western Australian State Government in its budget papers as a matter of course, and

(v) information published by the Western Australian Government includes its commodity price assumptions developed after relevant information about commodity price expectations is obtained from relevant mining companies, which includes at least some of the companies involved in the mining tax negotiations with the Federal Government;

(b) based on the Government’s response does not accept that there are any legitimate public interest grounds for the Government to refuse to provide the requested information;

(c) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(i) all the Government assumptions used to estimate the revenue from the Resource Super Profits Tax as contained in the 2010-11 budget, including, but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and

(ii) all the Government assumptions used to estimate the revenue from and overall fiscal impact of the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax arrangement announced on 2 July 2010, including all changes to assumptions used for the 2010-11 budget;

(d) notes the agreements between the Government and other parties and independents to refer disputes about public interest disclosures to the Information Commissioner, who will arbitrate on the release of documents; and

(e) orders that, if the Government does not produce the information required by this order within the specified timeframe, there be laid on the table by 15 November 2010, a report on the matter by the Information Commissioner, including a review of the adequacy of the grounds specified
by the Government for its refusal to produce the information and, if applicable, his arbitration on the release of the information.

(Motion of Senator Cormann agreed to 26 October 2010; documents tabled 28 October 2010 and 15 November 2010; document certified 3 February 2011 and tabled 9 February 2011.)

31 Taxation—Mining tax—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government has refused to provide any of the information requested by the Senate about its negotiations with BHP Billiton, Rio Tinto and Xstrata on the revised mining tax proposal,

(ii) in relation to some of the information only, the Government justified its refusal in its response to the relevant Senate order on the basis that, ‘Data and other material provided to the Treasury as part of negotiations around the MRRT are considered to be commercial in confidence’,

(iii) no justification was provided by the Government as to why release of any of the other information was not in the public interest, and

(iv) specifically, no reason was provided by the Government as to why the release of the signed heads-of-agreement between the Government and BHP Billiton, Rio Tinto and Xstrata would not be in the public interest;

(b) considers release of all the information requested on the negotiations between the Government and BHP Billiton, Rio Tinto and Xstrata about the revised mining tax proposal to be in the public interest;

(c) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(i) any information held by the Government related to the negotiations and agreement about the new mining tax proposal announced on 2 July 2010, including, but not limited to, briefing notes, emails, data provided to the Government by BHP Billiton, Rio Tinto and Xstrata and any other information generated in the context of the negotiations about the new mining tax proposal, and

(ii) a copy of the signed heads-of-agreement on the new mining tax proposal between the Government and BHP Billiton, Rio Tinto and Xstrata;

(d) notes the agreements between the Government and other parties and independents to refer disputes about public interest disclosures to the Information Commissioner, who will arbitrate on the release of documents; and

(e) orders that, if the Government does not produce the information required by this order within the specified timeframe, there be laid on the table by 15 November 2010, a report on the matter by the Information Commissioner, including a review of the adequacy of the grounds specified by the Government for its refusal to produce the information and, if applicable, his arbitration on the release of the information.

(Motion of Senator Cormann agreed to 26 October 2010; documents tabled 28 October 2010 and 15 November 2010; document certified 3 February 2011 and tabled 9 February 2011.)
32 Taxation—Mining tax—Government estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government has ignored a request by the Senate for information about where the $10.5 billion in estimated revenue from the mining tax over the 2010-11 forward estimates is expected to come from, by commodity and on a state and territory basis, and

(ii) in what appears to be a consolidated response to three separate orders of the Senate for the production of documents the Government did not provide any of the information requested in the relevant order, nor did the Government provide any explanation as to why release of this information would not be in the public interest;

(b) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(i) the Government estimates of where the $12 billion in revenue from the Resource Super Profits Tax was expected to come from, by commodity and by state and territory, and

(ii) the Government estimates of where the $10.5 billion in revenue from the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax is expected to come from, by commodity and by state and territory;

(c) notes the agreements between the Government and other parties and independents to refer disputes about public interest disclosures to the Information Commissioner, who will arbitrate on the release of documents; and

(d) orders that, if the Government does not produce the information required by this order within the specified timeframe, the report be laid on the table by 15 November 2010, a report on the matter by the Information Commissioner, including a review of the adequacy of the grounds specified by the Government for its refusal to produce the information and, if applicable, his arbitration on the release of the information.

(Motion of Senator Cormann agreed to 26 October 2010; documents tabled 28 October 2010 and 15 November 2010; document certified 3 February 2011 and tabled 9 February 2011.)

