1 Legal and Constitutional Affairs References Committee
   Report to be presented on detention of minors.

General Business—Notices of Motion

Notice given 19 September 2011

438 Senator Siewert: To move—That the Senate—
   (a) notes that:
      (i) trawling in the northeast area of the North West Slope Trawl Fishery, in depths of less than 200 metres off the Western Australian Kimberley coast was accidentally made possible due to an administrative error when the Western Australian and Federal Governments amended the Offshore Constitutional Settlement Agreement in 1998,
      (ii) this error accidentally allows bottom trawling in areas shallower than 200 metres despite the fact that this is a critical habitat for goldband snapper and other demersal fish species which have been off-limits to North West Slope Trawl Fishery trawlers as they are a deep water crustacean prawn fishery,
      (iii) the ecological sensitivity of this area has been acknowledged in the Australian Fisheries Management Authority’s correspondence with permit holders,
      (iv) legislative instruments have been introduced prohibiting trawl fishing in this northeast area, but the most recent instrument expired in December 2010,
      (v) since that time, the closure has been maintained informally by industry self-regulation,
      (vi) negotiations between the Federal and Western Australian Governments which were intended to fix this error have stalled and the trawling industry has stated that they will commence bottom trawling in this area on the imminent cessation of the closure which is 30 September 2011,
(vii) a resumption of trawling in this area would adversely impact the benthos and demersal fish stocks of this region, thus putting the entire ESD [ecologically sustainable development] certified Northern Demersal Scalefish Managed Fishery at great sustainable risk, and

(viii) the Western Australian Department of Fisheries has stated in its latest State of the fisheries and aquatic resources report that the demersal scalefish resources in this area are fully exploited; and

(b) calls on the Federal Government to reinstate the North West Slope Fishery Direction No. 02 Area Closure legislative instrument which excludes trawl fishing in the northeast area of the North West Slope Trawl Fishery in Western Australia.

Notice given 20 September 2011

(transferred to the Minister representing the Treasurer on 14 September 2011)

Notice given 31 October 2011

1316 Senator Milne: To ask the Minister representing the Treasurer—In regard to the statutory capped effective life for various categories of oil and gas assets established in section 40-102(5) of the Income Tax Assessment Act 1997:

(1) How much foregone revenue does the department estimate the Commonwealth has and will incur: (a) since the introduction of these tax breaks in 2002; and (b) over the next decade, given the large investments planned in the oil and gas industry.

(2) Has the department conducted, or is it aware of, any cost-benefit analysis for these tax breaks.

(3) Is the department aware of the analysis by the Australian Conservation Foundation that these tax breaks could cost between $1.6 billion and $2 billion annually by 2018 and does it have any reason to doubt this estimate.

(4) What was the reasoning behind the department advising the Treasurer in 2010 that these tax breaks are arguably inefficient and distortionary.

(5) Will the existence of these tax breaks counteract in part the price signal intended to be created by the carbon tax.

Notice given 10 November 2011

1459 Senator Ludlam: To ask the Minister representing the Treasurer—With reference to the Select Committee on Housing Affordability in Australia report, A good house is hard to find: Housing affordability in Australia, dated June 2008:

(1) Of the 33 recommendations, of which at least eight directly relate to the department, how many have been implemented to date.
(2) Can an update on any action be provided, including progress and outcomes made on all recommendations relating to the department, since the report was released.

(3) Given that recommendation 4.1 states ‘In the interests of more informed discussion of arrangements to encourage affordable housing, the Treasury be asked to publish current estimates of various taxation and related measures affecting the housing market’, can a current estimate of taxation and related measures affecting the housing market be provided, including a disaggregated breakdown for spending across all relevant departments.

1460 Senator Ludlam: To ask the Minister representing the Treasurer—With reference to Australia’s Future Tax System report, has the department ever conducted any modelling or analysis on:

(a) the number of recommendations it contained relating to the taxation treatment of housing, and specifically, of Recommendation 14 (p. 70) to ‘Provide a 40 per cent savings income discount to individuals for non-business related:

- (a) net interest income;
- (b) net residential rental income (including related interest expenses);
- (c) capital gains (and losses); and
- (d) interest expenses related to listed shares held by individuals as non-business investments’;

if so, can the modelling/analysis be described and provided;

(b) Recommendation 51 (p. 263) which stated ‘Ideally, there would be no role for any stamp duties, including conveyancing stamp duties, in a modern Australian tax system. Recognising the revenue needs of the States, the removal of stamp duty should be achieved through a switch to more efficient taxes, such as those levied on broad consumption or land bases. Increasing land tax at the same time as reducing stamp duty has the additional benefit of some offsetting impacts on asset prices’; if so, can the modelling/analysis be described and provided;

