Question No.

Ms GILLARD (Lalor—Minister for Education, Minister for Employment and Workplace Relations and Minister for Social Inclusion) (6.27 pm)—I indicate that the government is very happy to accept and support this amendment. It is a good idea. We are in favour of this kind of transparency. Obviously the shadow minister put this policy proposal to us, and we are happy to acknowledge that it is a good idea and an appropriate amendment to the legislation. We were a little bit anxious about the time frames, but that has been resolved with a 60-day time frame being included in this amendment. On that basis it will have the government's support as well.

Question agreed to.

Bill, as amended, agreed to.