33 Superannuation—Productivity Commission report—Order for production of document

That the Senate—

(a) notes that:

(i) the current process to select default superannuation funds under modern awards is not transparent, not objective or evidence based, not competitive and not subject to systematic review,

(ii) the top ten most commonly listed default funds under modern awards are all union based industry super funds, with these ten funds listed as default super funds in modern awards 330 times,

(iii) the Cooper Review into superannuation also confirmed that current default superannuation fund arrangements undermined competition as new employees typically become a member of a default fund, and
(iv) a competitive, transparent and efficient superannuation industry is critically important to maximise value for all superannuants;

(b) endorses the Labor Party’s commitment before the 2010 election to instruct the Productivity Commission to design a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds; and

(c) orders that there be laid on the table, no later than 31 May 2011, a report by the Productivity Commission on the design of a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds, with the requirements that:

(i) the process is to be based on objective criteria and evidence and be subject to systematic review, so that the selection and ongoing review of eligible default funds is transparent and competitive,

(ii) the process is to help maximise employees’ retirement incomes by ensuring that only those superannuation funds that deliver – and continue to deliver – the best results to their members are able to be included as default fund options in modern awards and enterprise agreements, and

(iii) in designing the process the Productivity Commission make reference to the existing sophisticated system of superannuation fund ratings which has evolved over the past 20 years and is already used widely by employees, employers and financial planners in making decisions on fund selection.

(Motion of Senator Cormann agreed to 16 November 2010; documents tabled 9 February and 17 August 2011.)

34 Health—GST Agreement—Proposed variation—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government, as part of its changes to the health system, is proposing to fundamentally alter the Intergovernmental Agreement on the Reform of Commonwealth-State Financial Relations (1999 GST Agreement) with the clear opposition of at least one state – Western Australia, and

(ii) clause 44 of the 1999 GST Agreement states: ‘All questions arising in the Ministerial Council will be determined by unanimous agreement unless otherwise specified in this Agreement’; and

(b) orders that there be laid on the table by 5 pm on Thursday 18 November 2010, any advice (including legal advice and advice from the Solicitor-General or the Australian Government Solicitor) to the Department of the Prime Minister and Cabinet or the Department of the Treasury, or advice from these departments to their respective Ministers, concerning the need for unanimous agreement to vary the GST Agreement.

38 Health—GST Agreement—Proposed variation—Order for production of documents

That the Senate:

(a) notes that:

(i) the Government has refused to provide the information requested by the Senate in relation to advice to Government about the requirement for unanimous agreement from all parties to change the GST arrangements,

(ii) the Government did not justify its refusal by pointing to a recognised public interest ground and by explaining any harm to the public interest from releasing that information,

(iii) both the 1999 Intergovernmental Agreement on the Reform of Commonwealth-State Financial Relations (GST Agreement) as well as the Intergovernmental Agreement on Federal Financial Relations in 2008 require unanimous agreement from all parties to make any changes to GST arrangements,

(a) notes that:
   (i) the Australian Government has entered into separate bilateral agreements with the states and territories and with Block Grant Authorities (BGAs) in relation to the expenditure of funding granted under the Building the Education Revolution (BER) program,
   (ii) the language in the agreements with the states and territories differs from the language in the agreements with the BGAs with respect to the Australian Government’s ability to withhold, suspend or recover monies in the event that the funding is not expended for the purposes of the program and in accordance with the BER Guidelines, and
   (iii) the Minister for Tertiary Education, Skills, Jobs and Workplace Relations indicated at a Senate estimates hearing in October 2010 that the Commonwealth has obtained legal advice that confirms that, notwithstanding the differences in language in the agreements,
under each of the two types of agreements the Commonwealth has the power to withhold or recover monies; and

41 Law and Justice—Water Act 2007—Legal interpretation—Order for production of documents

That the Senate—

(a) notes:

(i) the conflicting and confusing positions of the Labor Government in regards to the legal interpretation of the Water Act 2007,

(ii) that the Minister for Sustainability, Environment, Water, Population and Communities tabled legal advice from the Australian Government Solicitor in the House of Representatives on 25 October 2010 stating that, ‘The nature of the decision-making in relation to the Plan involves the application of broad concepts and there is therefore scope for the consideration of how economic, social and environmental outcomes should be optimised’,

(iii) that the Chairman of the Murray-Darling Basin Authority, Mr Mike Taylor, responded by stating that this advice disagrees with previous advice the Authority had received stating, ‘... clearly the advice we’d had to date had indicated that we were obliged to meet the requirements of adhering to international agreement, and ensuring that we met the environmental flows required to maintain and restore key environmental assets and key ecosystems, and that it was not subject to social and economic impacts’, and

(iv) that, in a statement on 26 October 2010, the Authority revealed that this advice had come from the Minister’s Department of Sustainability, Environment, Water, Population and Communities, in close consultation with the Australian Government Solicitor for legal interpretation; and

(b) resolves that, to clear up the confusion on the legal interpretation, and the consequent effect that is having on the prospects for jobs and investment in Basin communities, there be laid on the table by the Minister representing the Minister for Sustainability, Environment, Water, Population and Communities, no later than Thursday, 10 February 2011, all the advice that the Department of Sustainability, Environment, Water, Population and Communities, the Murray-Darling Basin Authority, the Minister’s office and the Australian Government Solicitor have received or provided on this matter.