(c) Recommendation 52 (p. 263) relating to the benefits of implementing a broad based land tax; if so, can the modelling/analysis be described and provided;

(d) Recommendations 102 to 104 (p. 610) relating to increasing the maximum rate of Rent Assistance to assist renters to afford an adequate standard of dwelling, to index the rent maximum to movements in national rents, to base eligibility on rent paid, and to extend Rent Assistance equitably to public housing tenants; if so, can the modelling/analysis described and provided;

(e) Recommendation 105 (p. 610) relating to housing payments to tenants with high or special needs who may face discrimination in the private market; if so, can the modelling/analysis be described and provided.

(3) How many Authorised Deposit-taking Institutions have been the subject of an enforceable undertaking with the Australian Securities and Investments Commission over the past decade.

(4) Is the Minister aware of any Authorised Deposit-taking Institutions which have been promoting retail margin loan products in respect of stocks outside or below the ASX200; if so, does he believe that such an offering is consistent with the findings of the Parliamentary Joint Committee on Corporations and Financial Services’ inquiry into financial products and services in Australia or the intent of the Corporations Legislation Amendment (Financial Services Modernisation) Bill 2009.

(5) Is the Minister aware of Authorised Deposit-taking Institutions with significant debt portfolios in respect of stocks outside or below the ASX200, does he believe that the current arrangements in terms of capital adequacy of Authorised Deposit-taking Institutions is in any way compromised by such portfolios.

1496 Senator Bushby: To ask the Minister representing the Treasurer—In regard to the Future of Financial Advice (FoFA) package of reforms:

(1) How many:

(a) new customers will be impacted directly by the FoFA reforms (e.g. need to make a decision on payment of advise, need to complete forms etc);
(b) existing customers will be impacted directly by the FoFA reforms (e.g. need to make a decision on payment of advice, need to complete forms etc);
(c) customers will be either directly or indirectly impacted by the FoFA reforms, to what effect, and can a financial benefit analysis be provided of these impacts;
(d) financial planners will be impacted by the FoFA reforms; and
(e) financial planning businesses will be impacted by the FoFA reforms.

(2) (a) What is the current state of competition in the financial advice industry—is the industry in a high, moderate or low competitive state; and (b) will the FoFA reforms erect additional barriers to entry for new financial planning businesses and superannuation funds.

(3) Given that media commentary indicates that the FoFA reforms will lead to even greater concentration in the advice industry, has the department discussed this matter with its competition experts; if so, with what results.
(4) (a) What will the impact of the FoFA reforms be on the underlying cost structures of financial planning businesses; and (b) for those businesses that are ASX-listed what will be the impact on their share price.

(10) How many customers will complete an opt-in form and thereby agree to maintain their advisor relationship.

(11) (a) Does the department agree with the Financial Ombudsman Service (FOS) submission that the opt-in system will result in some consumers unwittingly losing their financial advice facility (e.g. mail lost, not opened, deadline date ignored, or simple consumer inertia), and therefore losing access to the FOS in the event of financial loss which they believe has been occasioned by bad advice; and (b) what will be the likely magnitude of this problem and what measures are needed to ensure that such losses are not systemic.

(12) Assuming that the FoFA reforms gain passage during the Autumn sittings of Parliament: (a) what will be the time period for funds and advisers to build systems to comply with the FOS requirements; and (b) how does this preparation time compare to the time which applied to the introduction of the Corporate Law Economic Reform Program (CLERP) 4, CLERP 6, anti-money laundering reforms/Financial Action Task Force, and the financial services reforms.

(13) (a) What additional costs to the industry will be caused by not aligning the MySuper changes with the FoFA reforms; and (b) what will be the impact on customers and funds of this mutually exclusive approach to reform applying to the same industry.

Notice given 13 September 2012

2159 Senator Johnston: To ask the Minister representing the Minister for Families, Community Services and Indigenous Affairs—With reference to the Commonwealth Ombudsman’s report Child Support Agency [CSA], Department of Human Services: Responding to allegations of customer fraud (Report No. 12/2008), which made five recommendations in relation to customer fraud that were accepted by the then General Manager of the CSA:

(1) Have the five recommendations been fully implemented.

