Part 3H—Emissions reduction safeguard mechanism

Division 1—Introduction

22XD  Simplified outline of this Part

- This Part sets up a mechanism to ensure that net covered emissions of greenhouse gases from the operation of a designated large facility do not exceed the baseline applicable to the facility.
- The mechanism starts on the safeguard commencement day.
- A facility is a designated large facility for a financial year if the number of tonnes of carbon dioxide equivalence of the total amount of covered emissions of greenhouse gases from the operation of the facility during the year exceeds the number specified in the safeguard rules.
- The net emissions number for a facility for a period is the number of tonnes of carbon dioxide equivalence of the total amount of covered emissions of greenhouse gases from the operation of the facility during the period:

  (a) reduced by surrendered prescribed carbon units (for this purpose, Australian carbon credit units purchased by the Commonwealth are taken to have been surrendered); and
  (b) increased by Australian carbon credit units that were issued in relation to the facility.

- Each designated large facility will be subject to a monitoring period. If, at the end of a monitoring period, the net emissions number for the facility for the monitoring period exceeds the baseline emissions number for the facility for the monitoring period, an excess emissions situation exists in relation to the facility.
- If a person is the responsible emitter for a facility, the person must ensure that an excess emissions situation does not exist in relation to the facility.
Division 2—Limit on emissions

22XE Excess emissions situation

(1) For the purposes of this Act, if:
   (a) there is a monitoring period for a facility in relation to a person; and
   (b) the net emissions number for the facility for the monitoring period exceeds the baseline emissions number for the facility for the monitoring period;

an excess emissions situation exists in relation to the facility for the monitoring period, unless an exemption declaration mentioned in subsection (2) is in force in relation to the facility and the monitoring period.

Note 1: For monitoring period, see section 22XG.

Note 2: For net emissions number, see section 22XK.

Note 3: For baseline emissions number, see section 22XL.

Exemption declaration

(2) The safeguard rules may empower the Regulator to declare in writing that an excess emissions situation does not exist in relation to a specified facility for a specified monitoring period. The declaration is to be known as an exemption declaration.

(3) The safeguard rules must provide that the Regulator may only make an exemption declaration on the application of the person who was the responsible emitter for the relevant facility during the relevant monitoring period.

(4) The safeguard rules must provide that the Regulator must not make an exemption declaration unless the Regulator is satisfied that:
   (a) disregarding subsections 22XK(2) and (3), the net emissions number for the relevant facility for the relevant monitoring period exceeds the baseline emissions number for the facility for the monitoring period; and
   (b) that excess is the direct result of any or all of the following:
      (i) a natural disaster;
      (ii) criminal activity;
      (iii) circumstances that, under the safeguard rules, are taken to be exceptional circumstances for the purposes of this subsection; and
   (c) the responsible emitter:
      (i) has taken reasonable steps to mitigate risks of the relevant circumstance referred to in subparagraph (b)(i), (ii) or (iii) resulting in the situation described in paragraph (a); and
      (ii) has done so both before and after the occurrence of the circumstance; and
   (d) such other conditions (if any) as are set out in the safeguard rules are satisfied.

22XF Duty to ensure that excess emissions situation does not exist

(1) If:
   (a) a person is or was the responsible emitter for a facility; and
   (b) there is a monitoring period for the facility in relation to the person;

the person must ensure that an excess emissions situation does not exist in relation to the facility for the monitoring period at any time on or after:
   (c) if the monitoring period ends at the end of a financial year—1 March next following the financial year; or
   (d) if the monitoring period ends during a financial year—1 March next following the financial year.
Civil penalty:
(e) for an individual—one-fifth of the prescribed number of penalty units; or
(f) otherwise—the prescribed number of penalty units.

(2) For the purposes of paragraphs (1)(e) and (f), *prescribed number* means the number prescribed by the regulations.

(3) In recommending to the Governor-General the regulations that should be made for the purposes of subsection (2), the Minister must have regard to:
   (a) the principle that a responsible emitter must not be allowed to benefit from non-compliance, having regard to the financial advantage the responsible emitter could reasonably be expected to derive from an excess emissions situation; and
   (b) such other matters (if any) as the Minister considers relevant.

(4) The Minister must take all reasonable steps to ensure that regulations are in force for the purposes of subsection (2) at all times on and after the safeguard commencement day.

**Division 3—Key concepts**

22XG Monitoring periods

*Monitoring period*—single financial year

(1) For the purposes of this Act, if:
   (a) a person is the responsible emitter for a facility throughout a financial year; and
   (b) the financial year is not included in a declared multi-year period for the facility; and

Note: For declared multi-year period, see subsection (5).

Declared multi-year period

(5) The safeguard rules may empower the Regulator to declare in writing that, for the purposes of this section, a specified period is a declared multi-year period for a specified facility.

(6) The specified period must consist of 2 or more consecutive financial years.

22XH Responsible emitter

For the purposes of this Act, a person is the responsible emitter for a facility at a particular time if:
   (a) the person has operational control of the facility at that time; and
   (b) that time occurs on or after the safeguard commencement day.

22XI Covered emissions

For the purposes of this Act, covered emissions of greenhouse gases means scope 1 emissions of one or more greenhouse gases, other than emissions of a kind specified in the safeguard rules.

22XJ Designated large facility

(1) For the purposes of this Act, a facility is a designated large facility for a financial year if:
   (a) the total amount of covered emissions of greenhouse gases from the operation of the facility during the financial year has a carbon dioxide equivalence of a particular number of tonnes; and
   (b) that number exceeds the number specified in the safeguard rules.

(2) The Minister must take all reasonable steps to ensure that safeguard rules are in force for the purposes of paragraph (1)(b) at all times on and after the safeguard commencement day.