(i) the response by the Chairman of the Productivity Commission to an order of the Senate seeking a report by the Commission on the design of a process for the selection and ongoing review of the superannuation funds, which was agreed to by the Senate on 16 November 2010,

(ii) that in a letter to the Clerk of the Senate the Chairman of the Productivity Commission expressed the view that in his understanding ‘such a report would need to be commissioned by the Assistant Treasurer’,

(iii) that like the Australian Information Commissioner, the Chairman of the Productivity Commission appears to have confused a legitimate order of a House of the Australian Parliament for the production of a document, with a request to perform a specific function under his enabling statute, and

(iv) with increasing concern this recently emerging trend of statutory agencies established by the Parliament failing to understand valid orders of the Senate and thereby threatening to interfere with the free exercise by the Senate of its authority and functions;

(b) advises the Productivity Commissioner as follows:

(i) that under section 49 of the Constitution the Senate has the undisputed power to order the production of documents necessary for its information, a power which encompasses documents already in existence and documents required to be created for the purpose of complying with the order,

(ii) this power may be modified only by express statutory declaration, as required by section 49 of the Constitution,

(iii) nothing in the Productivity Commission Act 1998 is expressed as a declaration for the purpose of section 49 that would have the effect of limiting the exercise of the power by the Houses of the Commonwealth Parliament in respect of the Productivity Commission,

(iv) multiple resolutions of the Senate affirm the principle that information may be withheld from it only following consideration by the Senate of a properly founded claim of public interest immunity, and

(v) the Senate has on numerous occasions exercised its power to require statutory agencies and officers to produce information in response to orders; and

(c) again orders the Productivity Commission to provide the report requested by the Senate consistent with its order agreed to on 16 November 2010.

(Motion of Senator Cormann agreed to 10 February 2011; documents tabled 17 August 2011.)

GUIDE TO THE NOTICE PAPER

A Notice Paper is issued each sitting day containing details of current business before the Senate. It works in conjunction with the Senate Order of Business (otherwise known as the Red) which sets out the daily routine of business to be followed as per standing order 57.

Standing orders are the rules or procedures set down by the Senate to govern the Senate and its committees. The current version of The Senate: Standing Orders and other orders of the Senate is available on the Senate website at http://www.aph.gov.au/senate/standing_orders

The publication of the Notice Paper is authorised by standing order 43(2).

Placement of business on the Notice Paper

The way business is placed on the Notice Paper is set down according to standing orders and is listed under one of the following four categories:

- **Matters of privilege** which take precedence over all other business and are listed at the beginning of the Notice Paper when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

- **Business of the Senate** which has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

- **Government business** which is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

- **General business** which is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above. (See below for a breakdown of this section.)

Within each of the above categories you may find notices of motions and/or orders of the day:

- **Notices of motion** are statements indicating that senators intend to move particular motions on the days indicated. They are entered on the Notice Paper in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

- **Orders of the day** are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters, including legislation, or requirements to present committee reports.

On days other than Thursdays, the Notice Paper records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, to take account of General Business at 4.30 pm, a full listing of business relating to the consideration of government documents, committee reports and government responses to committee reports and Auditor-General’s reports is also published.
Sections of the Notice Paper

Other than the sections: Matters of Privilege, Business of the Senate and Government Business, the Notice Paper, may also contain the following:

Orders of the Day relating to Committee Reports and Government Responses and Auditor-General's Reports

Adjourned debates on motions to consider or adopt committee reports and government responses. These orders may be considered for one hour on Thursdays at the conclusion of general business. New items appear on the following day’s Notice Paper. The section is printed in full on Thursdays.

This section can be found residing between Government Business and General Business on the Notice Paper.

General Business

Orders of the Day—Adjourned debates on motions initiated by private senators to take note of business other than a government document or a private senator’s bill as these have their own sections.

Orders of the day relating to Government Documents—Adjourned debates on motions to take note of government documents. Such orders arise from consideration of the government documents presented on a particular day and include consideration of any documents not reached on the day. They are also listed for consideration for up to one hour on Thursdays during the consideration of general business. New items appear in the following day’s Notice Paper. The section is printed in full on Thursdays.

Orders of the day relating to Private Senators’ Bills—Adjourned debates on motions to consider bills introduced by senators in a personal capacity. New items appear in the following day’s Notice Paper.

They can also be listed for consideration for up to 2 hours and 20 minutes on Thursday mornings (temporary order agreed to on 2 November 2010 upon adoption of recommendation in the Procedure Committee’s 4th report of 2010).

Business for Future Consideration

Lists any notice of motion or order of the day to be considered on a specific day in the future, for example, a committee report ordered to be presented on a specific date, or a notice of motion given for a day other than the next day of sitting.

Business, is listed under the date it is to dealt with in the chamber, starting with the next day of sitting. Any business to which a date cannot be allocated, for example, the tabling date may be a result of some other event occurring, will be placed at the end of the section.

Bills Referred to Committees

Lists all bills or provisions of bills currently being considered by Senate or joint committees, including details of: who referred, to which committee, when referred, variations to the reporting date, any interim reports presented and final reporting date.