2160 Senator Abetz: To ask the Minister representing the Minister for Employment and Workplace Relations—With reference to the answer provided to question no. EW0292_13, taken on notice during the 2012-13 Budget estimates hearing of the Education, Employment and Workplace Relations Legislation Committee: Was the final version of the answer to question on notice no. 1728 (Senate Hansard, 10 May 2012, p. 3311) the same as that drafted by the department.

2161 Senator Boyce: To ask the Minister representing the Attorney-General—With reference to the closure of the Ethiopia-Australia Intercountry Adoption Program, and the fact that, according to freedom of information documents, the decision not to renew the program was made prior to 20 January 2012:

(1) On what basis did the department arrange a trip to Ethiopia and communication about that trip in April 2012, despite the decision to close the program having already been made.

(2) Why did the department not complete the files that were in country and provide a 12 month wind-down of the program.

(3) Why was the program not suspended given that, for example, one file was called to leave Australia for Ethiopia in November 2011 despite the program’s imminent termination.

(4) Given the department’s confirmation that refunds will be provided to affected families for the overseas component of the adoption application, whilst uncertainty remains as to whether state departments will reimburse costs and fees associated with assessments, has the department conducted any follow-up with state departments in order to ensure that families are
reimbursed for total fees paid; if not, what steps will the department take to ensure that state departments reimburse families.

(5) In regard to the administration of the program in Tigray:
   (a) why did the department arrange for a female representative to hold discussions concerning community programs and suitable orphanages in Tigray, despite known gender-equality issues in the region;
   (b) was this situation sensitively handled and did the Australian representative speak Tigrian; and
   (c) why did the department not employ advisors with the necessary cultural needs experience in Ethiopia.

(6) Why is Australia’s performance in intercountry adoption processes comparatively poor, despite fees being significantly higher than in other countries.

(7) Why does Australia spend more money, yet apparently accomplishes less, than other countries in relation to intercountry adoptions, and has the department considered that an independent not-for-profit organisation, with accountability to the department, may be better positioned to run the program.

2162 Senator Waters: To ask the Minister representing the Minister for Sustainability, Environment, Water, Population and Communities—
   (1) Can details be provided of all actions currently being taken by the department, directly or through third parties, that are intended to: (a) protect the Greater Bilby from feral cats and other pests in Queensland; and (b) protect the habitat of the Greater Bilby in Queensland.

   (3) Is like-for-like habitat available and in need of protection within the relevant region; if so, how much of this land could be secured for $80 400.
   (4) Is land available that is suitable for rehabilitation and/or revegetation within the relevant region; if so, how much of this land could be secured for $80 400.
   (5) Can estimates be provided by the department of the:
      (a) average time usually taken for proposed activities involving the clearing of habitat that is expected to have a significant impact on nationally listed species; and
      (b) average cost to proponents of the environmental impact assessment process in situations such as this.
(6) Where the clearing of habitat is approved subject to the proponent securing appropriate offsets:
   (a) what is the standard process undertaken by the department in order to determine an appropriate offset; and
   (b) approximately, what would be deemed an appropriate offset for the clearing of 67,000 square metres, where that land is considered to be ‘strategic’ in that it provides both foraging habitat and critical linkages across the landscape for two nationally listed species.

(7) Can examples be provided of recent offset conditions that have been set by the Minister or department, including information on the quality of habitat lost, the offset ratio and quality of offset to be secured, including where possible the estimated costs to the proponent of securing these offsets.

Notice given 14 September 2012

*2164 Senator Waters: To ask the Minister representing the Minister for Sustainability, Environment, Water, Population and Communities—With regard to the announced budget cuts to the Queensland Department of Environment and Heritage Protection and its impact on the state government’s ability to take on federal environmental responsibilities from March 2013, as planned by the Council of Australian Governments (COAG):

(1) Given that the Government is currently establishing standards to ensure federal environmental protections can be safely handed to the states, will these standards set requirements for adequate resourcing of the state and territory departments intended to take over federal government responsibilities.

(2) Prior to the COAG March 2013 deadline for the handing-over of federal environmental responsibilities to state and territory governments, will the Government assess the impacts that the announced reduction of 220 full-time equivalent positions from the Queensland environment department will have on the state government’s capacity to take responsibility for protecting nationally listed threatened species and ecological communities, the Ramsar wetlands and listed migratory species.

(3) Are there any circumstances in which the Government will not comply with the COAG deadline for handing over these responsibilities to the state government; if so, can details of such circumstances be provided.

(4) If the Queensland environment department is not adequately resourced to take on the responsibilities, will the federal department pay for the additional resources required to ensure adequate resourcing of national environmental protection responsibilities.