22XK Net emissions number

(1) For the purposes of this Act, the net emissions number for a facility for a period is the number of tonnes of carbon dioxide equivalence of the total amount of covered emissions of greenhouse gases from the operation of the facility during the period.

Reduction—surrender of prescribed carbon units

(2) If:
   (a) a number of prescribed carbon units are surrendered on a particular occasion; and
(b) the notice surrendering the units contains a statement to the effect that the units are being surrendered for the purpose of reducing the net emissions number for a facility for a period;

the net emissions number for the facility for the period is reduced (but not below zero) by the number of prescribed carbon units surrendered.

Note: For surrender of prescribed carbon units, see section 22XN.

(3) If:

(a) a person surrendered a number of prescribed carbon units for the purpose of reducing the net emissions number for a facility for a period; and

(b) under the safeguard rules:

(i) there is taken to be an excess surrender situation of the person in relation to the facility for the period; and

(ii) one or more of those units are taken to be covered by the excess surrender situation;

the safeguard rules may provide that this section has effect as if:

(c) the person had not surrendered the prescribed carbon units covered by the excess surrender situation for the purpose of reducing the net emissions number for the facility for the period; and

(d) the person had, at a time ascertained in accordance with the safeguard rules, surrendered, in relation to a later period ascertained in accordance with the safeguard rules, some or all of the prescribed carbon units covered by the excess surrender situation for the purpose of reducing the net emissions number for the facility for that later period.

Increase—Australian carbon credit units that were issued in relation to the facility

(4) If:

(a) a person (the relevant person) was the responsible emitter for a facility throughout a particular period; and

(b) during that period, one or more Australian carbon credit units were issued under the Carbon Credits (Carbon Farming Initiative) Act 2011 in respect of an eligible offsets project; and

(c) some or all of those Australian carbon credit units are attributable to carbon abatement at the facility; and

(d) if the units covered by paragraph (c) were issued to another person:

(i) the relevant person consented to the other person carrying out the project; and

(ii) the consent was given under regulations or legislative rules made for the purposes of paragraph 15(2)(h) or 27(4)(l) of the Carbon Credits (Carbon Farming Initiative) Act 2011;

the net emissions number for the facility for the period is increased by the total number of those Australian carbon credit units.

22XL Baseline emissions number

(1) The baseline emissions number for a facility for a financial year is the number ascertained in relation to the facility in accordance with the safeguard rules.

Note: See also section 22XQ.
(2) The baseline emissions number for a facility for a period other than a financial year is the number worked out using the formula:

\[
\text{Baseline emissions number for the facility for a financial year} \times \frac{\text{Number of days in the period}}{365}
\]

(3) The Minister must take all reasonable steps to ensure that safeguard rules are in force for the purposes of subsection (1) at all times on and after the safeguard commencement day.

22XM Prescribed carbon unit

(1) For the purposes of this Act, prescribed carbon unit means:

(a) an Australian carbon credit unit; or

(b) a unit that is specified in the safeguard rules.

It is immaterial whether a unit specified in the safeguard rules was issued in or outside Australia.

(2) A unit must not be specified in safeguard rules made for the purposes of paragraph (1)(b) unless:

(a) the unit was issued under a scheme relating to either or both of the following:
   (i) the removal of one or more greenhouse gases from the atmosphere;
   (ii) the avoidance of emissions of one or more greenhouse gases;

(b) the unit represents carbon abatement that is able to be used to meet Australia’s climate change targets under:
   (i) the Kyoto Protocol; or
   (ii) an international agreement (if any) that is the successor (whether immediate or otherwise) to the Kyoto Protocol.

For the purposes of the application of the definition of Kyoto Protocol to paragraph (b)(ii), if the Doha Amendment is not in force for Australia, the Doha Amendment is taken to be in force for Australia.

Division 4—Surrender of prescribed carbon units

22XN How prescribed carbon units are surrendered

(1) If a person is the registered holder of one or more prescribed carbon units, the person may, by electronic notice transmitted to the Regulator, surrender any or all of those units.

(2) A notice under subsection (1) must:

(b) set out a statement to the effect that the prescribed carbon unit or units are being surrendered for the purpose of reducing the net emissions number for a specified facility for a specified period; and

(c) specify the account number or account numbers of the person’s Registry account, or the person’s Registry accounts, in which there is an entry or entries for the prescribed carbon unit or units that are being surrendered.

(3) If an Australian carbon credit unit is surrendered by a person for the purposes of reducing the net emissions number for a facility for a period:

(a) the unit is cancelled; and

(b) the Regulator must remove the entry for the unit from the person’s Registry account in which there is an entry for the unit.
(4) If a prescribed carbon unit (other than an Australian carbon credit unit) is surrendered by a person:
   (a) the Regulator must take such action in relation to the unit as is specified in the safeguard rules; and
   (b) the Regulator must remove the entry for the unit from the person’s Registry account in which there is an entry for the unit.

(5) The Registry must set out a record of each notice under subsection (1).

      (i) the relevant person consented to the other person carrying out the project; and
      (ii) the consent was given under regulations or legislative rules made for the purposes of paragraph 15(2)(h) or 27(4)(l) of the *Carbon Credits (Carbon Farming Initiative) Act 2011*; and
   (e) some or all of the units covered by paragraph (c) were purchased by the Commonwealth under a carbon abatement contract;
   section 22XK has effect as if:
   (f) the units covered by paragraph (e) had been surrendered by electronic notice transmitted to the Regulator under subsection (1) of this section instead of being purchased by the Commonwealth under a carbon abatement contract; and
   (g) the notice surrendering the units had contained a statement to the effect that the units are being surrendered for the purpose of reducing the net emissions number for the facility for the period.
