Speaker	Collins, Sen Jacinta	Question No.	

Senator JACINTA COLLINS (Victoria—Parliamentary Secretary for School Education and Workplace Relations) (12:16): I think that it seems for Senator Cormann I need to reiterate that the items listed in proposed section 19-38(4) are quite specific as to the nature in which the expenditure can occur. We are talking about specific issues such as providing legal services to students and caring for the children of students, and they do not stray anywhere near the mischief that is being suggested by the opposition.