(5) Will the Government’s standards, currently under development, require that state and territory governments retain the responsibility for administering national environmental responsibilities, or will they be able to further delegate these responsibilities to local government authorities.

*2165 Senator Abetz: To ask the Minister for Broadband, Communications and the Digital Economy—With reference to the Dateline report ‘The Last Frontier’ broadcast on 21 August 2012, and the response of the Special Broadcasting Service (SBS) Ombudsman to a formal complaint:

(1) What were the specific findings of the SBS Ombudsman.

(2) How were these specific findings acted upon by SBS.
(3) Were viewers informed that ‘the totality of the report was inaccurate and misleading’, as noted in the SBS Ombudsman’s response; if not, why not.

*2166 Senator Abetz: To ask the Minister for Broadband, Communications and the Digital Economy—With reference to the answer provided to question no. 49, taken on notice during the 2012-13 Budget estimates hearing of the Environment and Communications Legislation Committee: How much was the artist’s performing fee that was paid to the Elder who performed the ceremony.

Notice given 17 September 2012

Senator Abetz: To ask the Ministers listed below (Question Nos *2167-*2168)—With reference to the Medical Services Advisory Committee (MSAC):

(1) Did MSAC request that a national data collection of clinical outcomes for non-diabetic problem wounds and ulcers be implemented.

(2) Were the findings of the national study accepted by MSAC in the 2012 assessment Review of Interim Funded Service: Hyperbaric Oxygen Treatment (HBOT), report no. 1054.1; if not, why not.

(3) Was the data accepted as the best available data and embodied in the report.

(4) Did the MSAC report analyse the cost of HBOT as a primary treatment for problem wounds and ulcers, despite listing it as a secondary intervention in its clinical pathway.

(5) Is it correct that HBOT is overwhelmingly regarded as a second-line treatment for problem wounds and ulcers, to be used only after a standard treatment has failed over a period greater than 3 months; if so, why was HBOT analysed as a primary treatment.

(6) Did the report, dealing with 154 patients across Australia, suggest that there was an additional treatment cost of $331 256 if HBOT was used as a first-line treatment, a cost of $2 151 per patient.

(7) Did the MSAC 1054.1 committee state that the healing rates of HBOT and normal wound care are identical, without supporting evidence, and if the outcome is predetermined as being equal, can any form of additional treatment ever be cost effective.

(8) Is it accepted that HBOT has no genuine comparator as it is a second-line treatment.

(9) Can the Minister confirm that the patients included in the national wound care database presented only after having a wound for an average of 19 months, nearly 70 per cent of which healed after 6 months.

(10) Is the Minister aware of any other treatment with a comparable level of success in treating long-term indolent wounds.

(11) Will there be a shift in costs from the Federal Government to state governments as a result of withdrawing the Medicare number for HBOT.

(12) If the Medicare number is withdrawn, will hospital patients undergoing HBOT cease to receive cover from their private health insurance fund, thereby causing a further shift in costs to the states.

(13) Has any analysis been undertaken as to the consequences of this determination by MSAC on the hyperbaric facilities and their ongoing viability at the Royal Hobart Hospital, the Wesley Centre and other treatment centres in Australia, including those in Berwick, Brunswick, Sydney and Perth.
(14) Does MSAC have an independent appeals process when it recommends the withdrawal of public funding for existing treatments.

*2168 Minister for Human Services

Orders for production of documents

33 Taxation—Henry Tax Review—Superannuation—Order for production of documents

That the Senate—

(a) notes that:

(i) the Henry Tax Review made a number of recommendations in relation to superannuation,
(ii) those recommendations were not adopted by either the Rudd or Gillard Governments which pursued proposals criticised in the context of the Henry Tax Review,
(iii) the Government so far has not released any of the Treasury modelling or other relevant information and advice about the impact of those Henry Tax Review recommendations, and
(iv) release of that information is in the public interest to enable a fully informed community discussion about the best way forward for superannuation;

(b) calls on the Government to honour its stated commitment to openness and transparency and release all the information it holds about the Henry Tax Review recommendations on superannuation forthwith; and

(c) orders that there be laid on the table by noon on Thursday, 30 September 2010:

(i) any modelling, assessments or advice generated on superannuation-related issues for the purposes of the Henry Tax Review before it finalised its report and recommendations,
(ii) any Treasury modelling, assessments and advice to the Government about the impact of the Henry Tax Review’s recommendations on superannuation, and
(iii) any other information held by the Government about the superannuation-related recommendations in the Henry Tax Review.

(Motion of Senator Cormann agreed to 29 September 2010; document tabled 30 September 2010.)

34 Taxation—Mining tax—Revenue estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government continues to hide key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,
(ii) since the last sitting of the Senate, the Select Committee on Fuel and Energy repeatedly sought information from the Government about changes it made to those assumptions between the 2010-11 Budget and the announcement of the new proposed mining tax arrangements on 2 July 2010,
(iii) the committee specifically sought information about changes to commodity price, production volume, exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,
(iv) the information sought by the committee is published by the Western Australian State Government in its budget papers as a matter of course,

(v) the Government did not allow the Secretary of the Department of the Treasury (Dr Henry) to provide that information even when he appeared before the committee for a second time on 13 July 2010,

(vi) the Prime Minister (Ms Gillard) to this day has not responded to Senator Cormann’s letter, dated 12 July 2010, asking for this information to be released,

(vii) the Treasurer (Mr Swan) has since conceded that:

(A) under the revised assumptions, the original Resource Super Profits Tax (RSPT) proposal would have raised approximately $24 billion over the forward estimates rather than the $12 billion revenue estimate contained in the Budget,

(B) a massive $6 billion out of the $10.5 billion revised mining tax revenue estimate was based on changes to government assumptions, and

(C) under the original assumptions, the Minerals Resource Rent Tax (MRRT) or expanded Petroleum Resource Rent Tax (PRRT) would only have raised $4 billion over the forward estimates, and

(viii) the release of all relevant government assumptions is necessary to enable proper scrutiny of the Government’s mining tax proposal and that, as such, release of that information is in the public interest;

(b) calls on the Government to honour its stated commitment to openness and transparency and release all the information it holds about mining tax revenue estimates forthwith; and

(c) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010 all the Government’s assumptions used to estimate:

(i) the revenue from the RSPT as contained in the 2010-11 Budget, including but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and

(ii) the revenue from and overall fiscal impact of the MRRT/expanded PRRT arrangement announced on 2 July 2010, including all changes to assumptions used for the 2010-11 Budget.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

35 Taxation—Mining tax—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government conducted negotiations about its revised mining tax with BHP Billiton, Rio Tinto and Xstrata in secret before entering into an agreement about this new mining tax proposal with those three companies only,

(ii) approximately 99 per cent of the mining industry was excluded from those secret mining tax negotiations, and

(iii) in its haste to reach a new deal quickly, the Government gave those three companies an unfair competitive advantage, including by:
(A) allowing them to directly influence the ultimate design of the new tax while excluding their competitors,
(B) using data provided by those three companies on commodity prices, production volumes and other key assumptions, and
(C) giving them preferential access to inside information about Government assumptions and thought processes around the new tax;

(b) considers that:
   (i) information made available by the Government to those three companies should be made available to everyone,
   (ii) any data provided by those three companies for use in any Treasury modelling of the revised mining tax proposals should be publicly released, and
   (iii) all parts of any agreement between the Government and those three companies about the revised mining tax arrangements, including any schedules and other attachments, should be publicly available; and

(c) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:
   (i) any information held by the Government related to the negotiations and agreement about the new mining tax proposal announced on 2 July 2010, including but not limited to, briefing notes, e-mails, data provided to the Government by BHP Billiton, Rio Tinto and Xstrata and any other information generated in the context of the negotiations about the new mining tax proposal, and
   (ii) a copy of the signed heads-of-agreement on the new mining tax proposal between the Government and BHP Billiton, Rio Tinto and Xstrata.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

36 Taxation—Mining tax—Government estimates—Order for production of documents

That the Senate—

(a) notes that:
   (i) the executive director of the Revenue Group in the Department of the Treasury (Mr David Parker) told the Select Committee on Fuel and Energy on 5 July 2010 that the department:
      (A) had assessed where the $10.5 billion estimated revenue from the revised mining tax was expected to come from ‘by commodity’, and
      (B) had not assessed where that revenue would come from on a state-by-state basis, but that ‘it would not be a difficult piece of analysis to do’,
   (ii) despite repeated requests since, the Government has refused to provide that information,
   (iii) this information is required to properly assess and scrutinise the impact of the proposed mining tax on the economy, jobs and on individual states and territories and individual sectors of the resources industry,
(iv) furthermore, the Rudd and Gillard Governments made a commitment that funding from the mining tax related ‘infrastructure fund’ would be allocated to individual states and territories based on the level of mining tax revenue raised in those jurisdictions, and

(v) as such, information about where the revenue is expected to come from on a state-by-state and territory basis is necessary to properly scrutinise whether, and ensure that, individual jurisdictions would receive a fair share of funding from that fund; and

(b) orders that there be laid on the table by 5 pm on Thursday, 30 September 2010:

(i) government estimates of where the $12 billion in revenue from the Resource Super Profits Tax was expected to come from by commodity and by state and territory, and

(ii) government estimates of where the $10.5 billion in revenue from the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax is expected to come from by commodity and by state and territory.

(Motion of Senator Cormann agreed to 30 September 2010; document tabled 30 September 2010.)

37 Taxation—Mining tax—Revenue estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government has refused to provide information requested by the Senate about key assumptions it has used to estimate revenue from its original as well as its revised mining tax proposals,

(ii) specifically, the Government has refused to provide information about changes to commodity price, production volume and exchange rate assumptions and any other variables relevant to its mining tax revenue estimates,

(iii) in its response to the relevant order of the Senate, the Government justified its refusal to provide the information on the basis that, ‘commodity price forecasts underpinning the terms of trade forecasts are based in part on information provided by companies that is commercial in confidence. Disclosure of these individual commodity price forecasts may therefore prejudice negotiations between private companies’,

(iv) the information sought by the Senate is published by the Western Australian State Government in its budget papers as a matter of course, and

(v) information published by the Western Australian Government includes its commodity price assumptions developed after relevant information about commodity price expectations is obtained from relevant mining companies, which includes at least some of the companies involved in the mining tax negotiations with the Federal Government;

(b) based on the Government’s response does not accept that there are any legitimate public interest grounds for the Government to refuse to provide the requested information;
(c) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(i) all the Government assumptions used to estimate the revenue from the Resource Super Profits Tax as contained in the 2010-11 budget, including, but not limited to, the assumptions on commodity prices, production volumes and exchange rates, and

(ii) all the Government assumptions used to estimate the revenue from and overall fiscal impact of the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax arrangement announced on 2 July 2010, including all changes to assumptions used for the 2010-11 budget;

(d) notes the agreements between the Government and other parties and independents to refer disputes about public interest disclosures to the Information Commissioner, who will arbitrate on the release of documents; and

(e) orders that, if the Government does not produce the information required by this order within the specified timeframe, there be laid on the table by 15 November 2010, a report on the matter by the Information Commissioner, including a review of the adequacy of the grounds specified by the Government for its refusal to produce the information and, if applicable, his arbitration on the release of the information.

(Motion of Senator Cormann agreed to 26 October 2010; documents tabled 28 October 2010 and 15 November 2010; document certified 3 February 2011 and tabled 9 February 2011.)

38 Taxation—Mining tax—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government has refused to provide any of the information requested by the Senate about its negotiations with BHP Billiton, Rio Tinto and Xstrata on the revised mining tax proposal,

(ii) in relation to some of the information only, the Government justified its refusal in its response to the relevant Senate order on the basis that, ‘Data and other material provided to the Treasury as part of negotiations around the MRRT are considered to be commercial in confidence’,

(iii) no justification was provided by the Government as to why release of any of the other information was not in the public interest, and

(iv) specifically, no reason was provided by the Government as to why the release of the signed heads-of-agreement between the Government and BHP Billiton, Rio Tinto and Xstrata would not be in the public interest;

(b) considers release of all the information requested on the negotiations between the Government and BHP Billiton, Rio Tinto and Xstrata about the revised mining tax proposal to be in the public interest;

(c) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(i) any information held by the Government related to the negotiations and agreement about the new mining tax proposal announced on 2 July 2010, including, but not limited to, briefing notes, emails, data provided to the Government by BHP Billiton, Rio Tinto and
Xstrata and any other information generated in the context of the negotiations about the new mining tax proposal, and

(ii) a copy of the signed heads-of-agreement on the new mining tax proposal between the Government and BHP Billiton, Rio Tinto and Xstrata;

(d) notes the agreements between the Government and other parties and independents to refer disputes about public interest disclosures to the Information Commissioner, who will arbitrate on the release of documents; and

(e) orders that, if the Government does not produce the information required by this order within the specified timeframe, there be laid on the table by 15 November 2010, a report on the matter by the Information Commissioner, including a review of the adequacy of the grounds specified by the Government for its refusal to produce the information and, if applicable, his arbitration on the release of the information.

(Motion of Senator Cormann agreed to 26 October 2010; documents tabled 28 October 2010 and 15 November 2010; document certified 3 February 2011 and tabled 9 February 2011.)

39 Taxation—Mining tax—Government estimates—Order for production of documents

That the Senate—

(a) notes that:

(i) the Government has ignored a request by the Senate for information about where the $10.5 billion in estimated revenue from the mining tax over the 2010-11 forward estimates is expected to come from, by commodity and on a state and territory basis, and

(ii) in what appears to be a consolidated response to three separate orders of the Senate for the production of documents the Government did not provide any of the information requested in the relevant order, nor did the Government provide any explanation as to why release of this information would not be in the public interest;

(b) orders that there be laid on the table by noon on Thursday, 28 October 2010:

(i) the Government estimates of where the $12 billion in revenue from the Resource Super Profits Tax was expected to come from, by commodity and by state and territory, and

(ii) the Government estimates of where the $10.5 billion in revenue from the Minerals Resource Rent Tax/expanded Petroleum Resource Rent Tax is expected to come from, by commodity and by state and territory;

(c) notes the agreements between the Government and other parties and independents to refer disputes about public interest disclosures to the Information Commissioner, who will arbitrate on the release of documents; and

(d) orders that, if the Government does not produce the information required by this order within the specified timeframe, there be laid on the table by 15 November 2010, a report on the matter by the Information Commissioner, including a review of the adequacy of the grounds specified
by the Government for its refusal to produce the information and, if applicable, his arbitration on the release of the information.

(Motion of Senator Cormann agreed to 26 October 2010; documents tabled 28 October 2010 and 15 November 2010; document certified 3 February 2011 and tabled 9 February 2011.)

40 Superannuation—Productivity Commission report—Order for production of document

That the Senate—

(a) notes that:

(i) the current process to select default superannuation funds under modern awards is not transparent, not objective or evidence based, not competitive and not subject to systematic review,

(ii) the top ten most commonly listed default funds under modern awards are all union based industry super funds, with these ten funds listed as default super funds in modern awards 330 times,

(iii) the Cooper Review into superannuation also confirmed that current default superannuation fund arrangements undermined competition as new employees typically become a member of a default fund, and

(iv) a competitive, transparent and efficient superannuation industry is critically important to maximise value for all superannuants;

(b) endorses the Labor Party’s commitment before the 2010 election to instruct the Productivity Commission to design a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds; and

(c) orders that there be laid on the table, no later than 31 May 2011, a report by the Productivity Commission on the design of a process for the selection and ongoing review of the superannuation funds to be included in modern awards or enterprise agreements as default funds, with the requirements that:

(i) the process is to be based on objective criteria and evidence and be subject to systematic review, so that the selection and ongoing review of eligible default funds is transparent and competitive,

(ii) the process is to help maximise employees’ retirement incomes by ensuring that only those superannuation funds that deliver – and continue to deliver – the best results to their members are able to be included as default fund options in modern awards and enterprise agreements, and

(iii) in designing the process the Productivity Commission make reference to the existing sophisticated system of superannuation fund ratings which has evolved over the past 20 years and is already used widely by employees, employers and financial planners in making decisions on fund selection.

(Motion of Senator Cormann agreed to 16 November 2010; documents tabled 9 February and 17 August 2011.)

41 Health—GST Agreement—Proposed variation—Order for production of documents

That the Senate—

(a) notes that:

45 Health—GST Agreement—Proposed variation—Order for production of documents

That the Senate:

(a) notes that:
   (i) the Government has refused to provide the information requested by the Senate in relation to advice to Government about the requirement for unanimous agreement from all parties to change the GST arrangements,

(i) the Australian Government has entered into separate bilateral agreements with the states and territories and with Block Grant Authorities (BGAs) in relation to the expenditure of funding granted under the Building the Education Revolution (BER) program,

(ii) the language in the agreements with the states and territories differs from the language in the agreements with the BGAs with respect to the Australian Government’s ability to withhold, suspend or recover monies in the event that the funding is not expended for the purposes of the program and in accordance with the BER Guidelines, and

(iii) the Minister for Tertiary Education, Skills, Jobs and Workplace Relations indicated at a Senate estimates hearing in October 2010 that the Commonwealth has obtained legal advice that confirms that, notwithstanding the differences in language in the agreements, under each of the two types of agreements the Commonwealth has the power to withhold or recover monies; and

(ii) that the Minister for Sustainability, Environment, Water, Population and Communities tabled legal advice from the Australian Government Solicitor in the House of Representatives on 25 October 2010 stating that, ‘The nature of the decision-making in relation to the Plan involves the application of broad concepts and there is therefore scope for the consideration of how economic, social and environmental outcomes should be optimised’,

(iii) that the Chairman of the Murray-Darling Basin Authority, Mr Mike Taylor, responded by stating that this advice disagrees with previous advice the Authority had received stating, ‘... clearly the advice we’d had to date had indicated that we were obliged to meet the requirements of adhering to international agreement, and ensuring that we met the environmental flows required to maintain and restore key environmental assets and key ecosystems, and that it was not subject to social and economic impacts’, and

(iv) that, in a statement on 26 October 2010, the Authority revealed that this advice had come from the Minister’s Department of Sustainability, Environment, Water, Population and Communities, in close consultation with the Australian Government Solicitor for legal interpretation; and

(ii) that in a letter to the Clerk of the Senate the Chairman of the Productivity Commission expressed the view that in his understanding ‘such a report would need to be commissioned by the Assistant Treasurer’,

(iii) that like the Australian Information Commissioner, the Chairman of the Productivity Commission appears to have confused a legitimate order of a House of the Australian Parliament for the production of a document, with a request to perform a specific function under his enabling statute, and

(iv) with increasing concern this recently emerging trend of statutory agencies established by the Parliament failing to understand valid orders of the Senate and thereby threatening to interfere with the free exercise by the Senate of its authority and functions;

(b) advises the Productivity Commissioner as follows:

(i) that under section 49 of the Constitution the Senate has the undisputed power to order the production of documents necessary for its information, a power which encompasses documents already in existence and documents required to be created for the purpose of complying with the order,

(ii) this power may be modified only by express statutory declaration, as required by section 49 of the Constitution,

(iii) nothing in the Productivity Commission Act 1998 is expressed as a declaration for the purpose of section 49 that would have the effect of limiting the exercise of the power by the Houses of the Commonwealth Parliament in respect of the Productivity Commission,

(iv) multiple resolutions of the Senate affirm the principle that information may be withheld from it only following consideration by the Senate of a properly founded claim of public interest immunity, and
(v) the Senate has on numerous occasions exercised its power to require statutory agencies and officers to produce information in response to orders; and

(c) again orders the Productivity Commission to provide the report requested by the Senate consistent with its order agreed to on 16 November 2010.

GUIDE TO THE NOTICE PAPER

A Notice Paper is issued each sitting day containing details of current business before the Senate. It works in conjunction with the Senate Order of Business (otherwise known as the Red) which sets out the daily routine of business to be followed as per standing order 57.

Standing orders are the rules or procedures set down by the Senate to govern the Senate and its committees. The current version of The Senate: Standing Orders and other orders of the Senate is available on the Senate website at www.aph.gov.au/About_Parliament/Senate/Powers_practice_n_procedures/standingorders

The publication of the Notice Paper is authorised by standing order 43(2).

Placement of business on the Notice Paper

The way business is placed on the Notice Paper is set down according to standing orders and is listed under one of the following four categories:

- **Matters of privilege** which take precedence over all other business and are listed at the beginning of the Notice Paper when they arise. They consist of notices of motion which the President has determined warrant such precedence and any orders relating to adjourned debates on such motions.

- **Business of the Senate** which has precedence over government and general business for the day on which it is listed. It includes disallowance motions, orders of the day for the presentation of committee reports, motions to refer matters to standing committees, motions for leave of absence for a senator and motions concerning the qualification of a senator.

- **Government business** which is business initiated by a minister including the consideration of government legislation. It takes precedence over general business except for a period of 2½ hours each week set aside on Thursdays for general business.

- **General business** which is all other business initiated by senators who are not ministers. It takes precedence over government business only as described above. (See below for a breakdown of this section.)

Within each of the above categories you may find notices of motions and/or orders of the day:

- **Notices of motion** are statements indicating that senators intend to move particular motions on the days indicated. They are entered on the Notice Paper in the order given and may be given jointly by two or more senators. Notices of motion are usually considered before orders of the day.

- **Orders of the day** are items of business which the Senate has ordered to be considered on particular days, usually arising from adjourned debates on matters, including legislation, or requirements to present committee reports.

On days other than Thursdays, the Notice Paper records all business of the Senate and government business items, but includes only new items of general business from the previous sitting day. On Thursdays, to take account of General Business at 4.30 pm, a full listing of business relating to the consideration of government documents, committee reports and government responses to committee reports and Auditor-General’s reports is also published.
